Forced to Bloom, Book 1 Alexis Adaire

Forced to Bloom, a deliciously steamy BBW Alpha Billionaire Erotic Romance

Rachel Malinsky wasn't certain the ad she was responding to was actually placed by a billionaire. Nor did she know if this man would be interested in her very curvy body. Hell, she wasn't even sure she even wanted to be a submissive to begin with. From the moment he started instructing her to do things that terrified her, though, such as stripping for him on video or exposing a breast in public, she was hooked. *Now if she only knew who he was or what he looked like...*

Forced to Bloom is an erotic romance that engages the mind as well as arouses passion. A BBW discovers the self-confidence she's always lacked when she decides to submit her curves to the control of a rich, powerful man she's never even met.

Warning: ADULTS ONLY! This sizzling story was written for adults 18 and over and includes scorching sex scenes.

From Reader Review Forced to Bloom, Book 1 for online ebook

Shauna says

Interesting take on the Dom/sub relationship. Better written than I expected. I'm curious to see where this goes!

Phylisha Stone says

Only read a few pages and discovered this book was not for me . not a keeper.

Cara Ross says

I was so VERY excited that Alexis Adaire was releasing an erotic BBW romance that not only was contemporary but an intelligent erotic romance as well. What do I mean by that you ask? Well if you read BBW books, most of them are paranormal or wham, bam, thank you mam books and while I do love those books, it's nice to read a book where the leading man doesn't change into an animal.

Anyway, let's get on with the story. Rachel is a BBW woman who is looking for some excitement in her life, but is maybe a little scare to go out and get it (in my opinion). But one day she comes across this ad for a man wanting a submissive. It wasn't quite what the man put that attracted her to the ad, but the accompanying photo. Rachel walks away from her computer, to go to work, but cannot get the image out of her head. When she comes home she finds the ad deleted, which disappoints her, until she realizes that she has opened a reply window in her Gmail...what should she do.

This book literally had me on the edge of my seat...what will she do? Her decision surprised me, but not as much as what comes after...I am not going to say anymore other than the fact that the story was well written and I enjoyed everything but the cliffhanger at the end (I have no patients to wait for the net book). Even though I hate serial stories, I am already addicted to this one.

Forced to Bloom book 1 earns 9 out of 10 from me.

Mercedes says

Great little teaser for a novella.

I wasn't sure what to expect but was greatly surprised and now I'm curious about what's next for Rachel and M.

Marie Rich says

Excellent

I really enjoyed this short book. It was different that most erotic books, it was a tease, on what a sexy tease.

Ella Reese says

Rachel responds to a Craigslist ad for a billionaire looking for a submissive. I personally would not meet a man with an anonymous and untraceable email address from a Craigslist ad at an undisclosed location by myself. Did no one teach this girl about stranger danger? When will these naive wanna be submissives ever think with their heads and not with their cunts? Also, what kind of billionaire solicits on Craigslist?

After getting over the sheer stupidity of the main character in the beginning, I thought it was a pretty good read. If you're into hot as hell exhibitionism, this one's for you. Writing was good, and there seems to be a promise in the subsequent books of the series.

Three stars.

Tim says

ALLURING, EXCITING BUT STILL TENTATIVE!

It's an interesting concept and something to consider perusing for a bit longer. Having a platonic, albeit a short distance sexual relationship seems so foreign to my senses.

However, I feel a compulsion to continue to Book 2 of this series. Sex, in ALMOST any form, is compulsive.

Goth Gone Grey says

Body positive short story

Nothing says new romantic relationship like a Craigslist ad, right? The narrator answers a mysterious ad looking for a sub. She's self conscious about her size, but she needn't worry.

Very short - if all the books in the series are this length, it could have been combined into one book. Some bizarre details and turns of event, and primarily phone/webcam self pleasuring action; not really enough for me to want to continue the series.

Diana Gioia says

Interesting quick read, took me less than an hour to finish.

Mya says

4.5 really i have to say this book was very refreshing

Stefanie says

Amazing start to the series.....will review after reading the entire series

Tiffany says

Rachel is a woman who takes life by the horns and does things her way. She is a free spirited woman who plays by her own rules that is until she answers an ad on Craigslist for a master looking for a submissive.

Curiosity gets the better of her in all ways. She takes the role as his long distant submissive because she only text and talks to him on the phone as per his rules. He is a billionaire who must have a no strings attached affair.

M is a mystery that pulls at Rachel's heart strings in every way. He has her willing to do things and push her limits that she never thought she would ever try and the further she get pulled into their dynamic the more she wants. The more she yearns for the Man who is M.

But we are left hanging on and wanting more at the end of the story. This small taste makes you yearn like Rachel does to find out and experience more in the continuing series of Forced To Bloom.

Lilly says

I loved this, too short though, but just a first one in a series and there is no way I can stop reading now, I have to have more!!

Becky Lawson says**Interesting...**

While I'm not new to the BDSM genre, this was a new and fresh approach to how the sub meets the Dom. I liked this approach a lot.

One thing that irked me with the book, however, was the fact that M was completely indifferent to the fact that Rachel is not an experienced sub. A good dom would have understood this and explained things more; not just 'Do as I say.' He also would have asked for her limits and her safe word before ANY type of relationship, sexual or otherwise, began.

That being said, I look forward to reading more of this series. I am hooked and want to know if M proves himself to be a respectable dom, or if he's just a control freak.

donna says

BBW finds...

Maybe someone that does truly enjoy someone like her. Is willing to train her into who she may supposed to be....you never know, start reading the series and see how it proceeds. ...
