I will try to sum up this story as quickly as possible; I am clearly in the minority with Let it Snow.

A man and a woman met on a plane. They had opposite personalities. Both were single but *he was engaged*. There was a snowstorm and their plane was grounded. The two were fated to travel together in the *last available rental car*. The weather continued to work against them. I believe they spent three days at her father's house; sometimes the dad was there, sometimes he wasn't. *The man was still engaged to the other woman* but that didn't stop their attraction, kissing *and wanting more*. He left. She went back to work. Sad. A few days go by. He showed up at her door. Unengaged. In love. The end.

Mrs. Macomber wrote this?!? No stars.

I almost forgot how much I loved these short novellas that Harlequin used to send to their subscribers at Christmas. I just recently found this one on a shelf and picked it up to read it.

Its only about 90 pages long, but the story is really sweet. Just the type of story you want to read around the holidays. It definitely keeps your hopes up for happy endings, in this world that's so full of gloom and doom. Debbie Macomber always delivers that kind of story, and I love her for it. Her characters are real and likable.

Sure I'm a sucker for romance novels. I openly admit it. But hey, everyone needs a little fantasy in their lives and this is my vice of choice.

This was really more like a short story. It was too similar to Dashing through the Snow which for me had the more engaging characters, plot, dialogue etc.

### Anne says

I've been overdosing on Christmas movies on Hallmark, Lifetime, UPN, etc this month, so I decided to get in some holiday reading as well. Perhaps this book was abridged by editors, because it just seems to disjointed. Debbie's Cedar Cove and Blossom Street are far better.

Short and sweet. Rallied inside for the 2 love interests to make it! Romantic. ❤?

## **Shelle says**

A very good quick read with 3 very addictive stories around the festive period.

## **Denis Verdecia says**

This is a charming story of two travellers trying to get home to their respective loved ones during Christmas. A chance meeting, a vicious snow storm and a car ride home brings Shelly Griffin and Slade Garner together.

It was a nice short little romance novel that had me smiling throughout the book.

I guess what I liked about the book was the timing of my reading it. With all the other stories I read about death and destruction and one person trying to get over and cheat on another person, reading this story where two people come together was refreshing. It was good to read about human interaction where one human being was not trying to outsmart or kill another human being. It was good to see that emotions can have a positive impact on people.

I recommend this book. It will be a good break for you as well. Yeah it's predictable. Yeah it's formulaic. But you know what? It's also easy to forgive just to see how the story pans out.

This is my first time reading these authors:  
Debbie Macomber, Sherryl Woods & Robin Carr

And let me just say that cozy romance is not my forte. So I was pretty disappointed.

The first story (Let it Snow by Debbie Macomber) was a pretty simple, enjoyable, quick holiday read. Cute characters, cute plot - exactly the type of warm and romantic holiday read I was looking for, but there was nothing life-shattering or laugh-out-loud about this one. No fireworks.

I made it about two chapters into the second story by Sherryl Woods before giving up. Even Barbara Kingsolver or a similarly talented writer couldn't have saved this plot: a harried mom of two, running a 104-degree fever, takes her son to the mall to see Santa on Christmas Eve, and loses him in the voracious shopping horde and only the temporary Santa - a cop with a heart of gold - can help. On every single count - count me out. I go out of my way to actively avoid any and all of these plot elements. 0 stars.

The third story was simply poorly written. The dialogue and descriptions were terrible. I am in shock that

Robin Carr has written and published twelve books. There must be an audience out there for her books; I am clearly not it.

more like 3.5. I really liked the first two stories, the last one didn't grab me as much, so that brought the rating down.

### **Lorraine Sears says**

A festive collection of three romantic Christmas novella's in one book.

While the first and last stories are lovely and give you a warm tingly feeling about the magic of the season, the middle story really lets the side down.

A young, single mum in a new town takes her children to see Santa at the mall on Christmas Eve, determined to keep at least one Christmas tradition alive after her divorce. But when her young son runs off, seemingly too excited to wait in line, she starts to panic. In steps local cop, also playing the begrudging, if very handsome Santa that day.

Now, trying not to spoil this story; and as a mum myself, I found it very hard to give credence to the idea that any parent would allow themselves to eye up a potential date while in the panicked state of having lost their child. Secondly I also question the type of present the child tries to buy for his mum - quite unbelievable. This middle story is the longest in the book - but for me it went on too long, with a very unrealistic vibe.

The other two stories are cute and would be great for a short read with a hot drink when looking for a break from festive chaos.

### **Emma Tasker says**

first two stories in the book was ok. but couldn't get into the last story in the book I think after 2 loved up stories in the book I think I was all loved out and wanted a good crime story

### **Julie Levenhagen says**

I got this as a free gift from a book subscription service before I was even old enough to be reading romance novels. I've read it almost every year since. It's short and one of the sweetest love stories I've come across. Sure, I've become cynical over the years- the protagonists fall in love rather quickly for it to be truly realistic, but then again, I don't go to the romance genre for a dose of reality, do I?
