Why do I feel so nervous? Eve Leyton questions herself as she's thrown back into the third year of university. Her best friends hate each other and her new house is something from a horror film!

Determined to make the most of it, Eve throws herself into university life head first, only to land with a bump when she discovers her friends and boyfriend aren't quite what they seem.

Sick of playing mediator, Eve falls into the path of university heartthrob, Freddie James (and his supermodel girlfriend!)

Inside Number 129 is a fun, romantic comedy about the trials and tribulations of university life and a fumbling how-not-to guide of adolescence!

First of all I want to disclose that I received this book for free through Goodreads First Reads.

I was pleasantly surprised when I got a free copy of "Inside Number 129" in my mailbox. Thank you so much! My first free book ever and so the next day I eagerly started reading it.

Basically a lovely story about college girl Eve Leyton, her friends and her love interest - present and future. I do not want to give away too much , so I will just say that I liked it just fine. It makes a very good summer read.

The novel is in a split narrative between Eve and her boyfriend Alex. I really liked this as I thought that it gave you a good, all round view of the story. I thought it would be really great if more character's narrated as well, I would have loved to read from Freddie and Lucy as well.

Inside Number 129 is a very easy read. It's written almost conversational and it just flows so well. It kind of reminds me of the grown up version of the Georgia Nicholson books. The story was really believable, like I could totally see that happening(although I hope it doesn't happen to me when I go to uni...) and all of the characters reminded me a little bit of people that I actually know in real life. I sometimes found that the dialogue between characters could be a bit awkward and seemed almost forced but not too often for it to really bug me. I found myself getting really angry at some characters and totally fancying one character in particular.... That's a sign of a good book!

In the end I really enjoyed reading Inside Number 129 and gave it a 4/5 star rating on GoodReads. I decided to give it 4/5 stars because whilst I enjoyed reading it and read it really quickly, it didn't blow me away. It's something that I would recommend to my friends though!

Was a good read, but was a little confusing about who was with whom.

I won "Inside Number 129" by Caroline Elvin on GoodReads recently. It is an easy read and once I began reading it, I quickly became caught up in the characters. This book is written so that we get "his" and "her" views of the major events in the story. We quickly learn that things aren't always what they seem. People, even those who are the closest to us, have secrets and don't always share everything about themselves. Some people go about life, doing things that they know they shouldn't, without really considering how their actions will affect others. I enjoyed finding out how everything turned out at the conclusion of the book, but I couldn't believe that I wouldn't find out more about the characters. Elvin made the characters seem so real! This book was a good read.
