After experiencing a strange connection to a hot & hurting man, Kaylen soon discovers he has a twin. This is a sweet, steamy story about finding your future in the most unexpected ways.

In Deep. I enjoyed this book! It was exciting and thrilling. I couldn't put the book down. I anticipated what would come next. Evan and Ethan were true brothers that believe in each other . They had each other 's back. Kaylen had to decide which twin she wanted to be with. I voluntarily read a Review Copy of this book. All opinions stated are solely my own and no one else's.

Nope, not my book....

Pat says

The good storyline and well detailed characters captured my attention from the very first page and kept me totally hooked until the very last page was turned!

Fatmata Sankoh says

A good read but not for me. Was not into the twin rivalry bit.

Linda Levine says

Mistaken identity leads to an interesting situation. She is torn between feelings for two brothers who are not

interested in sharing.

I love MC romances when they have strong men that may be tough but are devoted to the people they love. Evan really wants Kaylen and is not happy to see his brother making moves on her. Poor Kaylen has a tough decision between these guys that may look alike but are very different in other ways. It is good romance with plenty of club action too to keep it interesting.

This is the first in the series and I am looking forward to seeing what is next.

I am voluntarily reviewing a copy I received.

Two men one lady great read.

I really enjoyed this Authors story telling. The theme was very well written. I really enjoyed the characters of the twins with identifying moles and totally opposite of each other.

Carolyn Spence says

I liked it. This is the second book in the series. They are more than a novella but shorter than a regular novel. There is enough detail for the story, but it was over before I wanted it to be. Evan meets Kaylen in the hospital as she is a nurse. They connect in the hospital and arrange a date. Evan cancels and Kaylen does not get the message, but she still meets him at the bar. BUT, it's not Evan, it's Ethan, his twin. It gets interesting from there, hot sex, family tension and MC rivalry. It was a great short story, I wish it was longer.

I received this advanced reader's copy in exchange for an honest review.

Like the story but it needs more.

Phyllis Lindblom says

This is a sweet love story with a little twist. You can feel the sparks between Evan and Kaylen from the first time they lay eyes on each other. Really like this story and can't wait to read the next book in the series.

Julia Handley says

This is a love triangle read, well more lust to be honest.

Evan and Ethan are twin brothers always competing against each other. They are also apart of the Los Bandits motorcycle gang.

Kaylen a nurse and doesn't have much confidence in herself after her ex took it all. But she is a kind hearted woman who will always help those in need.

She meets Evan and instantly drawn to him and his sad eyes. She meets Ethan mistaking him for Evan and that's when all the fun begins. They both want to date her and she likes them both.

I was a bit weary about this at first, but once I got into all the characters I got liked it. How Evan and Ethan are towards each other, they compete but if someone threatened them they unite. Evan is the thoughtful, meaningful brother but don't mistake that for soft. He is only when it comes to Kaylen. Ethan is the dark brooding, take what he can get kind of brother. At first I didn't really like him but he proved himself when he had to face the facts. I actually feel for both these brothers and want them both happy. And Kaylen? She finally has someone who appreciates her for her and makes sure she knows how amazing she is. I'm hoping to read more of the gang as they all seem fun and dark but so loyal to each other.

I voluntarily reviewed this book.

Rashida says

First book by this author and it was alright.

The storyline was interesting but it felt incomplete. It was a quick read and some scenes were choppy. Overall it wasn't bad and I do feel compelled to read the next book.

Expecting to read an mc book. What a disappointment. 100 pages MC story. And a whole lot of bonus books. The blurb was what interested me. I'm dissapointed
