Erin Nicholas

Totally His Erin Nicholas

Actress Sophie Birch is used to having to look out for herself. So when her theater catches fire and a big guy scoops her up into his arms to save her, she's going to fight every step of the way. Even if he's a cop. And really sexy. And his arms feel oh-so-good.

Finn Kelly can't help but appreciate how good the woman in his arms looks in her sexy pink lingerie. Even if she's currently resisting arrest.

But as the two get to know each other, they're both surprised by the things Finn is willing to do to get closer to her. And when Sophie's estranged father arrives in town and starts causing trouble, the stage is set for disaster...unless Finn can convince her that, for once in her life, she has someone to lean on.

Totally His is the third book in Erin Nicholas' Opposites Attract series, but could be read as a standalone in my opinion. The story follows Sophie, an actress who grew up being taught by her unreliable father not to trust, and Finn a fun-loving fireman who rescues her.

I really enjoyed Sophie and Finn's relationship. As much as I loved their heated chemistry what I liked the most was how they interacted with each other. They had amazing dialogue and the author kept it all pretty light and fun which I felt fit perfectly for these characters. I did feel like there were times that the back and forth Sophie did of wanting to be with Finn but then telling herself she had to stay away got to be a little much. It became a little repetitive and at a few parts seemed to slow the story down just some.

Overall, this was a perfect ending to this series and I actually want to go back and read all of these books over again. If you're looking for a light contemporary read with a sexy Hero, pick up this book.

3.5 stars

I received this book for free in exchange for an honest review. This does not affect my opinion of the book or the content of my review.

With a father that made a living scamming women, Sophie has learned to depend on herself and guard her heart. When her theater ends up with some fire damage, she suddenly finds a hot cop invading her life. The hot woman in pink lingerie caught Finn's attention right away but her guarded heart is giving him quite the challenge.

Sophie and Finn are about to be hit with a hurricane of past hurts, family drama, and sexual chemistry.

Maybe she'd give him a chance. The thought flashed through his mind. Maybe he'd like theater. Or maybe this was an opposites-attract thing. That seemed more likely. Or hell, maybe they could just date for the sex.

Third in the Opposites Attract series, we have our guarded heroine Sophie and open hearted hero Finn. Sophie's two girlfriends were the heroines of the two previous books but I had no problem starting here in the series. If you like Jill Shalvis, you'll enjoy this couple's similar in tone playful encounters. The first half of this book was incredibly delightful with Finn and Sophie meeting and acting out some great fun and hot

chemistry.

How he wanted to say sweet things like how gorgeous she was and how lucky he felt that she'd let him close like this. Close was hard for her. This was not sex-only dating, and he knew she knew that.

A fire gives our couple their meet-cute but Sophie actually ends up being the great theater friend Finn's mother had been raving about. Finn is the oldest and every since his father died, he's taken on the role of leader and taking care of everyone. I liked his calm, cool, and take care of business attitude that was also accompanied with a sense of humor and sexy demeanor. He was a great companion to Sophie's kickboxing, I don't want any part of a family, and feisty self. The first half was them meeting, feeling each other out, and sparking off each other and I enjoyed it immensely. After that, it seemed their relationship was a bit rushed with their second meeting kind of snowballing into a pretty invasive personal talk and not a ton of long interactions. The story started getting a bit repetitive with Sophie fearing getting close to Finn and his family, being hot and heavy with him, and then proclaiming she must stay away.

And he wanted to eat ice cream in bed with her. He wanted to read out loud to her. In bed. And he wanted to talk dirty to her. In bed. In the shower. In the kitchen. In his truck. There were so many dirty things he wanted to say to her, do to her, hear from her. /i>

After our leads sweet, lively, and down and dirty beginning, I was little disappointed in the second half not providing some more depth to their relationship. A vast majority of the scenes take place in the theater, Sophie doesn't spend any time with her friends, and not a ton of scenes of Finn and Sophie interacting with the large amount of secondary characters. For the big role Finn's mom plays in the story she actually stayed a bit too much to the sidelines along with Finn's brother and partner. Having Sophie and Finn's friends and family stay to the side too much gives the story a lack of depth that small town (this actually takes place in Boston but there is clearly a community of people that the author is focusing on to provide a small town feeling) contemporary romance is known and loved for.

Sophie's father provided a good antagonist to keep our leads from an easy happily ever after but for the most part this story was pretty heavy angst free. This was a sweet story that wasn't afraid to also get down and dirty. I greatly enjoyed visiting the Kelly family starring Finn and will look forward to his firefighter brother Colin hopefully getting top billing next time.

Isha Coleman says

Totally His (Opposites Attract) by Erin Nicholas

The lure of Erin Nicholas is that through the drama and heartbreak she never holds back on the realism. Using the defining moments in life such as falling in love, facing fears and learning about what makes us who we are, she stays true to life and allows hints of the childhood fairy tale to filter into adult happiness. Totally His takes on fear and self - doubt with the humor that is Ms. Nicholas' trademark and the emotion that every fan expects. Sophie makes neurotic sexy while Finn thrives on keeping readers guessing. With a flair for fun and a penchant for romance, this couple shoots for the stars and hits the bullseye.

Stacee says

I have enjoyed the other two books in this series, so I was excited to get to this one.

Love love loved Sophie and Finn. She's sassy and feisty and he's loyal and strong. Together they're really good people with a crap load of chemistry. I loved the large family and as always, it's delightful to get a glimpse of the previous couples.

Plot wise, it's nearly all fluff, which is my favorite. There is a bit of conflict when it comes to Sophie's dad and while it does span the entire book, it wasn't too bad.

Overall, it was a quick and cute read. I have a feeling it'll be a book I read when I need a pick-me-up.

****Huge thanks to Forever for providing the arc free of charge****

Amy says

I didn't expect to enjoy this one quite as much as I did. A cop and a theater owner ... yes, please! I love how they met – so perfect given their characters. Sophie and Finn are such an interesting mix and their journey is quite interesting and compelling. The story was more complex than some of the romances that I have read which was a nice change of pace. It was a quick but satisfying read. I love the whole finding a family theme of the book. I loved how Sophie was a bit damaged and yet still found her place in the world. I love how sassy and real Sophie felt. And it's the little things – trying to meditate and then deciding to box to metal music. That so sums her up! She's an interesting character to follow. Really good story. I'm going to go back and read the earlier novels in this series. It definitely read like a stand-alone but I can't wait to go back and see how things played out before this one. Really solid romance!

NOTE: I received an ARC from the publisher in exchange for an honest review.

Laura says

*****ARC Provided by the Publisher via NetGalley*****

I enjoy Erin Nicholas. If she writes it, I will read it, because I know when I open one of her books, I am going to enjoy it. I am going to like the characters, and I am going to be able to believe in the relationship that she creates between them.

Finn and Sophie meet when he catches her rushing into a burning building and has to carry her out because she is resisting arrest and refusing to leave quietly. And, not only do you see in this scene that Sophie is feisty, you also get a good look at who Finn is...and that he really, at the end of the day, just wants everything to work out for everyone so they can all just go on about the things they need to do.

This carries through the book and both is the reason Sophie falls in love with him, and the reason she believes they are not able to be together.

By the end, there is a resolution that works and it is a real world resolution. And, this is the other thing I love about Erin Nicholas. Her characters live in the real world, the fixes to the situation are real world. They feel like a conversation, and a resolution, that could have happened in my own life last week. I love this about her books.

I recommend this title.

Heather says

This was the third and final book in the Opposites Attract series but it can definitely be read as a stand alone. Although having read the other two books in this series, I was excited to finally get to Sophie's story. Being the daughter of a con man, Sophie has definite issues with getting involved in a relationship. Especially if that man also happens to be the son of a dear friend and mother figure. Despite being warned away from Sophie for the same reason, Finn cannot help but fall for Sophie. This was an enjoyable romantic and sometimes funny read as the troubled and slightly damaged Sophie realizes that love doesn't have to hurt. Erin Nichols knows how to create very likeable characters that you can't help but root for.

I voluntarily reviewed an ARC of this novel.

Lenore Kosinski says

<https://celebrityreaders.wordpress.co...>

4.5 stars -- I received a free copy through NetGalley in exchange for an honest and unbiased review/opinion.

This was a fabulous conclusion to what was a really witty, engaging, and fun series. And no, you most certainly do not need to read the other books in the series to enjoy this story, but if you find yourself enjoying this one, trust me, the rest are just as engaging. And what's great is that each hero and heroine are SO DIFFERENT, but equally lovable.

My heart broke for Sophie, and how she grew up, and what she saw for her future because of her conman father. And while sometimes it felt like her growth took a bit longer than I'd like, I did like watching her find her happiness, find her big family, and truly find love. It was very rewarding. And I loved seeing how she interacted with big groups, whether it was watching her direct in the theatre, or direct the Kelly family during trivia. She entertained me.

And Finn was pretty adorable. I really loved having a hero who was a cop who was quite honestly very different from the usual cop heroes you read so often. He was protective, he had a very strong sense of right and wrong, but he loved so strongly. He wasn't seriously damaged or anything. I'm not saying he didn't have flaws, but you got to see him try to work through those himself. And I just absolutely adored seeing him pursue Sophie when he decided she was the one for him, and she was worth risking broken hearts for (not just his, but his family's).

And Sophie and Finn had fabulous chemistry...you really felt their draw to each other. I loved the way they

bantered and interacted. They complimented each other well.

Finn's family was hilarious and adorable. I loved what they brought to the story, and how Finn's Mom was an integral part of Sophie's growth. I wasn't sure how I would feel about Frank, but I was satisfied how that played out. And obviously the glimpses of Keira, Zach, Maya, and Alex were fantastic. Actually, I wouldn't have minded more...

So yeah. Fun and flirty, with some feels and a super satisfying ending.

Kiki says

We have a classic TSTL heroine here, who's not only TSTL, but also is an ostrich burying her head in sand. She breaks up with hero because he pointed out that her dad is a scumbag and a toxic person. Which she already knew, her father demands she take care of him as he took care of her when she was young. However he's her father, so she's happy with this "dysfunctional" relationship and was pissed at hero because he couldn't accept the dysfunctional relationship and sit back and watch her get hurt.

This in process helped her father steal money from hero's family.

And she broke up with hero because of him!

It was disgusting!

Irene says

4 Heartwarming Stars

Totally His by Erin Nicholas was such a lovely read.

I enjoyed the storyline, it was sweet, fun, emotional, well written and I found it hard to put down.

Sophie and Finn were wonderful, entertaining characters that I easily connected with. I enjoyed watching their relationship unfold. They made me laugh, they made me swoon and they touched my heart with their love.

They had a strong connection from the first meeting and their chemistry was off the charts!

These two might have been opposites in a lot of ways but together they balanced each other and totally belonged together.

Totally His is a sweet, enjoyable read that will entertain you from start to end and I highly recommend it.

Guilty Pleasures Book Reviews says

4.5 stars

I have LOVED the Opposites Attract series from Erin Nicholas from the start and *Totally His* was flat out fabulous as we are introduced to a policeman whose wild, crazy Irish family is bound and determined to help out a local playhouse owner after a fire destroys part of her theater. As a lover of this author's work, I'm already envisioning a whole series about the Kelly family or perhaps the police officers and firefighters we meet in this book. (No pressure there Erin...LOL.) I loved *Totally His* because it had many layers; it was about all kinds of relationships, both healthy and unhealthy, it was about two people really having to work at meeting each other's needs, learning to compromise and accepting your flaws. These were not perfect characters, not by a long shot and they had some fundamental differences about family, like, and love, but watching them fall even when they didn't want to was sweet, funny, and oh so sexy.

Sophia "Sophie" Birch loves the playhouse her grandmother left her more than anything in the world. For her it is the stability she hasn't had since she was a young girl and when it catches on fire, she is concerned her life might never be the same. One thing she feels compelled to do is to go back in the building to save the screenplay written by one of her friends and volunteers, what she doesn't expect is to have to fight off a police officer who seems determined to save her or how much she likes it.

Finn Kelly can't believe it when he has to go after a woman who returns to the burning Birch Playhouse or how she fights him when he tries to remove her. He won't deny he is attracted to her or the fact he likes her feistiness, but duty and safety come first. When he finds out the playhouse means more to his mom he ever expected, Finn calls on friends and family to help, he just has no idea that woman he pulled out of the building is his Mom's friend and knows he's in trouble.

Sophie and Finn come from two very different upbringings which has shaped the way they look at the world and relationships. It was interesting watching Sophie who has shied away from families and especially men with families fall head over heels in love with Finn's family and eventually Finn. Finn realized early on that Sophie needed his mom and so he tried to just be Sophie's friend, but with each passing day as he uncovered every little thing about it he lost his heart to her.

For the most part the struggles these two had came from outside sources and while it did affect them, they learned to adapt, learned to compromise, and worked to understand what each other needed from their relationship better.

Between Sophie's friends, Finn's friends and family there were a lot of people in this story and it was busy, but the friendship and eventual relationship between Sophie and Finn was front and center the whole time with everyone and everything else revolving around them.

Fun, sexy, with moments of seriousness, *Totally His* was a completely entertaining story that I loved from start to finish.

Amy says

4 sweet & swoon worthy stars!!

Oh man! I just adored this book. It was like sunshine on a rainy day. This book is smart, flirty with just the right amount of sexy. From intriguing characters to explosive chemistry to one entertaining story-line, this book has it all!

Totally His follows the story of Sophie and Finn. For as long as Sophie can remember, she has always had to look out for herself. She doesn't trust her heart with anyone and never wants to fall in love. All that is about to go out of the window when she meets Finn. He pushes her, tests her and works hard to break down all of her barriers. Sophie and Finn couldn't be more opposite, but even wild horses could not keep Finn away. When life begins to throw hurdles at Finn and Sophie, will Finn be to prove that Sophie can lean on him no matter what? There is only one way to find out...

Totally His was such a fun read. I knew from the first encounter with Sophie and Finn that I was in for a treat and boy was I not disappointed. Sophie is feisty, smart and determined. She doesn't let very many people get close to her and guards her heart. She believes in second, third and fourth chances, even when she knows the disappointing outcome. When Finn enters her life, he shows her just what she's been missing out on. He opens her eyes to love and family. He shows her that she doesn't have to do everything all on her own. He is sexy, possessive and has a big heart. He is just what Sophie needs in her life.

Totally His is sweet, sexy and 100% swoon worthy. It is everything that I want in a romance novel. It has just the right amount of drama, romance and twists. The characters are fun, entertaining and easy to connect with. The story is written with a lot of heart and will keep you begging for more. This is my first book by this author and I can promise that it won't be my last. Totally His has left me with the biggest smile on my face and I'm looking forward to seeing what this author has in store for us next!

I was provided an ARC Copy of this book, in exchange for an honest review

Maddy's Reading says

I love Erin Nicholas romances. They have such a soothing feel to them, leaves me gushing and feeling good. Finn and Sophie stole my heart from the beginning and I was totally hooked to their story since their first meeting...shud I say "fiery". The whole gamut of characters, #TheKellys were a riot and the whole angle of firefighters and cops added to their appeal.

Finn and Sophie had amazing chemistry...it was hit, sexy and so passionate. I loved Finn's protectiveness and Sophie's independence. Can I say just how much I loved the fact that Sophie could kickbox!! Talk about badass heroines.

I wish there was some more of the cop angle with Finn but overall, the book was a great read. Loved it!!
ARC generously provided by the author in exchange of an honest review

Maria Rose says

Erin Nicholas writes enjoyable small town romances, including the Sapphire Falls series that first attracted me to her writing. Now she's moved on to the bigger city of Boston, but by focusing on a local theater and its community players she successfully retains that close knit feel while being able to expand her cast of characters. *Totally His* takes a look at some complicated family dynamics while providing the reader with a fun and sexy story.

When Sophie Birch's small independent theater catches fire, her desperation to save a one of a kind, completed manuscript leads her to some not too smart decisions – like sneaking back in to rescue it. Caught in the act by police officer Finn Kelly, it's not her best moment. Nor does it bode well when Finn turns out to be the son of one of her favorite people, Angie, a widow who has become a key member of Sophie's theater community.

Sophie's rocky relationship with her con man father, Frank, keeps her from getting close to people so he can't use those relationships against her. But since he's half owner of the theater, she can't stop him from coming around, or taking half the insurance money. This leaves her short on funds to rebuild, and when she shares this with Angie, the news gets around to Finn who brings some of his friends and family by to help.

Sophie can't afford to turn down Finn's offer, and after seeing all that man-candy in action in their construction gear, her friends convince her to include them in the next play she puts on. All that hot stuff on stage will draw an enthusiastic crowd, give the guys a chance to show their community spirit, and ensure some great ticket sales to help pay for the repairs. When Finn offers to play the lead romantic role opposite Sophie, it ensures that they'll get to know each other better. But Sophie has learned the hard way that getting close to someone is a sure way to get hurt. Can the happy ever after ending they get on stage become a real life one too?

I confess to being a bit worried about whether I'd like the heroine based on her actions early on, but the author manages to give enough explanation and justification for them that my doubts didn't linger. From that point on, Sophie comes across as a passionate and articulate woman, with a realistic if sometimes cynical perspective on life. Her relationship with her father, Frank, is complex. She's had several stepmothers, all women Frank had conned into marrying him, using Sophie as a pawn. When those relationships ended, she lost a mom all over again. Yet, he's still her father, and he still kept every promise he made to her as a child and loves her in his own misbegotten way. Her main reason for avoiding Angie's family is to keep Frank away from them, something she can no longer do when Frank shows up again to cause his usual trouble. Only this time, she's got backup.

Finn is a pretty straightforward, 'what you see is what you get' kind of guy. He's single, he's a good cop, and his dating life at the moment is pretty non-existent. He comes from a big extended family where everyone knows everyone else's business and is always willing to lend a helping hand. Once Finn meets Sophie, he feels very strongly that he should be the guy to jump in and 'save' her. But she doesn't want saving, which takes him a while to understand. Plus, despite Sophie's warnings, he can't resist giving Frank a helping hand. At times this is really frustrating for Sophie (and me as a reader). I really liked that the author doesn't sugar-coat Frank's behavior, or rehabilitate him just because he's exposed to the 'nice' Kelly family. I also really appreciated that Finn and Sophie have to compromise to make their relationship work and yet neither loses their sense of self in the process.

Despite their different views of family and long term relationships, the attraction between them doesn't let

up. Playing the part of the romantic couple in the play gives them the excuse to practice their kissing scenes, and things soon get pretty steamy. The author writes great sex scenes, with heat and humor. As the story progresses there are some plot points that I thought might get glossed over but Ms. Nicholas wraps everything up in a neat way with a thoroughly satisfactory ending. Totally His delivers an engaging and sexy romance.

Shannon Ferguson says

This was a bit of a different Erin Nicholas read than normal, but just as good as the rest!!

I completely adored Sophie. She's strong, big hearted, and feisty as all get out. She's one of those characters you can't help but fall in love with, and throttle any @\$shole who dare mess with her. Finn was a sexy, alpha hero, with a bit of a fixer complex.

The banter between these two and most of the secondary characters had me cracking up. Colin quickly wormed his way in to my heart, and the rest of Finn's family had me wanting that kind of relationship with my own.

This book was an emotional read for me. Like, I don't think I've ever dropped the f-bomb as much as I did while reading this, and the word douchebag was a common nickname for one of the secondary characters.

This must read will draw you in from the beginning, and keep you drawn in with the drama, antics, and steamy scenes we get throughout. I would definitely recommend one clicking it!!!
