## **Sweaters & Cigarettes** Mika Fox

Theo can't stop looking at Max. With those black clothes and piercings, and that sarcastic charm that's enough to intimidate pretty much anyone, he's not exactly what you would call ordinary. Especially not when Theo is as ordinary as it gets, for a high schooler, along with all the insecurity and awkwardness that comes with it.

Basically, Max is everything Theo is not, but no matter how hard Theo tries, he can't get him off his mind. He's honestly crushing on him so hard, that it's not even funny.

Theo has never spoken to Max, has even tried to hate him, but when their paths actually cross, their first conversation takes a surprising turn. And before long, they both find themselves falling harder and faster than they ever could have anticipated.

Sweaters & Cigarettes is a story about first love, first times, and all the sweet thrills that go along with it.

(This book has some mature content)

# From Reader Review Sweaters & Cigarettes for online ebook

## Amanda Jones says

When I first read this blurb I knew I had to read this. When I actually started reading it .. I thought I was in YA heaven! It was soo good .. It was all I could do to put it down when my attention was needed elsewhere. Max .. \*sigh\* I love emo boys .. and he was just the sweetest thing ever! Him and Theo were sickly sweet together .. a heck of a lot of fluff but it was really good fluff and no drama what so ever between them .. oddly enough it was the parents. So that was nice .. but this book was just simply too long and drawn out. I think it would have been totally fine with 300 pages or less. It was just barely holding my interest so I finally had to start skimming at 81%! But without a doubt Max was the best thing about this book!!

---

## Sylvia says

Sweet

Yay I finally finished the book !!!

Pff what a struggle

It was just so long....

*(hey that's just my opinion )*

How Max and Theo first meet and talk/have a discussion/argue about Superman&Batman was just so funny,

Max finally couldn't stand it anymore and kissed Theo just to shut him up not expecting that Theo liked kissing him back

*(I found that so adorable)*

Max and Theo together was just so sweet I loved them!!

Their relationship progressed slowly they make out a lot but it takes a while before they go to second base ect.

I liked reading this book but after a while it felt like I just keep reading the same thing and I skimmed a lot hence the reason I struggled to finish.

**I liked the cover!**

---

## Tess says

I loved Max and Theo together right from their first kiss! I enjoyed this enough to give it five stars - my only reservation was that it was a little longer than it had to be.

---

## Shani Ohana says

ughhh i love this so much, i fell in love with the characters and the story

---

## meep says

WAY better then it thought

---

## Lauren says

I'm not into love stories (mostly, I read for the sex) but damn did I fall in love with this couple. I was so in love that I didn't want the book to end and frequently reread previous chapters so that I could prolong their story.

Sweaters and Cigarettes features realistic characters, who each had their problems and insecurities that I could relate to. Each character had their own identity and brought depth to the story, particularly the minor characters of Riley and Cassie. It is impossible not to love Theo's little brother, Riley, he's just so sweet and observant, and Cassie brought a smile to my face with some of her remarks. The relationships that developed in this book, both romantic and platonic, were beautifully done.

One of my favourite things about this book is that when Theo is uncomfortable with a sexual act or isn't ready, Max doesn't push him. The respect and consideration between the two really made the couple, as well with Theo reading Max and knowing when to mention something or not. Fox really balances the smut and the fluff in this book, including extremely hot scenes and deliciously cute scenes.

Finally finishing S&C was sad, but I closed the book with a smile on my face. Fox captures the relationship of this teenage couple in a way that made me believe there is so much more of their story, that their relationship will progress, and things will change, maybe one day they'll part ways, but the months they had that I joined them for were worth everything.

## Mare SLiTsRead Reviews says

Awe this book was so freaking cute and hot and cute and YA.  
I mean the rela was YA but the sex was grown.

But in all actuality i really liked the writing. It worked for me.  
The book is long.

LONG

LOOOOOOOOOOOOOOOOONNNNNNNNNNNNNNNNGGGGGGGGGGGGGG

### **Cheryl says**

A solid 4.5 stars for this one. I loved it but was disappointed with the HFN ending. This is about Theo the geeky virgin and Max the goth who is not stranger to one night stands. We follow the development of their relationship from their first kiss behind the school. Max kisses Theo as a way to shut him up after a ridiculous argument over who is better - superman or batman. The span of the whole thing is the last 5 months of their senior year, leading up to graduation. It somehow feels wrong to love the chemistry between the two MC's and their sexual encounters since they are only 18 but wow, they were seriously hot together. We see what their home lives are like and feel somewhat sorry for Max as his parents aren't exactly interested in him and Theos parents aren't exactly encouraging after seeing Max who looks rather intimidating. Despite everything against them, they make it work. I'd've liked an epilogue or a look into their future tho.

---

### **Hazel Spivey says**

Although the writing could of been way better, I really enjoyed the storyline and thought it was sweet and overall good:)

---

### **Christina P says**

3.5-4 Stars: Feel in love with Max and Theo!!! It was a little to long and dragged out for me. I was hoping for HEA not HFN but overall it was a great book!

---

### **Sarabeth says**

**Wow**

This could easily be a guilty pleasure. Oh the angst and reward of teenage love. Even though it's about high school kids, it's very rewarding in its way and although just the slightest saccharine, I guess I needed it. Exactly right. It could have easily been shortened a bit, but I kind of like the way it drew out. It really gives you time to get to know the boys, and change with them as they grow together.

---

### **LuCee says**

I enjoyed this, but... and it's not a big but, just me being picky. Sweaters & Cigarettes is really well written, the story was sweet and the character's voices distinct and genuine. This could easily have been four stars for me but, and I can't believe I'm saying this, but...it was too long. At points it became repetative and I found myself skimming until something came up that moved the story along. I wanted it a little tighter. Don't get

me wrong, I really enjoyed it, and will definitely look for more from this author.

---

### **Kristy says**

First, let me start off by saying. I really, really wanted to like this book. I thought I was going to like this book. Unfortunately, I didn't.

My main problem with the book was repetitiveness. The book was telling me over and over how Theo never heard someone talk like Max. He was forever saying how he had a crush on Max. Chapter after chapter. In one chapter, we get this steamy, hot scene. And then the entire thing is recapped in the very next chapter. I feel like I didn't need that part since I had just read about it. I didn't forget.

The next thing that bothered me was that Theo never really seemed to know how he was feeling. He felt one way and then a completely different way in the same sentence. There was a lot of contradictory feelings. And a few oxymorons in terms of feelings too.

Thirdly, I didn't think there was enough character development. I found myself not really caring about them. I didn't care if they were together or not. There was no build-up to their relationship. First chapter in and they're basically together. It moved too fast, in my opinion. I found myself not believing they loved each other. It was like the author was telling them how to feel instead of them showing me how they feel.

All in all I just didn't enjoy it and I had to struggle to get through it. Two stars.

---

### **Plainbrownwrapper says**

Originally a Dean/Castiel fanfic, apparently. Dunno if I'll read the published version or the original.

---

### **Fede says**

I was a fan of this story way before it became a published book. It is so heartwarming and beautiful.
