Mollie says

I simply cannot get enough of this guy. The depth of his personality, the past that is revealed about him. I'm in love with his best friend. I just have to be sure that I don't read through the series too quickly and run off to Wyoming to see if he's for real. It's okay to read the series while watching the TV show. They are not the same, but you can still follow without getting confused. Characters from the books have been switched around to accommodate the 43 minute TV format, but the content is the same. Enjoy this delicious bit of Americana.

Gary Marshall says

I got hooked on the Longmire series on Netflix and loved the characters especially Walt Longmire. The Netflix series mainly uses Book 1 of the 4 volume set so there is so much more to learn about Walt and his female deputy Victoria "Vic" from Philadelphia. The setting is in Wyoming and after reading the books and watching all current seasons (hoping for more) on Netflix makes me want to travel there. The author, Craig Johnson, knows his subject matter especially the Native Americans who play a major role in the books, especially Henry.

I am not sure if I would have viewed the book series differently after having already watched the Netflix series. By watching the series it mentally painted a picture of the book characters which really made reading that much more enjoyable. The producers who selected the actors to play the parts did an outstanding job as they mirror the book's characters. A 4 volume set I could not put down.

An overall 5 stars. Recommended reading.

Rikki says

If you modern day sheriffs these books are great reads.

paul mcclain says

Great read!

I really enjoyed this box set. Craig Johnson is a very good story teller. His characters come alive on the pages. If you enjoy a well told story you will enjoy this boxed set!

Mrs. Kriese says

If you like the television series Longmire, you'll love these books (the book is ALWAYS better, right?). My

husband and I are reading the series via Audible. Wonderful narrator.

Christina Dickens says

Excellent writing and story line.

Chris says

Good Read

Great storyline. I really enjoyed the Longmire books as well as the television show series. Keeps your interest. Good writing.

Darla says

LOVED

Karen Clary says

I have read the entire series up to his latest book, very funny and entertaining. I'm reading them all again they are so good.

Freerangegeek says

I really enjoyed these books. I was a big fan of the TV series. And the books did not disappoint.

It was especially interesting to read the books with the voices of the TV actors.

Horseandahalf says

Absolutely love the narrator. I want to listen to other books he narrates. Love his pacing, his gravelly low voice, and how he takes inflection and paused meaning to make the text come alive in a way I never would if I was just reading the text.

As for the book itself, not bad. Very interesting development of certain characters which makes me intrigued for the next few books.

Juliaruth says

I love listening to George Guidall. He brought an essence to The Longmire series that I didn't have with the narrator in my brain. I enjoy these books twice as much with him as the narrator.

Frank Minogue says**Touching Story**

Craig's writing is just plain amazing. The characters are real. They have real feelings and thoughts, and you are part of the day to day lives of their tales. In this story, he takes on the horrible situation of human trafficking, and develops a real living story about the main character's heroism in Vietnam and relates it to a horrible tragic loss of a young girl. As usual, he also brings out the tribulations faced by Native Americans in the United States. You will laugh out loud, cry a little bit, and smile a lot reading this amazing book.

Cassandra Davis says

If you haven't watched A&E's Longmire, you should. You do not need to be a fan of the show, however, to enjoy these books. The dry humour, laconic dialogue, and perfectly described Wyoming setting evoke comparisons to Larry McMurtry's work.

I bought this box set and then bought every other Longmire book. I've already hooked my husband and mother on the series. A must read for any devotee of Westerns.

Catherine Davis says

These books are wonderful. Excellent writing and suspense. Also gives a glimpse into living in Wyoming.
