Harry Potter and the Half-Blood Prince J.K. Rowling , Mary GrandPré (Illustrator)

When Harry Potter and the Half-Blood Prince opens, the war against Voldemort has begun. The Wizarding world has split down the middle, and as the casualties mount, the effects even spill over onto the Muggles. Dumbledore is away from Hogwarts for long periods, and the Order of the Phoenix has suffered grievous losses. And yet, as in all wars, life goes on.

Harry, Ron, and Hermione, having passed their O.W.L. level exams, start on their specialist N.E.W.T. courses. Sixth-year students learn to Apparate, losing a few eyebrows in the process. Teenagers flirt and fight and fall in love. Harry becomes captain of the Gryffindor Quidditch team, while Draco Malfoy pursues his own dark ends. And classes are as fascinating and confounding as ever, as Harry receives some extraordinary help in Potions from the mysterious Half-Blood Prince.

Most importantly, Dumbledore and Harry work together to uncover the full and complex story of a boy once named Tom Riddle—the boy who became Lord Voldemort. Like Harry, he was the son of one Muggle-born and one Wizarding parent, raised unloved, and a speaker of Parseltongue. But the similarities end there, as the teenaged Riddle became deeply interested in the Dark objects known as Horcruxes: objects in which a wizard can hide part of his soul, if he dares splinter that soul through murder.

Harry must use all the tools at his disposal to draw a final secret out of one of Riddle's teachers, the sly Potions professor Horace Slughorn. Finally Harry and Dumbledore hold the key to the Dark Lord's weaknesses... until a shocking reversal exposes Dumbledore's own vulnerabilities, and casts Harry's—and Hogwarts's—future in shadow.

Aloysius says

I was first introduced to Harry Potter in a Children's Lit class in college. I had resisted this popular phenomenon until I was forced to pick it up for a grade, and Book 1 was short enough that I could read it in the course of 2 hours. I have to admit I wasn't impressed to any extent, nor did I dislike the experience, but I was critical on grounds of its being derivative, even if reading the first led to reading the second. After all, if I was bored and looking for something light, I could do worse than a fantasy about a child wizard who fights evil with his friends. But it was really the third book, with its increasing darkness, that took me in and made me a fan.

With a movie coming out for Order of Phoenix and Deathly Hallows on the horizon, I decided I would reread Half-Blood Prince. I figured it would take four sittings, of course, with its 600 pages, but time does fly when reading this one, and I've come to the conclusion that this is my favorite so far. What I wouldn't have been willing to admit in college that I'm perfectly comfortable saying now is that J.K. Rowling is a fantastic storyteller; she writes with great clarity, wit, and humor; and she's created a cast of loveable characters with whom most people, due to the common experience of growing up, can relate closely.

That said, the reason for my preference for the 6th book is that it's the most emotionally rich in the series. Here we get the backstory of Voldemort (*spoiler alert*) through a series of flashbacks (coming in HP by way of magically extracted memories), and in this way, we come to understand the villain's similarities and differences with our hero. After all, the villain has to have reasons for committing heinous acts, and until now, we don't know what these are.

Voldemort is from a once-powerful wizard family reduced to poverty that lives in a dilapidated hovel on the edge of a small town, wary of outsiders, and their main point of pride is their pure blood, the lineage having cross-bred for generations so as not to pollute the line. Voldemort's mother lives with her father and brother and yearns for the love of a nonmagical man ("muggle" in this world) and when her father and brother are arrested, she uses the opportunity to bewitch her beloved and run off. She ends up pregnant, the man deserts her, and she dies while giving birth to her half-wizard, half-muggle son, thus making him an orphan (like Harry).

(Faulkner anyone?)

But whereas Harry comes to Hogwarts and befriends Ron and Hermione creating unity and strength through positive emotions, Voldemort, when growing in the orphanage shuns other children, torturing them at times (without the awareness of adults) and stealing their possessions. What fuels him is his hatred of his beginnings, his mother's weakness at having died like a common person despite being a witch, and the

“muggle” blood inherited from his father. Over the course of his time at Hogwarts, Voldemort, charming as only evil can be, learns to win over people as a means to an end and disguise his insidious purposes, but he never befriends anyone. He moves, through his hatred, further away from many of the emotions that drive Harry, namely the desire to protect the people he loves and avenge his parents’ death.

With Dumbledore’s help in exploring Voldemort’s past, Harry begins to understand that he’s come to be where he is through the choices he’s made, that his greatest strengths are an alliance with his friends, and that this might hold the key to destroying his enemy, a fact that’s made all the more poignant when Dumbledore, in an all-out assault on Hogwarts by Voldemort’s Death Eaters, is killed at the end. The stakes are higher than before, the action and pace increase as the conclusion draws near, and things are looking darker than ever, which is the setup that any fan wants when the end is looming and it leaves us with the question: How will our hero prevail?

Re-Read in December 2014 for Harry Christmas To You

This is DEFINITELY one of my top favorite books in the series. Shit just gets so real.

My thoughts:

-Dumbledore is so FREAKING sketchy in this book! He's so secretive, and he's always sneaking around, not explaining anything to Harry.

-I'm always so proud of Fred and George for getting their own joke shop... I don't know what it is, I just feel like a proud mom.

-ALL OF THE TOM RIDDLE BACKSTORY. THE GAUNT HOUSE. OMG. I literally need a whole book about Tom Riddle's life. That would make me happy.

-While reading this book, there were about a hundred times when I was just amazed by irony at the whole Snape/Half-Blood Prince situation. (Harry is always going on about how great the Prince is and how terrible Snape is, etc.) I loved it!

- *“Tom used to collect trophies,” said Dumbledore, “This will be important later.”* WHY COULDN'T HE HAVE JUST EXPLAINED HORCRUXES TO HARRY THEN? COME ON MANNNNN.

-the fact that Voldemort went back to Hogwarts to ask for a job just.... is hilarious to me. I'm picturing a sort of weird looking Tom Riddle like "plz. im evil but i luv hogwartz"

-when you find out that the Defence Against the Dark Arts job is actually cursed *thumbs up*

- *“I love you, Hermione.”* RON ACTUALLY SAID THOSE WORDS. HE SAID THEM AND MY HEART SANG. He meant it in a friendly way but Hermione definitely loved hearing it.

-Harry and Ginny are both so sassy and I love it when they become sassy together <3

-at the end when Hagrid said something along the lines of "Dumbledore will be able to fix it" right after Harry saw him die.... Saddest thing ever.

This book and its movie are definitely up there on my favorites list.

Adam Silvera says

This remains one of my top favorite HP books! The Voldemort origins, the Dumbledore/Harry business, Draco's mission, the Snape reveal, and the moment the trio decide to not return to Hogwarts so they can stop Voldemort once and for all. It's a book that manages to balance so much darkness with light, so evident too in the last line. #AdamRereadsHP

Since pretty much everyone I know has read these books, I figure reviewing them is pretty pointless. But with the new book coming out in a couple of days, I have to go through them beginning to end. To make the reviews more entertaining, I will be doing them in a variety of unexpected formats. For this review, I will be writing as a power ballad.

(Intro: Piano and strings)

You were always by my side
You will always be my guide
But the road I'm on
Goes on and on
And I've left you beHIIIIND!

(Big crunchy electric guitar)

(DUMBLEDORE!)
I will never forget the strength you showed!
(DUMBLEDORE!)
I will never forget the debt you're owed!
(DUMBLEDORE!)
And when I face the final hour
(DUMBLEDORE!)
I will call on all your power!

(Guitar solo)

There's no way back again
But if I can find a friend
To see me though
And remember you
I'll make it to the EEEENNNND!

C.G. Drews says

"Read Harry Potter!" they said. "It'll be fun!" they said. "Our childhood was built on Harry Potter!" they said.

WELL YOUR CHILDHOODS WERE ALL HORRIBLE. OMG WHAT IS THIS BOOK? WHAT IS THIS MESS I'M IN?? Excuse me, but that large salty lake where my life used to be is my *tears*. **Yes, yes, this means I loved it.** But SERIOUSLY. Nooooot okay. At the end there, especially, I couldn't put the audio down so I was wandering about my house in a blind daze listening instead.

And because every human and their fluffy poodle has probably sensibly reviewed this book, BAH. I'm just going to make a list of things I loved and things I didn't.

My Intense And Passionate LOVES:

- Harry + Ginny = yes. I was dubious at first. Like I think romance is NOT JKR's strong point...plus when she gets to a romantic scene she ends the chapter. HHAHAH. ADORABLE. (Not that I minded, I just...I think she's not good at romance.) But omg, there was that moment after the Quidditch match??? YUP. You know what I'm talking about. Excuse me, my heart just ran around in circles screaming and shipping.
- Hermione: I adore her, but...I gotta admit, she was a little bit too stuffy. **BUT I STILL LOVE HER.** I love her love for learning.
- I also adore how sensible Ginny is.
- Fred and George's joke shop gives life. Also death, probs, but liiiiife.
- I am utterly in LOVE with the whole concept of Hogwarts. I mean, I think it's stupid that they have to write with a quill and ink (can't they just enchant the quill to write for them?) and they seem to get an excessive amount of homework, BUT. It's all so vivid and detailed and it literally feels like Hogwarts is A REAL PLACE. I totally get why people wail about their letters going missing.
- Speaking of detail...me likey. I always felt *inside* the story.
- Plus the audio book (narrated by Jim Dale) is GREAT. I totally recommend it. I think Hermione's voice had a tendency to sound like an insufferable goat, but I got used to it. Harry's voice was perfection.

- I also particularly liked Harry in this book. I JUST LOVE HARRY. <3 He's snarky, but he's lost some of the angriness from bk 5. He's got snarky quips at the ready, but he's also intensely...good. Like he's just a really GOOD chap, who makes bad decisions but really means well. ZOMG. *flails about* He was definitely my favourite character in this book.
- ALSO DUMBLEDORE WAS GREAT. I love Dumbledore and how he's always polite and kind and smiley. (view spoiler)

My Intense and Passionate LOATHES:

(Hhahahha...you ready for this?)

- Okay so, question: WHY do they sometimes go places and buy food...and sometimes they just magic it? Like Mrs. Weasely magics onion soup out of nothing for Harry. But in the next chapter, Harry and Ron are peeling sprouts. LIKE WUT. This makes no sense to me.
- Why didn't Dumbledore pour the evil potion on the ground instead of drinking it? Just wannna know...
- How the FLYING FRIKKIN BROOMSTICKS can anyone possibly convince me Snape is still on the good side? Because I don't even care. He can go abra kadabra himself to Timbuktu and DIE THERE THANKS. There is no repentance after this. I don't even care what the "reason" is in book 7, but Harry: you are an idiot to name your kid after Snape.
- I HOPE SNAPE DIES.
- DID I MENTION MY HATE FOR SNAPE YET???????
- Oh and another thing...*I am so angry at Snape arghhhqzwqq*.
- Okay. Good now. I'm calm. Thank you.
- HAHHAHHAHAHTE SNAPE.
- Yes, I truly am calm this time. I'm good.
- So. I also am fairly annoyed about Voldemort's (Tom Riddle) backstory. Because he read like he was straight out of a psychopath text book...which I found monstrously unimaginative. Attractive, calm, subtle bully, kleptomaniac, limited emotional reach, charmer, smooth...blah blah. Yes. I can just read a book about psychopaths and that's Voldey's description. I wish there'd been a little more ingenuity in there.
- I really also dislike Ron. I KNOW. Travesty. But he's a bully! He was bullying first year's *the whole time*...turving tem off chairs, scaring them, bossing them around, taking stuff off them in the name of "prefect". Like how is that good?? How is that okay??? I will not forgive Ron for all this. And also the fact that he's a downright BRUTE to Hermione. How can I ship them when he's so rude and demeaning to her?? I DON'T. Hermione deserves better. And I don't buy the "She completes him by sorting him out" because I think all humans should take responsibility for their actions. Hermione shouldn't HAVE to force Ron into a better person and be his conscious. AGH.
- Not shipping that. ^^
- Okay, I'm done. But just *whispers* I hate hate hate Snape.

So basically YES, I had a fantastic time with this book. I loved the audio. I loved the story. I *loved* Harry and the world just feels so big and rich and visual. I get the intense fandom for this I DO GET IT. After being so angry and 1000% done in with book 3, I can successfully say I can't WAIT to read the last book now. And then watch all the movies. And then I'll finally be caught up, omg. Only took me like 10 years.

Kassidy says

It seems like by now, everyone would realize they should listen to Harry..

Such a sad end :(I knew that was going to happen before starting the series, but didn't know when. It still got

me in the feels, though.

The book as a whole was really fun and entertaining. I love the mystery and learning more about Voldemort. The romance drama was funny as well.

I can't wait to see what adventures the next book brings and how it all concludes..

sniffs I have actually finished this several days ago but I spent those days mourning for the loss of one of my favorite characters of all time and before I start bawling my heart and eyes out again, let me straight away proceed to the random thoughts while and after reading the book. *sniffs*

1. *Gasp* Professor Snape???
2. Harry's Quidditch Captain! Yaaas!
3. Weasleys' Wizzard Wheezes (Say this ten times)
4. Malfoy's head on Pansy Parkinson's lap and Pansy stroking his head. *shudders*
5. Slughorn's belly preceded him out of the door. Bahaha
6. Potions class has never been this cheerful. Thanks Grampy Sloghorn and Harry has never performed better. Thanks to cheating. Lol.
7. Ron, you bollocks! Stop being an idiot, WonWon!
8. Voldemort as a student seems to me even more sinister than the Dark Lord he already is. *shivers*
9. Like Harry, I am Dumbledore's man through and through. Take that, Rufus!
10. I'd go back to school anytime if it meant having Professor Dumbledore as a teacher.
11. Aherm! Why do you keep looking for Ginny, now Harry?
12. There's a reason a Dark Arts teacher stays only for a year. It's all clear now.
13. Who would have thought that the once timid Ginny will blossom into a confident, beautiful, charming, funny and best of all, snarky girl?
14. Chapter 24 will particularly make you swoon! Gaaah! (view spoiler)
15. RIP, Aragog.
16. For the first time, I solved the mystery! (view spoiler)
17. I knew there was a reason Harry spent so much time with Professor Dumbledore. I can't...*sobs*

Some of the things/characters missing in the movie:

1. Kreacher and Dobby
2. Bill and Fleur
3. Dumbledore's Army and the Order of the Phoenix putting up a fight against the Dark Eaters.
4. Harry breaking up with Ginny which reminds me of Peter Parker and MJ.

Finally, as a simple tribute to the wisest, kindest, most revered and one of the most powerful wizards (whose death out of the many deaths hurts me the most that I cried so much, I may have cried harder than Hagrid), the following is a collection of a few of his great thoughts and words that'll be forever etched in our hearts. *sniffs*

“In fact, being-forgive me- rather cleverer than most men, my mistakes tend to be correspondingly huger.”

“People find it a lot easier to forgive others for being wrong than being right.”

“It does not do to dwell on dreams and forget to live.”

“Words are, in my not-so-humble opinion, our most inexhaustible source of magic. Capable of both inflicting injury, and remedying it.”

“The pain is part of being human. The fact that you can feel pain like this is your greatest strength.”

“To the well organized mind, death is but the next adventure.”

“It’s not really goodbye after all.”

On a lighter note, it's beautiful Katerina's birthday today, let's spare a few moments to greet her a **HAPPIEST BIRTHDAY!** Even though you're quite busy for Goodreads and reading atm, I hope you're doing something that's making you happy today! Enjoy! <3

Reminder that all of my Harry Potter reviews contain unmarked spoilers, and lots of 'em. If you're one of the two people on Goodreads who hasn't read this series, this review is not for you. So, my dear underside-of-a-rock-residing friends:

<https://emmareadstoomuch.wordpress.co...>

This review will be interesting, because this book was far (far, far) from perfect, and yet I am utterly determined to give it 5 stars. (Which I have only given to the first book in this series.)

God, how do you talk about this book? It's really amazing. It is really hard for me to feel anything while reading a book ~~or generally living my life~~. For example, I felt nothing when Sirius died. Nothing throughout most of this series, actually. And nothing in this book, because nothing happened and everyone survived and everything is sunshiny and joyful!

Ugh. I tried. The last hundred-ish pages of this book really tore me apart. Okay, even that's not true. I'll just come out and say it: I'm really f*cking sad that Dumbledore died. I love him so much. He's high up in my top 5 characters. (Do I even have a top 5?) I'm devastated, which makes me even more upset, because I have a life to live today and can't just lay around and wallow in fictional pain.

I'm going to move on in the hopes that I just. Forget. Because I don't like this at ALL.

Here, we see Harry Potter - who, I think few will argue, has been a fairly mediocre character up to this point - become AMAZING. He's motivated solely by his need to work against injustice and evil. He realizes his parents' legacy within himself. He denounces the sucking up of others. He works hard in school! He is a good friend even when his two BFFS are being childish to one another plus refusing to believe him. In short, he's really, really, five-star-level great here. Gorgeous character development in 650 pages.

I didn't think I liked Ginny much, because I didn't remember this book well...like, at all. But she is so great! So funny. I wish there was more of her in this book.

Also, I'll fight anyone who says Dumbledore is ~the real villain~ of this series. He's really not. (Cough, Snape is, cough.) AND YOU'RE NOT EDGY, PEOPLE WHO HATE DUMBLEDORE BUT LOVE SNAPE. YOU'RE JUST DUMB. I fell deeply in love with the guy. (Dumbledore, not Snape. BLEH.) AND I F*CKING MISS HIM. Goddamn it. Trying to forget didn't last very long. Anyway.

I missed Hermione and Neville. Hermione was absolutely not well-represented here at all. Maybe it's a good thing she's not a Ravenclaw (#RavenclawPride) because she works fully against logic throughout this book. And when she's not she just, like, refuses to believe Harry.

Ron is sooooooooo annoying! Is he anyone's favorite character? He's like, Fred or George if one of them was totally childish and attention-starved and mean. In fact, Ronald is a pretty impressive character for the number of gross character traits he embodies despite being supposed to be a good character. Mean, immature, rude, jealous, definition of an inferiority complex. Bleh.

Harry and Ginny I'm totally for, BUT THE OTHER RELATIONSHIPS IN THIS BOOK ARE SO BORING. Can we do Hermione and Fred instead? Ron and Luna would be cute. Or, God forbid, some LGBT representation? WE KNOW YOU'RE A SUPPORTER, JOANNE. Don't even get me started on Lupin and Tonks.

Speaking of supposedly-good characters' downfalls: I'm no longer a Hagrid fan. It started with the last book and came fully around here. Like, at a certain point, the man needs a character trait. Liking weird animals, making bad food, and being humongous don't count. Harry and Hermione's constant stubbornness is annoying. Plus makes the plot repetitive once in a while. Also, Tonks. You know what, I guess I AM going to get started on Lupin and Tonks! She was a hilarious badass in the last book, totally depressed and weak in this one. I know I sound like a total emotionless asshole here, but that's who I am, and she's annoying in this book. AND IT'S TOTALLY FINE BECAUSE SHE'S JUST BEING A SPINELESS IDIOT OVER SOME DUMB SHABBY MAN. Kill me, please. ~~Then I can see my beloved Dumbledore again.~~

Too much Snape. (Cannot WAIT to write the rant on him.) Too much Draco. (Why do people romanticize that little weirdo so much? I guess I get the temptation, but he's a bully at best and a spineless traitor at worst.) I hate Kreacher and I hate Dobby...I hated Winky, too...I might hate house elves. If that makes me racist against a species of fictional character, SO BE IT, I GUESS.

I miss Fred and George, and the fun people from the Order (if they existed), and Hermione and Neville aren't here nearly enough. The price of Harry's amazing and concise character development is WAY too many bad characters, not nearly enough of the good ones. EXCEPT DUMBLEDORE. UGHHHH. I'M SO SAD. (I think my inability to cry is making this worse. Maybe if I just creepily sobbed in front of my roommate for a few minutes I'd feel better. Damn you, my lack of emotions! Just kidding love you.)

But I want to give this book five stars more than anything. It was so compulsively readable, more than any other book since the first for me. And it's the last book where our pals are attending Hogwarts. That makes me so sad. It's such a gorgeous setting and I'm going to miss it so much. WHY IS THIS BOOK SO SAD?! If Deathly Hallows is any sadder I'll be seriously impressed. And also seriously screwed.

And, okay, even though I was a harsh critic of these books...I'm really going to miss this series. I've been rereading it on and off (obviously) for three months, and it's been a fun ride. This is one of the greatest settings of all time. And since I'm rereading it after 10 years, it's like saying goodbye twice. AND I HATE ENDINGS.

Bottom line: Okay, THIS is my favorite Harry Potter book. (Anyone else's?) Unreal character development + tragic and lovely adieu to a gorgeous setting + ability to make me feel real, deep emotion + compulsively

readable? An absolute dream.

Ron and Hermione's will-they-won't-they is a total snoozefest. I propose Fred & Hermione and Ron & Luna instead. Also seven more books!

I'm yet to mention one of the most important characters in this series in a review. I'm, of course, talking about Severus Snape.

Severus, the unsung hero.

Severus, who sacrificed his own soul.

Severus, who loved another more than life itself.

Severus, the half-blood prince- the truth about his character was, and will likely always be, one of the most surprising twists I've ever read in fiction. The set up is all in this book.

Kai says

"I am a wizard, not a baboon brandishing a stick."

Harry Potter is my life. My life is Harry Potter. Once again there are so many great and amazing scenes and quotes pressed between these pages, so much truth and emotion. How could it not fall for it again and again and again.

Some of my favourite scenes (in no particular order):

- Fleur and Mrs. Weasley falling into each others arms crying (just thinking about it makes me teary)(but no, really: Fleur is such an amazing and slightly underrated character. She lives with the Weasleys, where, honestly, no one makes it easy for her. Molly is fighting a constant battle with her but Fleur doesn't back off. Everyone is convinced she is vain and arrogant, but it's that moment in the hospital wing where - finally - these two amazing women recognise each other as equals, where Fleur gains acceptance and much more than that: respect. Everyone expected her to leave Bill for selfish reasons, no one expected that she really, truly loves him. But by proving that she would stand by him, whatever might happen - and everyone knew bad things were going to happen - she opened Molly's eyes and Molly saw her, for the first time, for what she really was. A strong and fierce woman and wife, as she was herself.)
- the Memories: Dumbledore at the orphanage, Tom Riddle visiting Hepzibah Smith and Voldemort coming to ask for the DADA teaching job.
- "The Other Minister" is one highly interesting and funny chapter.
- Dumbledore's visit at the Dursley's
- Utter silence before Hermione accidentally punches herself with a telescope.
- Ginny finally getting more spotlight, being the sassy and talented witch she is
- Hermione pretending to go out with Cormac just to make Ron mad
- "*I expect your trainers are too small, Won-Won, " said a voice behind them and Hermione stalked past, smirking.*
- Ron's love potion episode
- Harry unknowingly discovering you-know-what while hiding his Potions books in the Room of Requirement.
- Professor Trelawney actually predicting the right stuff just to dismiss it as rubbish
- "*This is Mr Dumberton- sorry, Dunderbore. He's come to tell you - well, I'll let him do it.*"

There are some scenes however, that I do not like to read, where I have to stop myself from skipping them. Firstly, the dreadful second Quidditch match, secondly the Sectumsempra scene with Malfoy and Snape, thirdly Dumbledore suffering in the Cave. They are not very enjoyable.

Something that will forever annoy me is how absolutely no one believes Harry's Malfoy-is-a-Death-Eater theory. He keeps telling Ron and Hermione about it but they ignore him.

And then again, do you really expect me to believe that the brightest witch of her age would only get and "Exceeds Expectations" on her Defence Against The Dark Arts O.W.L.? Nope. Doesn't make sense. Especially not after Dumbledore's Army.

In a nutshell: I love Harry Potter. Not sure I mentioned that before.
