Is a great book to read

◆ Maica ◆ says

This story did not depict a healthy relationship at all. From the beginning, there was a clear imbalance with their relationship. Kai treated Yuzuri as a thing to be owned rather than a partner. Yuzuru never stands up for herself and lets herself be mistreated by these boys. But Chihaya was the worst character for me. He was manipulative, abusive, and basically a rapist. Would I recommend this manga to anybody else? No. Definitely not.

But the real question is, who's the bigger piece of trash? This series or me who despite everything negative I've written about it, still continued to read this manga volume after volume.

Today I'll be covering my favourite smut manga. First of all this manga is for mature audience. Mostly all smut mangas are 18+, however, Minami Kanan draws everything with a lot of sensuality and hotness, leaving only bits to our imagination. And well, her stories are amazing, both with the plot and the drawing. To be honest, this manga is my favourite of all mangas by Minami Kanan. I think I have read it about 10 times by now. And every time I read it as if I'm just starting it.

But let's get back to the story. You may think that it is another boring story about a poor girl and a rich boy, however, that's not all there is. Our heroine – Yuzuru is a normal high school girl, who during summer-break worked at a hotel. Everything would have been great, if not some bad tempered customers. The worst part is that these customers are from Yuzuru's school, and from the elite class. Meet our Hero – Kai Renge, the biggest pervert and sadist ever. But nevertheless you just can't not fall in love with him. Even though in the beginning you just want to kill him very soon he will show his good sides. Well, the appearance of a villain also helps to acknowledge Kai as the good guy.

Yuzuru is something extraordinary. Well, she is just your dumb girl with a nice body and a good character. Why is she dumb? Come on, even when I was first reading I already sensed something fishy as soon as one character appears. I won't spoil the surprise for you. You have to read everything by yourself. On the other hand we have Kai, he was really an interesting character to read about. The character development is really amazing. Not only his character gets to grow up during the story as a person, but all of them and reading about it makes it more and more amazing. All twists and turns in their life make you more and more compelled to keep on reading.

Even though the story is not short, it is not that long too. To say the truth I would have loved to read a lot

more about my favourite characters. I loved how it ended, but a bit more would have been so, so good. I'm still hoping, for a short story about their future selves. It would have been a lot of fun to see them as parents. But well, guess, I'm not getting it.

I hope you will find sometime to read this superb manga, but keep in mind it's for mature readers, and you should get used to it a bit, but you'll definitely love it a lot. Don't hate Kai for his stubborn and shitty behavior in the beginning, you'll be soon drooling as soon as you see his face. Enjoy it to its fullest

C'est le genre de manga qu'on se sent coupable d'aimer. Je n'ai pas tant été dérangée par les scènes/vocabulaire osés (c'est le genre - on sait ce qu'on achète !) que par la minimisation de l'agression et du harcèlement sexuels. L'héroïne se remet bien trop vite (je ne dis pas qu'elle devrait être traumatisée toute sa vie, loin de là) et surtout pardonne bien trop vite. Passe encore avec le héros, même si leur relation est tout sauf saine, mais l'autre garçon ? Impensable !

Vous me direz, ce n'est qu'un manga... Plus encore, c'est un manga-fantasme pour les jeunes filles. Et moi je dis que c'est bien triste de voir à quel point même dans ce genre de fantasme la femme se trouve soumise.

Ce qui ne m'empêche pas, au final, d'apprécier ce manga, même avec tous ses problèmes. Mais il faut savoir voir ce qui ne va pas avec les choses qu'on aime bien.

The girl is hella stupid but (fortunately) not very annoying.

Tomo 8 de 8. Edición argentina que probablemente repite el ISBN de la española.

This manga is not bad, it's just... not my cup of tea. I am not a big fan of pervyness (actually I don't like it at all), but it's ok between the couples as we can see in this manga.

The story was quite original in its own way, but I just couldn't stand all the raping! I couldn't feel the love between the couples until almost at the end. I found Yuzuru's character quite annoying and I thought that Kai was a big jerk. But the guy that I really hate was the guy in the yukata (forgot his name). The ending was cute, but this manga wasn't the best work in my opinion and it's not the best manga I read. Kyou Koi Wo Hajimemasu is way better.

Also, can someone explain me how the hell could Yuzuru fall in love with a guy who is constantly sexually

harrassing her? I thought that he only wanted her for sex until the last chapters.

Over all this was a good smut filled manga. I loved every moment of them together. The problem was the fact the plot felt overly simple. Like I wanted more of a story. Anyway it is one of the better smut manga around.

Minami Kanan draws the HOTTEST guys!

She's one of my favorite mangakas!

Loved this manga including her Ren-ai Shijou Shugi series. Super enoyed the concept of the story.

Awal cerita aku suka. Gambarnya bagus, idenya bagus, dan jalan ceritanya juga terasa menyenangkan. Tapi lama-kelamaan entah kenapa aku jadi merasa bosan. Tidak tau juga kenapa. Mungkin karena ceritanya terus-terus aja tentang orang-orang yang berusaha membuat Yuzuru drop jadi honey-nya Kai. Atau mungkin juga krn alasan lain, entahlah. Yang pasti kebosananku membuatku melangkahi beberapa volume buku ini langsung hingga ke akhirnya. Dan tetap saja, rasa bosan itu sudah tidak tertolong lagi.

I love the whole thing. Very good.

This one was rather fast paced.

Brendy says

This is as far as I get in this series so this rating is 4 the whole series.

Such a good story, yeah! the guy possessive like crazy of her, she quite a good and naive soul, so = crash of

will and hot scenes.

The developing of the relationship goes through different scenarios, that add more drama to the whole thing... was a really lovely and goos story, and the chemistry with their friends and their honies so good. What happened with his fiancée, I mean what she did to him, and how he did whatever was in his power to stop himself from doing it.. OMG! I was so touched and prettym much sure I read that episode twice, because.. wow! no man would be able to endure that! at least as far as I've been reading?.... no! good story, great ending ! HEA!
