Lori says

A very good story although it had more twist and turns then I could hardly keep up with. I really love the Kitty Floyd character that Zoe wrote about and her fans seemed to love it too. Who knew the real killer was taunting her all along through that script. And then when Zoe long lost father entered the picture that threw me, but not nearly as much as finding out it was Joe all along who was the killer.

Jo says

First book I have read by this author. Story line was intriguing; never a dull moment. And I did not figure out who the killer was before the author wanted you to know--and it surprised me! A really, really good read.

Sabrina says

Great! The last few chapters were crazy and blew me away. I really couldn't believe who had done it when I found out. I didn't ever suspect him at all.

Bonnie Murray says

Reminds me of a Nora Roberts type plot. Some romance, girl did better detective work than police, etc. Not going to look for more of her books but was okay.

Stacey Coyer says

Wonderful read

Now you die was a fantastic read! There was even a very bittersweet part that made me cry! That I was so not expecting..... Christians Heggan always brings me right into the book.....although I was right about who it was fairly early, the way the ending of the book was, was just phenomenal!! Another 5 star for Ms. Heavenkept me reading well into the night.

Pauline says

First I have read by this author and I really enjoyed it. Kept me gripped from start to finish.

Netha says

hmmm baru pertama baca novel karangan christiane heggan & menurutku lumayan bagus kok
dah lumayan lama baca nih novel
kira2 masih ingat ga ya :p

bercerita ttg cewe q yg bekerja sbg komikus yg menemukan mayat di tempat gelap & terpencil saat dia baru pulang dari perayaan natal.

tp saat si cewe q pergi meminta bantuan eh mayat tersebut sudah hilang.

semua orang menduga si cewe q hanya sedang mabuk tp cewe q itu yakin dia tidak salah lihat.

jadilah si cewe q menyelidiki sendiri siapa mayat tersebut & kenapa dia bisa berada di tempat yg tidak lazim tersebut.

penyelidikannya membawanya pada mantan suaminya yg sudah bercerai bbrp tahun yg lalu.
tapiiiii ternyata mereka ber 2 masih saling mencintai walo sama2 keras kepalanya.
si cewe q ga kenal takut banget. rasa penasaran tinggi. dia ga peduli apapun terus lanjut menyelidiki
walaupun nyawanya terancam.
jadilah si ex husband kocar kacir melindunginya.

pembunuuhnya benar2 tak kita duga lho.....

endingnya juga kita puas.

hhhhhhh lebih baik ending2 di novel daripada di film silat sekarang.

aq ga terlalu ingat detail2 dalam novel ini tp yg ku ingat novel ini membuatku terkesan....yah terkesan untuk novel yg ku temukan secara tidak disengaja :p

Mili says

The mystery is good but book isn't very well written. It does not make me feel excited about reading it again or reading other book from this author.

Ginny says

The main character is a comic strip writer and that's about the literary level of this book, in my opinion. Very basic storyline.

DAISY DISNEY says

Superb read! Fast paced action & without knowing this book takes place during Christmas-time! Perfect for this season. It had great mystery behind it and the killer was not who I expected. Loved the ending too!

Andrea says

Wow,,, this book is amazing. I love the suspense, I honestly didn't expect the identity of the murderer. I think the plot/storyline is good, not too much or need more, it's just right. It's about a cartoonist who found the dead body, then went to report the indcient, then came back with police, the dead body disappeared! The cartoonist has a lot of curiosuty, so ofc she can't just forget about this and move on. She wants to know WHO is that dead body, and who killed her. Then the story begins.

Readerrobert says

I can't believe I read this entire book in 1 day

Sonya madden says

do you love a good mystery? Zoe Foster finds a body but the body disappears after she reports it. cops refuse to believe the woman, a cartoonist. she slowly forms an alliance with her ex-husband to find Lola's killer. Where does the truth lie? Who wants Zoe Foster dead??

James Witherspoon says

Came for the romance, stayed and was left dissapointed. If you are looking for some steamy ooy gooey fuck me like we are not supposed to be fucking romance, then you are truly lost here.

Btrflies says

Liked it a lot. Good writing, compelling story, kept me interested. I would recommend this to anyone who enjoys who-done-it type mysteries.
