## **Her Bodyguard** Milly Taiden , Mina Carter

Business before pleasure... all work and no play makes billionaire CEO Amanda very dull indeed. Until she meets a hot bodyguard and sparks fly!

After a spate of kidnappings, Amanda's head of security suggests she get a bodyguard. She manages not to laugh her ass off before telling him no. With no social life to speak of, and certainly no sex life, what does she need a shadow for? What the heck was he going to guard, her pizza?

Andrew Davison doesn't do sweet. He's hard as nails and has a background that scares the shit out of most people. The rest want to hire him.

When a friend asks for a favor, Drew can't say no. Teaching a spoiled, rich CEO that her security needs an overhaul should be an in and out job. That is, until he finds himself with her curves pressed tight to his body, awakening a hunger he can't tamp down.

Sparks fly between the two that neither can stop. She's irritated by his bossiness and he's tired of being tempted by her. When her life is on the line though, he's the only one who will do anything to save her. Anything. Up to and including giving his own life to save hers.

Emotions erupt and wills are tested. One of them will give in to the other before the possibility of forever is taken out of their hands.

Reader Note: This book contains wild sex (the hot and sweaty kind), adult language (dirty talk is our middle name), and violence. If this is not the kind of stuff you like to read, skip this book. However, if you like an alpha male on a mouthy curvy girl, then this is right up your alley. Enjoy!

Only reason I am giving this 4 stars is because proofreading errors. Not a lot but a couple noticeable ones. Which isn't typical for these 2 authors. Otherwise I freakin loved it! I honestly really loved Drew's character. What a dirty mouth on him...sexy! He's British and leads a harsh life after being a soldier and now doing freelance work. He's gruff and kind of a bastard at first. Then there is Amanda. She is something else. She's sassy, head strong, stubborn as hell, bitchy, hard working, beautiful, and a spit fire. At first when these 2 met it was freakin funny. Unknown to her he was doing a mock kidnapping to teach her a lesson because she's so damn stubborn. He is cruel with his words but spot on to be honest. She's being selfish by not letting her

Head of Security Tom do his job so he calls in his mate Drew to wake her up so to speak! Drew is really hot and sexy and she's just jaw dropped when she sees him cleaned up. LOL. There were times I wished Drew took her over his knee cause frankly she deserved it sometimes! LOL. These 2 characters were perfect for each other and honestly it was love at first sight which both fought the whole way. I laughed through the whole thing! Awesomeness gals! 2 of my fav authors doing a book together!

I was looking for a quick hot read and this was it. It wasn't too short, it was perfect. I liked that it didn't feel rushed and the characters developed slowly and the story went rushed. The only thing I thought was odd was the main character went by Amanda and Amy?

Other than that I loved it. I love a good banter between the characters and Drew and Amanda surely can dish it out to each other. The fact that Drew was British made him 10 times hotter!!!

Amanda was snarky and sexy. These two made some serious music in the bedroom and it was steaming  
Hawt!

If you're looking for an easy, fun, sexy, hot read, pick this up and enjoy it as much as I did

#### **Ohhhh to be a billionaire ;)**

I loved this romantic suspense between a sassy billionaire and a strong and sexy Brit!! His domineering ways and her snarky attitude had me laughing and drooling. And now a bit about the story...

Amanda has taken over her father's business, but her security head is worried she isn't protected enough. When she doesn't take him seriously, he brings in the big guns. When the building appears to be on fire, she is almost out to safety when she figures out she has been kidnapped...

Favorite passages:

- "And, lets be honest, she'd come out the loser in a match against a wet fucking kitten."
  - "You need me, huh? Well okay, but this doesn't mean we're gonna hold hands and take long walks in the park, okay?"
  - "What made you get into this to begin with? I don't imagine you said to yourself one day 'oh, I think I want to have women kicking me in the balls in the future for a living.'"
  - "Okay, Mr. Balls of Steel, I'm not dissing my curves."
  - Her knight in black tacticals stood in the middle of the room, a pistol in his hand aimed straight at  
xxxxxxx.
  - "Deal with xxxxxxx before I regret not ventilating xxxxxxx skull."

Milly Taiden and Mina Carter have done it again. This fast pace read was great other than some name

confusion that made me have to re read a few pages i Loved it. The strong dominate Alpha male having to prove a point and rescue the damsel in distress. The sassy curvy woman that wants to take over the world and thinks she knows more then most. the combination works well for these 2 Authors and i can't wait to see the next hot steamy read that they come up with.

“Where the hell did you learn to do that?” she asked, each word struggled between harsh breaths. “And more importantly, can we do it again?”

He pulled out of her with a grunt, his breathing as ragged as hers. “How quickly can you get to the bedroom?”

Amanda Rey (amy) A high profile CEO and with the family she has a easy target. When her head of security suggest bringing in more help to keep her safe from ransom and kidnapping she fights tooth and nail for it not to happen till her building is stormed and she is taken.

Andrew Davidson (drew) (dav) Ex- special ops for the British crown when his old friend contacts him about his his boss saying he needs help Dav shows up but Amy is not what he expects and the sparks between the two are combustible.

Can Drew show Amy she needs help not just for her safety but every ones?

Will Amy know when to except help?

How will the two fight the attraction or will the CEO accept more from Her Bodyguard?

“You like it rough, darling?” Drew’s voice was cruel, harder than she’d ever heard it, and she whipped her head around, straining to see. Her knight in black tacticals stood in the middle of the room, a pistol in his hand aimed straight at Mercedes. “Believe me, you won’t like the kind of rough I like to play.”

### **Steamy Romance**

This story about a billionaire CEO who thinks she doesn't need a bodyguard is put to the test with Tom's friend Drew. She finds out that she does need more protection when he steals her from her own security team. Tom tells her she is not safe from people who would want to hurt her. Drew comes into her life and turns it upside down she falls in love with Drew but does not know if he will stay. Does he want to stay and does he fAll in love with her and who is after her.

Both Milly and Mina do a great job on this story of trust, love, and all out war of pride. I look forward to reading more from both authors. I would recommend this book to anyone who loves hard love and romance mixed.

It is always fun when two well know authors write together, Mina and Milly never fails to deliver alone and

together just amazing.

Amanda... Amy all she sees is business and making sure she lives up to the family name. She doesn't take out time for anything else, even men and when she did, well lets just say it was nothing to brag about. When her head of security tells her she needs more protection, Amy pretty much laughs it off...right up until she is shown its no laughing matter.

Andrew.. Drew most call him, well one names he is called. Is harsh and pulls no punches in getting his job done. If you're walking around in a dream, he very well could be your nightmare. He is called in to help a friend and show a curvy sexy CEO the error of her ways...

Incredible sheet twisting sex.. Oh oh and on a glass table top.. Yeah baby!! Grins.. This was a quick fun read with no cliffs. Love the interaction between the characters and enjoyed the story line. With the collaboration of both writers, there wasn't a time I could tell who wrote what, a awesome gathering of the minds. Loved it, recommend it.. Enjoy.

All I want to know is where can I find Mr. Andrew "Drew" Davidson.....Sweet Jesus All Day  
Longgggggg!!!!

Amanda Rey, CEO and Billionaire of a Fortune 100 company. She is business savvy but she is utterly clueless about the real danger she is in. Her living relatives want to do a hostile take over of the family business and by any means necessary, dead or alive they don't care. Amanda is giving her best friend Tom who is also head of her security a hard time about getting extra bodyguards, so Tom reaches out to his friend and asks for a favor and in some thinking he accepts Tom's offer.

Enter Drew (Lawd Ham-mercy, I need to put on my good hair for this man). Englishman who has served in her Royal service and is now a hired mercenary comes on the scene and not in a little way, he burst on the scene and raised royal havoc. By the time it was over Amanda clearly saw that not only what Tom was saying was correct but Drew had entered her life and clearly she didn't want him to part from it. Drew was about to rearrange Amanda's naturally ordered life by turning it upside down and turning her inside out.

Running a corporation has its perks and promises especially being a woman. As loud talking as Amanda was she is really a submissive. Drew who is dangerous, has killed, saw his friends killed and is a hardcore is truly a Dom and smart mouth Amanda is going to truly understand what it means to submit to a man like him.

Please note that this is a novella but it read to me as a complete story. It had suspense, drama and hot wicked sex Woot! Woot!

I was reading this in my doctor's office while waiting to be seen (wrong move) because when they took my blood pressure it was slightly elevated LOL!!! So that will let you know that this story was fantastic.

My very first story by author Mina Carter but it will not be my last and that you can believe. A great story and I am very serious on asking "Where can I meet Drew Davidson? Please and Thank you".

Well Until My Next Review Ciao Bellas!

Fun, hot, short book. But I could do very well without the bondage and spanking references.

## Seregon says

I've heard this author's name before, mainly b/c a friend of mine constantly retweeted her posts on Twitter. I like erotica, but I'm always wary of trying new authors due to the influx of dominant men and submissive women (and I HATE that dynamic!), but after my friend recently passed away I felt like I could honor her by reading at least one book by an author she loved so much. So I tried to pick one with the least amount of jerk. I think I did well.

Rich and powerful CEO Amanda Rey's security chief, Tom (OK right here I like it b/c there's finally a woman in a power position) wants her to get a body guard b/c he doesn't trust her family, she refuses. She thinks she's too boring for anyone to want. So Tom asks a military friend to fake a kidnapping to show her how much trouble she could really be in. At first Andrew doesn't want to, but agrees for his friend. He initially comes across to her as arrogant, but she's no weak little submissive. She got to be CEO of a Fortune 100 company by having courage, and it didn't waver no matter what happened to her. She held her own with him and gave him as good as she got (in more ways than 1). She wasn't scared or intimidated by any kind of tying up or spanking. In fact she ordered him to do it! It actually took HIM by surprise that she was into that. I have to give the authors credit here. This is more accurate than 99% of the "BDSM" books out there. See, as a former Dominatrix, it's the rich and powerful CEOs that would come in and pay top dollar to be dominated - and from personal experience, those were all men. Yes, the more powerful a person is outside, the more submissive on the inside. That goes for most people, (most not all. there are exceptions).

Drew is a true alpha male. That doesn't mean domineering, sexist jack ass that litter most romance ebooks today. It means taking control of a situation, concentrating on the task at hand, but also admitting your feelings to the woman you love and letting HER take control, too. A man who has to be in charge 24/7 is NOT a Dom or an alpha - that's an asshole, and there's a difference. Kudos to drew for having the gusto to date a rich and powerful woman. He was afraid he wouldn't be good enough, but gave all of himself anyway - and was even willing to leave his job for her. Like I said: HE is a true alpha.

I'm glad I gave this a try. I'm sorry for the reason why, but Tonya, I hope I did you proud ;) (p.s. miss you)
