## From Reader Review ??????? 3 for online ebook

### Donna says

Komugi decides if she'll stay in Hokkaido with the boy/wolf she's trying not to love.

This is a sweet series. There's no deepness to the story but that's ok - I'm enjoying it. I'll be reading the fourth volume which is apparently the last one.

### Dorian de Jandreau says

When you read a book with same feelings, as in the book, at the moment....you can never rate the book objectively. Love triangle, fighting your feelings, drama, a bad guy trying to separate lovers and friends who try to keep them together.... \*sighs\* Why did I read this? To make my feelings bleed harder.

**"For the first time in a while. Tears are even coming out by themselves."**

**"Isn't that just saying you're in love already?"**

**"I'll give up loving you."**

**"I guess the one who falls in love first, loses the game."**

### Mary says

If you like Fruits Basket at all, this should be your next read. Can't wait for the final volume.

### Bryn (Plus Others) says

[Rin as a love interest more than Oogami -- which is often a problem in shoujo manga, that the love interest is the least interesting guy. (hide spoiler)]

### Joanne Sim says

There is a plot twist in the 3rd volume. God, I hate sensei so much in this volume. He is just too overprotective. As an adult who lived for such a long time, shouldn't he be able to tell what kusonoki's personality is like? Why is he so reluctant to make her stay? Gosh. :(

Ooh! That ending!

Apparently this series wraps up in the next volume, which...I really like Fushimi? I liked that he and Komugi built a friendship that was based on learning to understand how the other one is. I don't know if I'd like to see them together, but I'm a little bit eh about the predictable turn (since Oogami is obviously the male main here).

Also Yata-sensei is hella creepy. He's a bit like if Shigure and Akito (from Fruits Basket) had a kid who inherited Hatori's powers. I love him, but he's hella creepy. I didn't see the ending coming, though I really do understand his motivation.

So I guess we will see how this ends. Based on some spoiler comments I saw on the final volume when it was released in Japan it looks like things get a bit rushed feeling. Its honestly been so long since I've read a series that ended before at least volume 5 that I'm curious to see if I still enjoy it as much on a re-read later this year.

Thank goodness I waited to read this until I had volume four - this is a surprisingly engrossing little romance!

[When Komugi went to visit her mother in Tokyo, at first, I thought that she was going to move back and stay away from all the pressure that she was receiving back in Hokkaido, Japan. Thanks to the warnings that she received from Yata-sensei, yet I felt so relieved that she was only going back to her mother for a visit. As well as to recalling a few memories back when she was younger. Though, I just love how Oogami has this strong affection towards Komugi-chan. After all, I do thin

Oh my Lord, in heaven! That cliffhanger was really mean, like if I didn't have the fourth volume already I would be screaming like a mad woman to the closest bookstore to buy it. If you can't tell, the drama has really shot up in this volume and particularly near the end of it when a lot more of the plot is revealed. And the drama is getting so intense, but not in an uncomfortable way. Instead, I feel more like I'm about to fall out of my seat from sitting so close to the edge. I don't normally like love triangles, mostly because they're never done properly, but I really like how the love triangle is being used in this story. Unfortunately, I think the couple that I prefer isn't going to happen....sigh, oh well!

Anyways, I feel like Komugi has come more to life in this volume but I still don't think of her as a very present character. It's really weird, I like her but I feel she's still a bit watered down compared to the other characters in the story. Sometimes I feel like her two best friends have more of a presence than she does, but I digress.

The comedy, like before was good for a few chuckles in between some really heavy drama. Aoshi, the tanuki, is probably my favorite character because he's the comic relief and such an instigator of a lot of the drama. Well, if you'd please excuse me, I have to devour the next volume before I die from that cliffhanger. Seriously, though if you haven't read this volume yet buy it with volume four or you will regret it!!!
