Mohammed Aldughayyim says

I really loved the book. It made me aware about the differences between men and women such as,the way of

thinking and their needs etc. It is very important that everyone reads these sort of books. It will make you aware about the other gender and how he or she thinks. I highly recommend guys who are about to get married to read this book because, they will be able to avoid plenty of misunderstanding that normally happened between new couples.
