## Natural Consequences Elliott Kay

Alex Carlisle has enough to deal with even on quiet days. Living with an angel and a succubus is no easy feat. One has divine responsibilities she can't explain, and the other tempts him toward a decadent lifestyle he's not sure he can manage. Add to that the stresses of college and trying to hold down a job, and it's lucky Alex can even keep his head on straight.

Yet the complications keep on coming. An amorous (and terrifying) werewolf won't take no for an answer. Vampires from across the country want to know what happened to their allies in Seattle. To top it all off, events in the city have drawn the attention of Federal agents who know far too much about the supernatural, and they have no patience for the chaos that Alex and his friends leave in their wake.

## Todd says

Meh, it was ok. I got tired of all the justifications for polygamy.

---

## Dreamthiev says

This is a good book, I liked it. I read the first as it was released on Literotica, and absolutely loved it. I like the story, I like the author's style, and I liked the characters.

Standing on its own, I think this is a very good book. However, I don't feel it's a good sequel to 'Good Intentions.'

In the time between the first and second books, which only seems to have been about a month, a whole lot got retconned. Things changed pretty drastically from how they were resolved in the previous book.

One of the major characters from 'Good Intentions' was just completely missing. She played a large role, and was revealed to be not only a friend of the main character but also of his entire circle of friends. Those other friends were here, too, but not her. Not even a cameo at the big birthday for two of them. The reason for her absence was totally implausible considering where she was at and what she was doing in the last book.

The protagonist's mother was also written out of the story. As where the various love interests for the other guys. At the end of 'Good Intentions' they had all hooked up to some degree. At least one of which seemed like it could get serious. Yet now just a month later and they're all single again, and the circumstances were only explained for one of them.

I could go on, but I'll just say there's a lot of incontinuity between the two books.

If that's the sort of thing that bothers you, and you read book one, I'd be wary of this "sequel." If you don't mind, or are just starting out on the series, then you'll probably like this book.

---

## Ishaan Puri says

It felt like that the volume 2 is made by a completely different author. It is so much different from volume 1. Okay, first thing first, the part that me want to bang my head against the wall is the scene where Lorelei sleeps with a guy who is complete scumbag and handcuffed the only person she loves and the only person she needs. She thoroughly enjoys banging him and the guy even gives her his card, so that he can have sex with her again if he is ever back in town. Why it bothers me so much? The protagonist has gone through so many betrayal and cheating and pain in all of his reincarnation and this is one thing that he won't tolerate which is betrayal, but he treats Lorelei cheating as nothing and shrugs it off like nothing happened, WHAT THE HELL? It is just not that even the Angel betrays him because she knows about his past and everything and still hides all things from him. A good chunk of first half of the novels spends on MC's feelings, his heart and pain and suddenly, it felt like no kind of emotions exists in the 2nd half.

-I have never felt so much regret before reading this kind of novel. I am feel nauseated, you know that weird feeling in stomach that gives you trouble breathing, i am feeling like that after reading this. I don't get it why the hell author would put such a scene? The worst is that the whole story treats it like nothing happened. This is perfect example of how to ruin a great character and story with just a single scene. I am even more afraid to read future volumes because of scenes like, i know it is hypocrite of me to complain about that in a novel like this with harem and polygamy, but i wouldn't mind if it was doing it behind his back and i am not into cuckry and NTR. I hate such genre to every fiber of being, i really should have read the reviews for volume 2 before getting into this story. I don't get it why it has such high ratings? Do this many like betrayal and cheating from your partner? I only 1-2 reviewer complaining about it.

---

## **Love says**

The first book in the Good Intentions series was fantastically entertaining. Much of the reason for this was that it didn't feel like the author had much of a plan for the book, he just had a great setup and some general idea of the direction of the story but then thought 'What is the craziest most entertaining thing that can happen with these characters?' and then made it happen.

This, the second book in the series feel much more planned out. Which might be a good thing, and probably necessary to keep the series going but ends up being less entertaining than all the hijinks of the first book.

---

## **Clinton says**

This is the second book of this type I have read and it was great.

Lets get into the one real thing i had a problem with here:  
Total lack of Taylor with no mention of what happened to her.

Taylor was an important character in the first book and a potential love interest for the main character and she makes zero appearances in Natural Consequences. The author couldnt even be bothered to explain why she didnt appear in this book.

But besides that all was cool. Oh yeah this series was pretty funny and had a good amount of modern slang and phrases which was awesome

---

## **Cloak88 says**

Good story, good characters, head the warnings!!!!

This is the second novel in the Good intention series and yet gain follows Alex and the Angel and Demon bound to him. After the rather crazy ending of the first novel, things seem to have calmed down... they indeed only seem to be that way. In the background of all this there are all sorts of interested supernatural parties who want to know what the hell happened and find out where their friends and allies went all of a sudden. Enter a few more FBI agents and things get really interesting.

Mr. Kay writes interesting stories with surprising deep backgrounds in them. All of the main characters get their rich backgrounds and original thoughts to bring them to life. Expect this novel to be quite like the previous novel in the series. Good writing, interesting characters and a ton of adult material.

4 stars, Recommended for +18 readers and READ THE WARNING

-----  
From the author's website:

WARNING: Natural Consequences contains explicit sex, explicit violence, explicit expletives, violent misuse of office equipment, nudity, perfidy, disruption of public transit services, polyamory, theft, arson, open relationships, trespassing, heterosexual foreplay, lesbian sex, depictions of beings of a divine and demonic nature bearing little resemblance to established religious or mythological canon, cell phone hacking, contempt of court, flagrant violations of civil rights, dangerous use of alcoholic drinks, infidelity, public sex, bras, panties, murder, attempted murder, blasphemy, atheist rationalizations, cannibalism, prostitution, decapitations, gossiping, defenestration, exsanguinations, tax evasion, sexual harassment, ancient Babylonian marriage customs, horse-poisoning, stalking, selfies, bribery, assault under color of authority, fantasy depictions of sorcery and witchcraft, highly sexualized Halloween costumes, assault and battery, stabbings, excessive handcuff play, mayhem, explosions, existential discussions, controversial topics of sci-fi fandom, living room sex, home invasions, mind control, conspiracy, cohabitation outside of marriage, multiple references to British science fiction literature and television, bad study habits, government surveillance, donuts, spousal abuse, interrogations, even more explicit sex, guys from Eugene, classroom misconduct, sexual misconduct, divine misconduct, general misconduct, voyeurism, reckless driving, murder of Federal agents, poor firearms safety habits, misuse of a swimming pool for gladiatorial combat, insanity, immolations, public endangerment, sexual promiscuity, consistent contempt of vampires (screw 'em, they suck), kidnapping of police officers, kidnapping of Federal agents, underage drinking, dismemberment, abuse of authority, still more explicit sex, electrocutions, destruction of private property, escape from Federal custody, barbering without a cosmetology license, World War I, betrayals, slavery, mild dom/sub play, cosplaying, a high school flashback, infidelity, reliable predictions of eternal damnation, destruction of a nice Zoot suit, nutshots, party fouls, littering, domestic violence, lengthy foreplay, abbreviated foreplay, disrespect for authority, falsification of records, prostitution, public indecency, impersonation of police officers, obstruction of justice, biting, clawing, hair-pulling, trash-talking and a general and willful disregard for traditional Western family values.

## **Anatole says**

Yet another book for weak-willed cucks.

As a person who likes to immerse himself in the skin the protagonist(s), reading books like these where the MC is a spineless cuckholded looser drives me absolutely fucking insane (that doesn't even begin to describe it). It has been more than a year since I read this filth the author calls a book and even know, the mere thought of this piece of trash makes me thoroughly mad for the rest of the day.

How can one enjoy reading such mind destroying, skin ripping rage-inducing shit completely eludes me. Author must be a fucking cuck. Honestly, quit writing, for the love of god. Or at least put a NTR/CUCK tag so that us sane people can avoid beeing dirtied by such nonsense. Thank you.

TL;DR : Cuckhold/NTR/Polyamory bullshit story, author who tries to make it seem normal, with the added bonus of a wimp as a main character.

AVOID AT ALL COSTS!

---

## **Kara says**

“Natural Consequences (Good Intentions, #2)” continues the story of human Alex, demon succubus Lorelei and angel Rachel, along with many MANY other characters. Witches Onyx and Molly in particular get enhanced roles in this book, and the two lovers finally bring Alex into their bed, after much talking and planning.

Book #1, “Good Intentions” was fantastic. It created an amazing world that questioned the nature of good and evil, while entertaining us with LOTS of sex (f/f, m/f and m/f/f). In Book #2, we still have an entertaining world of supernatural beings and humans, all of whom enjoy sex, but the focus is much more on humans (the FBI) battling the supernatural world. There are still vampires, werewolves, angels and witches....but the story and the characters feel much more of a continuation of the creativity of Book #1 rather than an expansion of creativity.

Alex’s numerous flashbacks into his past lives got tiresome after awhile. Jason’s human friends have smaller roles than in Book #1, Lorelei hints toward wanting men other than Alex (ok, does more than hint!) and Rachel is fun in every scene she’s in!

Tess Irondale continues delivering a fantastic narration. I rate the book as 3.8\*, rounded to 4\* - recommended to those who like the supernatural genre more than a story focused on lesfic romance or eroticism.

---

## **Sterling says**

I got this book because of a recommendation by a friend and I have to say I am surprised just how good it is. For anyone who is interested in this book I would say do not hesitate unless you are put off by sexual content. There is a lot more sexual content than I think their needed to be, but that being said the story alone is fantastic.

This is book two in the series and I didn't read book one. I had no problem figuring out what was going on. It is definitely a standalone novel. I will be getting book one so I can enjoy the full story, and because I enjoyed this book so much I wish I had read book one first, only because now I know a lot about what transpired in the first book.

I would highly recommend this book to fans of paranormal, fantasy. Like I said don't read this book if you are put off by sexual content that doesn't add to the narrative of the story. If that doesn't bother you don't hesitate to start this book right now. Great writing and storyline. I hope there will be a book three. I will buy it.

---

## **Steven Naylor says**

Rating 4.0 stars

I feel I owe an apology for my review for the 1st book in the series. I had not read many books with much sex in them up until that book and I feel now I was overly critical of it. I just re-read my review and I feel I

was criticizing the genre more than the book. I now see that is like complaining that Woody Woodpecker is too cartoony or reading a drama and complaining about it not being funny! This is a story about a succubus (and an Angel); complaining about the sexual situations being unrealistic is just as foolish. This is a fantasy book about an Angel and a succubus being bound to a mortal; I should judge the story for how well the story was told, how interesting it is, the characters and how it made me feel. With that in mind, I felt this was a very good book. I listened to the audiobook and the narrator elicited a lot of emotion from me. Despite there being a lot of sex in these stories, I also felt there was a lot of heart involved. There was love, respect, desire, lust but there wasn't pettiness of jealousy.

I liked the twist on the main character remembering past lives and how that both helped him (by allowing him to know past skills like sword fighting and war) and hurt him (sometimes those memories were overwhelming and came about at inopportune times). I like how Alex always tries to do the right thing, he fights for his friends and his loves and won't let anyone or anything get between him and the people he cares about. His friends are exactly the same way. They each have different personalities and they riff off each other pretty well, but no matter what, they have each others back.

(view spoiler)

Overall, this is a very enjoyable book, and I can't wait to read the next one. Just make sure you don't read or listen to this book at work - that could be awkward.

### **Hollow Well says**

I liked this book.

This is the second book in the series. A boy fantasy with the dial set to 11. Alex, nerdy guy extraordinaire, still has a succubus girlfriend with a heart of gold who likes to call him master and a foul-mouthed angel that totally kicks ass. They engage in a polyamorous relationship and battle nasty vampires and werewolves and the FBI. There is A LOT of text oriented towards how they are engaging with the utmost care and complete success in a variety of non-standard, open / polyamorous sexual and emotionally complete relationships where everyone is satisfied and no one becomes jealous - I mean, who the hell would want to read about a non-successful version - that would be boring. However, there is so much discussion about how attentive they are in the various sex scenes that, frankly, it becomes a little tiresome. Plus, I felt that if you extract the I'm-making-the-menage-work aspect of the sex scenes, the text almost becomes the equivalent of reading an origami instruction manual with all the bending and tabs and slots.

Where this novel shines is in the action. I really enjoyed the last third of the novel where all the vast array of characters meet within the arena of battle. OK, so, some monsters seem totally bad-assed when killing off

some disposable characters, and then meet their match when faced with nerdy boy. Hey, like I said, it's a boy fantasy. Rock on!

So, to reiterate, dial back the sex scenes before they begin to chafe - that should cut out a lot of chaff. (See how I did that?) Stick with the thriller aspects of the novel.

---

### **Art Lueder says**

Wow this is such a good series. The action is intense, the characters fantastic, and the sex smoking hot. The FBI special task force on supernatural activities is trying to figure out why Seattle's vampires have suddenly vanished. Everything gets wrapped up in the end but I hope there is another book. Maybe with the witches working with the FBI and the rest of the gang can help them. Great series. Highly recommended as long as you aren't offended by plenty of consensual group sex.

---

### **Joe says**

Ahhh the sequel to Good Intentions. The plot pretty much revolves around the mess that was made in the previous book. They have FBI targeting them now, a werewolf still wanting to mate with Alex and a whole lot of angry vampires out for revenge. I enjoyed the book a lot and as usual Rachel's colorful speech was awesome. Having an angel with tourettes at all the wrong moments really enhances the entertainment factor of the story.

Overall I think the book wasn't as long as the first and maybe not 'milked' as much as it could be. For instance, Alex's drama with trying to deal with all his past lives I think has a lot more potential then was written. If there is a 3rd book, which I hope there is, the author still has plenty of room to play on Alex using his knowledge and memories of the Crusades or as a Viking to his advantage. He did touch a piano and I'd love to see more of that too.

Gah, seems like I'm rambling. Anyways I liked the book a lot, hoping he writes a 3rd; don't want to wait another 2yrs+ for it to come out though. I would definitely recommend this book to others.

---

### **Alyx Harkess says**

You know. I loved these books right up until the end. I have a few issues but one stands out so much in my mind I can't fall asleep because I'm still so angry it's irrational I know but the way the author handled the situation ruined it for me.

\*\*\*\*\*SPOILER ALERT\*\*\*\*\*

When lorelei first starts seducing both binder and the other guy in the room by saying she could take both of them at once I didn't think much of it, I figured she would lure them into complacency by kissing the both of them, putting them to sleep and maybe stealing the handcuff keys or something, just a quick thought though and then that changed and she had only binder in the room with no keys or anything whatsoever to stop her from knocking him out to making him do something like open the door and letting her go free and making

him forget. But no. She just goes on to thoroughly enjoy screwing him considering the prick was one of the guys who arrested the "only man she needs" and "the love of her life" etc... The thing is I won't begrudge her banging the guy if not for the fact that Alex has gone through so much bloody pain from either having his wife/love cheating or betraying Trust all throughout his many reincarnations. Never mind the fact that he told her he couldn't handle that. The stupid bitch admits to him openly how she could have found other solutions but instead chose to screw him because he was attractive and she just fucking had to. The author appeared to not give a flying fuck about the damage this might cause and blatantly made Alex not seem to really care???? Are you kidding me?? He also seems to accept the fact that Rachel watched the whole thing and didn't once stop and think what that might do to him? My opinion of her dropped completely, I didn't really care about the kiss on dew even if that was a surprise, I mean she feels everything that Lorelei feels and all she knows is that she has to watch her Fuck another man because it feels good. What complete and total Bullshit. She - the haloed fucking angel who knows more than most about how bad Alex's past lives were couldn't seem to care how all Alex does is to help and make sure no one's feelings are hurt doesn't even second guess how much pain that would cause him realistically? Are you joking???? Miss bad ass who broke so many rules and is the dominion fucking leader over all Seattle angels couldn't interfere to brake Lorelei's handcuffs? How in God's name is that interfering in the mortal world? Last I checked Lorelei is a fucking demon? Let's not forget her "bond" to Alex to not let him come to harm. Oh no. Not the angel who can fly miles in seconds, turn invisible and walk through walls? She wouldn't leave Lorelei even after butt Fuck Donald leaves? She couldn't flit between both Alex and Lorelei to keep them updated? I'm so damn angry I had to vent this. Only time I felt worse was with ps powers builder series. Jesus I'm not a prude but when you break Trust like that it's done for me. Completely.

Sorry people. I have a banging headache but this helped!!!

I enjoyed every minute of both these books until this part.

---
