No More Lion Anya Nowlan

Curvy Liza Perelli has been looking for a place to call home all her life. From a privileged background, she has done her best to shrug off that lifestyle and seek out the simpler things in life through her art. Still, there is something missing. When she meets sexy werelion Rake at her best friend's wedding, Liza knows she has a chance for something truly spectacular. Maybe a devilish cowboy shifter is exactly what she's been craving? Sounds like a done deal, right? Wrong!

Rake Whiteplains is sick and tired of how his pride has been run and he wants no part of it. Instead, Shifter Grove, without any backwards traditions, is the place for him. He thought he was happy there. At least, until the sinfully hot Liza shows up and turns that understanding upside down. He can't stop thinking about her and he knows she has to be his. Only one problem - his pride isn't exactly on board with him picking his own bride and having a happy ever after.

Their attraction is undeniable, but can Rake make Liza his with a pissed off clan of werelions out for blood on their tails?

Sassy Shifter Brides is a series of paranormal mail-order bride romance novellas set in Shifter Grove, a town that welcomes humans and shifters alike. Each book follows a different couple with no cliffhanger, a HEA or HFN ending and can be read as stand-alones. This book contains scorching hot sex, adult language and possible violence.

From Reader Review No More Lion for online ebook

Elizabeth/snoopypeach says

No More Lion

Book 2 in Sassy Shifter Brides series

Drawn together at a wedding, Rake a lion shifter and Liza, a human, feel an instant connection. They get hot and heavy for a quick minute then don't see each other for a while.

Liza is asked to house sit and she is ecstatic to see Rake again and thinks he is excited to see her.....but he doesn't call and he doesn't show up.....what's the problem? Can these two come together for something real or has their time passed?

Controlling families, sexy shifters and a cattle drive....what could happen?

I enjoyed this story. I liked the main characters because they had just the right mix of sweet and snarky. It was just the right length for an afternoon read. It's a story you can easily get into. Happy reading.

Received an ARC copy for an honest review.

Lisa says

Sassy Shifter Brides is a series of paranormal mail-order bride novellas set in Shifter Grove. No More Lion is the second book in the series.

First off I have to say that I love the cover on this book. I love Lions so I was thrilled to get a copy of this book to ARC.

This book introduces us to Rake Whiteplains who is a sexy werelion and Liza Perelli who is a pretty curvy girl just looking love and to belong some place. Liza meets Rake at her best friends wedding and the sparks fly between them. But in order to be together they have to deal with pack mates that don't approve of them being together.

This is a good book and a fun read. You should give the series a try. I think you will like it.

Sherill says

Book 2 -Sassy Shifter-Brides-Liza and Rake had a brief steamy encounter in Book 1 at Kacey's wedding. They have been keeping in touch via the SassyDate app.

Liza is an audacious, curvy, intelligent, hazel eyed HUMAN beauty who has secured a permanent place in Rake's heart. For the first time ever, his human and werelion psyche agree that Liza is the mate for him, however, the Whiteplains pride has sent a message from his Mom-Come Home-and if you take a mate the pride doesn't approve of, both of you will suffer the consequences. Rake left the pride years ago, he wasn't going to succumb to their archaic ways. Owning a ranch and living in the town of Shifter Grove makes him happy, only thing missing is someone to share it with. Kacey is going on her honeymoon to Alaska, and asks

Liza to house sit for her in Shifter Grove...Liza sends Rake a text telling him, however, he ignores her! Knowing he cannot put Liza in danger he devises a plan not to see her, but DESTINY HAS A PLAN TOO!!

Anya 's smooth writing skills meld together a heartwarming story. The author vividly describes unique and engaging characters, seduction at its best, and reality mixed with a fantasy that is absolutely flawless. I highly recommend this book and its series as it is definitely a fantastic read.
{I received an ARC for an honest review}

Ann says

This was a super fast, steamy read. This is the second book in the Sassy Brides series and while I enjoyed this book I liked the first one more. The biggest drawback for me on this story was how Rake was willing to lose his chance at his mate due to his family's threats. From what I have read with other shifter stories this did not seem like a typical shifter. Most would do anything to connect with their mates and unwilling to walk away for any reason. However once Liza convinced Rake she was more than able to fend for herself against his family the sparks literally flew and there was no slowing the story down from that point. I will be looking forward to the next story in this series.

Sheryl says

I was given a complimentary copy for an honest review by author Anya Nowlan. This is book 2 of the Sassy Shifter Brides series by the author.

Rake is a werelion and left his pride because of how the laws and circumstances are in his opinion ancient. He does not want to be a sperm donor to any of the lionesses but wants to settle down with 1 mate. Liza is upset with Rake and has a chance to get away from him but things do not go as planned since he is in charge of the journey. Rake will do whatever it takes to keep Liza safe including fighting his own sisters.

This book has a great story line and wonderful characters for any reader to enjoy. The author gave the characters very good interaction.

This book is for any paranormal romance book reader who like action and drama with their romance.

Diana Rising says

This was a good shifter story where a human girl and a werelion rancher fall in love. We didn't get to know the main characters very well, but they were both likable. The sexy scenes are well-written, but some of them seem unnecessary to the plot. The human heroine knows about shifters, because her friend married a bear shifter, so that explains why we don't have any angst about the hero being a lion.

I enjoyed the unique take on werelion society. Our hero doesn't want to live like a lion in Africa, laying around and servicing any female who wants him, while the females run everything and control everything

about his life. He had left the pride long before he met his human mate. The pride he is from is not happy that he won't do what they tell him to, and especially unhappy that he is mating with the human.

Melissa says

I received a copy of this book in exchange for a review. I have been waiting for this one since I read the first one in the series Hearts Laid Bear. I must admit I loved this one even more. I felt more of a connection between these two. Don't get me wrong the first one was a great read as well but this was better.

The story, picks up where the first one left off at Warren and Kasey's wedding. After a steamy makeout session Liza returns home to Texas but her and Rake keep in touch through Sassy Date. Then as luck would have Kasey asks her to housesit for them while they honeymoon in Alaska. She hopes that they will be able to pick up where they left off during the wedding. But during the time she goes home and then returns Rake gets a visit where they threaten any female he sees that doesn't meet the Pride's approval. So when Liz text's him that she is back he stay's away so she won't be hurt. Then cupid steps in in the form of his friend werebear Declan! Ha, gotta love those shifters. I loved the fact that Liza did not let Rake's silence tear her down into a sniveling mush. The women in this series are strong, confident, and real women not stick figures that blow away in the wind. Plus they are not a whining female that is constantly harping about how she cannot love herself and therefore no one who is good looking could ever love them or look at them with real appreciation. This author seems to have a deep respect for them by making them strong and confident. And the males how can you go wrong with a strong Alpha cowboy? I love how Rake is protective and Alpha but romantic at the same time. I also liked that it was a story with a plot and not simply a means to get to the hot sex. Yes, it was hot. Be sure to have water at the ready when reading this one. WOW! I cannot wait for the next book in the series.

Angel Hatfield says

****I received an ARC of this story in exchange for an honest review****

While in Shifter Grove for her best friend Kacey's wedding, Liza Perelli meets Rake Whiteplains, a lion shifter living in Shifter Grove because he can't stand his pride's ancient rules. At the wedding, the heat gets turned up between them. After she goes back home, they keep in contact through the SassyDate app. A few weeks later, Kacey invites her to house sit while she's on her honeymoon. Liza jumps at the chance to see Rake again. When she gets there, though, he avoids her like the plague. Seems his old pride is threatening him if he chooses her as his mate. Luckily for him, Texan women don't just lie down at threats.

Rake already knows what he wants, but for the safety of Liza, he tries to stay away. Liza is a strong and determined woman who refuses to let anyone stand in the way of their happiness.

This was another quick and good read. The author manages to pack a full story in few pages. I recommend this for anyone that likes this genre.

iliana G says

I was given an ARC by the author for an honest review.

I don't think i have read any other book of this author and i have to say i am so damn glad i did!!!

Ohh my gosh i just love short books that are packed with action hot steamy sex and the right plot to keep you intrested and unable to leave te book down.

Lisa met Rake in her best friends wedding and the attraction between them is undeniable.

When Lisa leaves to return home Rake is the only thing in her mind as Rake has onle one thing in mind Lisa.

Inviting her back seemed the only way to go cause he had to have this woman.

Things become intresting and dangerous when his family claims him back to the pride and he denies.

With a threat hanging above his head to either return to his pride or he and any human he choses to face consequences Rake has to stay away from Lisa.

Can he make it and not hurt her?

Loved loved loved it....as i already said fast paced with hot hot hot sex and a really nice story.

I so need to read book 1 and to put this series in my tbr list!!!

If you haven't read itI soooooo recommend this book!!!!

Robyn says

Liza goes to her best friend's, Kasey wedding in Idaho to a town where shifters and humans live harmoniously together. While celebrating she catches the eyes of one sexy Lion, I mean guy named Rake. Liza and Rake have a deep bonding connection that is unbreakable. With the exchange of some hot kisses and groping their fate is sealed. Liza comes back to Idaho to house sit while the newlyweds are on their honeymoon. The thoughts of Rake run through her mind. Rake need to keep his distance. After a visit from his lion family matriarch he is reminded of the archaic laws of his people. Can Rake and Liza see past their family dynamics to make it work? While on a long cattle herding trip Rake and Liza take the RIDE of their life. I love this second story in the series! I cannot wait to see what Anya has in store for Deacon.

Gale says

I received a copy of this book in exchange for an honest review. I have been waiting for Liza's and Rake's (Raleigh to his family) story since I read about them in Hearts Laid Bear. It was a very fast read for me but I loved Liza's character – snarky, smart, talented and hot for her werelion-to-be! Rake has trouble with his family/pride and this story is about overcoming those issues to be with Liza. Their “courtship” seemed short and I would have loved to read more of a backstory but then it would have been a very long book. Good, fun, hawt, quick read! Who's next in this small town? I'm ready to read on!

Donna Vaughan says

NO MORE LION (Sassy Shifter Brides #2) – BY ANYA NOWLAN

Wow No More Lion starts with a bang straight into the action. Hot action, but Anya leaves us wanting for more panting for more. Elizabeth (Liza) and Raleigh (Rake) are a hot sexy human and a were lion. Rake left his pride as he wants a more fulfilling life than the traditional way the pride is being run.

After a visit from his step-sister Rake decides to cool things with Liza. The sexual attraction between the two is too strong to be ignored. Rake and Liza go on a cattle drive together where they give into their desires and admit the attraction is real between them. While on the cattle drive they are visited by three were lionesses.

After a confrontation between Rake and the lions Rake is able to have the future he has been wanting.

After receiving this Arc for an honest review I can honestly say I was not disappointed and think any reader of the paranormal will enjoy this story.

Debbie says

Independent reviewer for Paranormal Romance and Authors That Rock.

Liza met Rake at Kacey and Warren's wedding. The attraction is hot off the scale and powerful. So powerful, Rake knows she is his mate. But a visit from his half sister puts a damper on that attraction. As the oldest lion in the pride, he is expected to return home and mate with all available females, just like a stud. And his sister is just as determined to get him home, as Rake is determined not to go.

Short, sexy shifter book that is perfect for a quick, easy light read. I'm trying really REALLY hard not to use the HO word! Not too complicated, no major plot twists or surprises, and sometimes that is just what you need. My sister would call this shifter porn!

Seems shorter than Hearts Laid Bear, about 30 minutes reading time for me, and while still a cute little book, it didn't push as many buttons for me, as Heart Laid Bear.

I DID like the fact that the issue Rake has with his pride, is different to the one Warren has with his family. Not an idea I've come across before, the male being expected to stud out! I'm intrigued to what the next shifter's problem might be.

4 stars

same worded review appears on Goodreads, Amazon.com and Amazon.co.uk

Cilicia White says

This is book two in Sassy Shifter Series and features, Liza, the best friend of Kacey, the heroine in the first book and Rake, the werelion. This story takes place after Kacey's wedding. Rake's family wants him to come back to the pride so he can takeover and be the Alpha and the male equivalent of a broodmare. When he refuses he's threatened to never mate with anyone who the pride doesn't agree on. Fearing for Liza he decides not to pursue a relationship with her but fate has other plans. This is a short story with lots of action

and a HEA.

I received a copy of this book for a honest review

Karen Shortridge says

I received this for my honest review

if you like shifter short stories then this is a great one, Rake is a lion shifter making his own way after deciding the ancient ways are not for him, Liza an artist from a very wealthy, well to do family who feels totally out of place with them and doesn't feel she can fit In anywhere. well they both meet at their friends wedding and chemistry fly's in amongst them but they don't take it any further and part ways that night, a few weeks later they are together again but there is things against them on Rakes side so he tries to stay away, Liza just thinks he is being an ass, can they work through it and have the real deal

I loved this story, there is the right amount of romance with humour too, it definitely leaves you wanting to here more from Shifters Grove
