Kimberly Buckner says

This great story about Andrea and Josh kept me guessing and had some wonderful twists. Andrea is being threatened and pursued by mystery murderers and she and Josh have to figure out why before its too late. The suspense combined with a strong heroine and a handsome, conflicted hero, made for a killer romance set against the backdrop of a Georgia military base. I stayed up way too late reading because I couldn't put it down!

Cute story with characters in the military. Overall, I liked the book but thought it wasn't fantastic.

Crossfire was a action packed book you find your self being the victim of drug dealers who are out for blood. Follow Dr. Andrea Donovan as she try's to help a patient who is trying to help keep her safe and the First Sergeant Josh Walker as he try to put the past behind him were he blames himself for his friends (Donovan's Brother) died of a drug overdose and he first sergeant for the death of a girlfriend too. And yet he and Andrea are pulled together by all of what is happening to them both. They both knew that God has plans for all of us.

Pam says

Andrea Donovan became a counselor for soldiers who were addicted and has PTSD in an effort to atone for not seeing the addiction her brother had. She tries through her work to lessen the guilt she feels over his death. Josh Walker, Army first sergeant, feels his own guilt over Andrea's brother's death and is determined that Andrea will not be harmed as he tries to figure out why one of his men is involved with men who are now trying to kill Andrea. He and Andrea fight for their lives as they try to solve the mystery. The more involved in the mystery they become, the more involved with each other they become.

"TOP PICK! Bailey skillfully addresses the stigma associated with mental health services and the military. As a military wife, Bailey generates characters and a plot that are multi-layered and wonderfully unpredictable (RT Book Reviews)". 4 1/2 stars

The twist in this story made it an enjoyable book to read.

Sarah says

I thought the beginning and end were really good. The middle was a little slow but otherwise it's definitely a book worth buying. Enjoy reading!

John Hanscom says

3½ at the outside. This was a romance novel by recipe. What turned me off was the female protagonist, a combat veteran, was unable to care for herself and needed to be rescued until the very end of the book. Would she have shown that spunk earlier.
