I've enjoyed everything I've read by Lori Brighton so far and this book was no exception. Two short stories - one revolving around a meeting between two people who hadn't seen each other in years and the other about a poor relation forced to woo her cousin's betrothed or be turned out. I do enjoy a good naughty tryst in the shadows.

This book was a free Kindle download I picked up 01/23/12 for the Why Buy the Cow? reading challenge.

This was a pretty good book. I liked both stories and the characters. The last one definitely had a Cinderella feel to it. I enjoyed reading both of these stories and was pleasantly surprised since this was in my freebie horde. I laughed a little, teared up a little, held my breath, wanted to bash a few heads, and was happy with the HEAs. I wouldn't mind reading these again sometime. Good for the cuddle-snuggle kinda read and one-sitters. Enjoy!

They were short romance reads. Just what I was looking for. Everyone knows I loooove my romance, even if you know who's going to end up who, I don't care, it's the story of how they get there that I enjoy. :)

It was an okay book. It had parts that are made for adults and it was very sexual. It kind of ruined my mind even though it was recommended by a friend. I liked how it had 2 stories in it. I wouldn't recommend this book to younger audiences.

I thoroughly enjoyed this book comprised of two short and HOT Historical Romances. With exception of a

few grammatical errors the stories were well written and enjoyable. I look forward to seeing what else this author has to offer!

Quick synopsis: two quick spicy reads with four great characters.

First is Brendon and Clara. Clara has adored and longed for Brendon since she was 15. His younger sister's best friend but not quite on his radar. After the loss of his wife some ten years after there have last seen each other Clara is on a mission. She has sought him out in a rough area of town where he is playing out being a artist. She goes in as a model but he has no recollection of her. As she prepares to be his muse he notices bruises on her arm but doesn't want to get involved however he can't seem to stop. Clara just wants this done and get the money and run, she also hope Brendon will recognize her but he doesn't seem to. As things heat up and a dawning realization made Clara's life catches up to her...will things work out in time?

Second story: Cynthia is a poor relation dumped on her aunt's steps at 12 her aunt has no use for her till her daughter needs a doppelgänger for a ball..at this fateful ball Cynthia must pretend to be her cousin to keep her cousin's intended interested. Trick is she's in love with the intended Gabriel so feigning interest isn't hard. When he makes he convince him she wants him not knowing the dupe in play things get a little out of hand. He's satisfied with the match till he starts uncovering the deception...will Cynthia obtain Gabriel's forgiveness, could he ever want her?

Again, Lori Brighton excites and delights.

My review contains spoilers and they're mostly my thoughts as I went with the book...

*This rating is based on the two novellas by Lori Brighton, *The Art of Seduction* (3.25 stars) and *Meant for Me* (3.75 stars).*

“The Art of Seduction”

I've never read anything by Lori Brighton before so this free ebook was pretty enlightening for me. Her writing's good. This 1st short story of about 5 chapters and an epilogue held my interest. But it was just too short; the incident took place only on one night.

Clara has been in love with Brendon for the last 10 yrs. She was quite young back then and Brendon being 5 yrs older than her, it never really bloomed into anything. Now, it has passed the phase of a young girl's infatuation to something deeper. Brendon has seen his share of tragedies and now living a life of a recluse in some shabby, not-so-impressive area of London; in a house not-quite-the-abode for an Earl. Clara is in dire straits, her guardians (or parents, I wasn't sure) sold her to this Lord, an old lecher for money and now she's engaged to him. The guy tried to force himself on her but hasn't been successful. Clara has decided she

needed money to get away and the latest ad Brendon put in the newspaper might prove to be how she could acquire some. Sadly enough, I wasn't quite clear of Clara's background at all. Was she the daughter of an impoverished Lord or a commoner? But I got it that no one cared whatever might've happened to her so she'd planned to sail to America once she had the money.

Brandon was looking for a nude model for his latest statue (and portrait) commission. Since he'd put the ad on the paper, there'd been plenty of responses but no one could meet the standard for his muse. He wasn't really looking for a virgin, maybe a widow or someone a bit well groomed than the street side whores. But this girl, she's definitely the muse he'd envisioned and he knew from her approach that she's a virgin. He'd been without a woman for sometimes now and his body is definitely reacting to her nearness. It seems like she returns the attractions as well. I don't know what to talk about the tragedy of his life, as his wife runaway with her lover and then died in an accident. He definitely felt guilty of this, thinking he was somehow responsible for his wife's actions. I wasn't sure really, why would this scar him so deep emotionally but it did.

He doesn't recognize Clara until after this modeling session turned into something more intimate. She was willing and he couldn't deny it. Then there were some twists which were taken care of in the end, a bit over the top for one night IMO as the man Clara was engaged to makes trouble. Also, a revelation of how Clara's good friend and Brendon's sister Elizabeth helped them come together after such a long time comes into light. It was a good story, interesting. I think I would've enjoyed it more if it was a full-length novel. 3.25 star.

"Meant for Me"

Now this one I liked overall. "Meant for Me" was about a bit of deception here and a twist of mistaken identity there but worked out nicely. This short story, which has 4 chapters and an epilogue, could've been a great full-length novel IMO. It did leave me wanting for more.

Cynthia's life read like the Cinderella story. After her mother died, she came to live with her aunt and her family. She didn't really come on her own accord, she had no other choice; a 7/8 yrs old girl who had no one and nowhere else to go so, the family solicitor kinda dumped her on her aunt's doorstep and left. Cynthia's Irish father never married her mom (not sure what happened to the doomed couple) and so her aunt can't stand the sight of her. Cynthia has been more of a servant in the house than a member of the family. The Auntie is one evil, evil woman and so was her only daughter, Helen. Helen is spoiled and selfish, with a venomous mouth. Even though she's beautiful and resembles Cynthia quite closely, she's considered as 'the beautiful' one while Cynthia 'isn't much to look at'. This is according to the Auntie of course.

Helen has been engaged to Gabriel, Lord Kennwick from childhood. Gabriel so far has been touring the world as he didn't like his fiancée. But two years ago, after his father died, Gabriel decided it's time to settle down and so, he initiated a communication with Helen through letters. His earlier, even though vague, memory of Helen has been pretty bad. She was spoiled even as a child, so when her letters came back as beautifully written and gave the impression of a thoughtful young woman, Gabriel was overjoyed. He always sought for a good, happy marriage. Maybe Helen has changed and it would be possible to have one with her. He's written to her every week from then on and she replied back with just as much enthusiasm. He bared his soul to her, and so has she. This did remind me of Lissa Kleypas's Love in the Afternoon a bit, which I loved loved loved! So I found this story interesting as well. I wish a few letters were included in it though.

Now Gabriel is back in London but whatever he's heard about Helen hasn't been impressive so far. She's an

inveterate flirt and might not be a virgin, according to the rumors. I wasn't sure why he didn't go to her house and confront these rumors if he was so interested in her. On the other hand, the eeeevil Auntie has forced Cynthia to pose as Helen in a masked ball because Helen wasn't feeling well and rumor has it that Lord Kennwick has been losing interest in her. Cynthia can't, just can't face Gabriel. Yes, she calls him by his name, though only to herself. And, she has every right because she was the one who wrote those letters in Helen's stead. Helen the b*tch never really cared for Gabriel and never will even if they marry. Cynthia is completely in love with Gabriel, even though she knows there is no future for her with him. In that mask ball, things change drastically for both Cynthia and Gabriel. When he asks her to meet in a secluded place, Cynthia can't help but oblige. And they end up making love in the dark.

I won't say anymore but I liked the final twists quite a lot. These two did belong to each-other. 3.75 stars, I would've definitely given it a 4+ star if it was a novel. Looking forward to read more Lori Brighton books in the future.

Nadine says

Two beautiful historical love stories, that leaves you completely happy and pleased that things worked out in the love department, even for the poor sad girls of the 1800s, who did not stand a chance as a woman on her own. They need the earl or baron in shining armor coming to their rescue and girls lets face it, even today we still want our men to be as galant and gracious as the men of these type of stories.

I will definitely look for more books by Lori Brighton, as her writing is effortless to read and I close the book with a happy smile on your face!

McKayla says

Two short stories that didn't feel very short. The first finds Clara running from something while running to someone from her past. She knows him, knows him very well but does he remember her? I fell in love with Lori Brighton's style of writing from this first story and eagerly looked up her other books. The second story finds Cynthia portraying her cousin with the man that she herself loves. Both stories are around 100 pages each, but despite their small size I could not put them down. Let's just say that while I should have been working I was reading!

Astrid Miles says

This book contains two short historical romance stories. They have a cute aspect of the characters falling in love over letters. Both tales are interesting and fun to read. Although I do wish that they were a little longer. At times it felt rushed and I wish that it had not been. The editing was well done. This is currently priced at \$1.99 on Amazon, and free to read with Kindle Unlimited. Personally, I would say it is worth the price.

Blodeuedd Finland says

I am not the best at reviewing novellas, you can't say too much and you must say something.

The Art of Seduction is the first story and it's about that first love you had but that never came to be. Clara was always in love with Brendon but he was older and never noticed her. And now she is on the run and she wants to see him again.

I liked Clara, she was innocent, but she still wanted something. Brendon was a bit broken and needed to be healed. And since this is a short story everything happens fast and it works. They meet and at the end they have their HEA. Since this is a historical romance after all.

Meant For Me was my favourite out of these two. It's about Cynthia who is mistreated by her aunt. They do not really care about her and she is the grey wallflower. But in fact she is full of life and she doesn't want her cousin to marry Lord Kennwick. She knows him, he knows her..but not really since he thinks he has been writing her cousin. Of course at one point I did think he should have thought if it sooner but hey we need some drama in this short story. It was a cute Cinderella story and just like story number 1 it had passion too.
