## **PhotoPlay!: Doodle. Design. Draw.** M.J. Bronstein

Wondrous and wacky photographs paired with quirky, clever prompts make *PhotoPlay!* a delightful invitation to imaginative exploration! Design an upside-down world, a passing parade, and an underwater garden. Draw a tasty birthday cake for Bob, a pet for Grace, and Ravi's imaginary friend. This offbeat photo-based doodle book invites creative minds of all ages to draw outside the lens.

## **From Reader Review PhotoPlay!: Doodle. Design. Draw. for online ebook**

### **Mary Ann says**

Really a cut above other art books like this to inspire creativity and drawing.

---

### **Erik This Kid Reviews Books says**

Give me a pencil! Ms. Bronstein is a professional photographer and an art educator at the Center for Maine Contemporary Art. She packed this book with photographs or parts of photographs she has taken from around the world. The reader is supposed to complete the photographs! That's completely cool! There is 128 pages of doodling fun in the book. I think it'd be great for car rides or rainy days. It is very creative and lets your imagination run wild. Kids of any age kid will love this! I like that Ms. Bronstein mixes up the photographs - animals – buildings – landscape – people – objects – pretty much anything you can think of. There are blurbs on each page meant as a prompt as what to draw (or at least get your imagination going). Get ready for hours of fun!

\*NOTE I got a free copy of this book in exchange for an honest review

### **Ms. Yingling says**

It's been a long, cold winter, and when my children were small, this kind of weather necessitated a lot of drawing. There were the Ed Emberley Thumbprint Art books that left me with permanently stained digits, rolls of paper for murals, regular coloring books, "outside the box" coloring books, and some math oriented tessellation and pattern related tomes. Photoplay! is an excellent addition to this type of drawing book. Each page consists of a photograph and a prompt ( "Grace is walking her pet.", "Dylan sees a snow monster.", "There are zombies in this house.") with considerable white space left for a drawing. Bronstein includes a brief forward about drawing on photographs and has an interesting web site, [Inthisplayground.com](http://Inthisplayground.com)

### **Barbara says**

This nifty book is sure to inspire readers to draw, sketch, embellish, or write stories based on the photographs and prompts included on its pages. They are black and white and clearly intended to nurture the creative side of each of us. Some characters appear in several different photographs, and some images and prompts spill over from one page to the next. This book will surely invite readers to think outside of the lines and to explore the world around them, whether that world is based in reality or fantasy. I can think of no larger a compliment than to say that I wish I had had this book when I was a child or teen. This one ruins the traditional coloring book for readers since its openness calls out, "Stretch your imagination. Dare to think for yourself. Design your own world."

### **Sindy Martinez says**

AMAZING BOOK!!!! I am very happy and excited I was one of the lucky winners. This book is made and designed to explore your imagination. To not be scared and to draw and color all over the pages. PhotoPlay is great for family-time get together. And I think its for all ages from young children to adults.

\*\*I would highly recommend. Thank you again M.J. Bronstein for sending me a copy.
