Love Me Kristin Mayer

Engaged and happily in love, Allison Scott and Damien Wales are looking forward to joining their lives together as one. Coming from a mournful year after losing her parents, Allison is ready to heal and move on to the next chapter with the love of her life.

But Damien's past continues to threaten their future. A man once obsessed with Damien's sister is now after his one and only love, Allison. The woman who came before Allison is determined to captivate Damien's heart. And Damien's best friend is somehow playing a part in it all.

One is a murderer, and Damien and Allison discover they can trust no one but each other. When Damien's history endangers Allison's life, their relationship is pushed to its limits, and they must determine if their love can overcome any obstacle or if circumstances will force them apart.

Love Me is the second book in the Trust Series.

Kendall {Book Crazy} says

I adored the first book in this series, so when the author asked me if I would like to beta read the second book, then I almost died! I was 100% honest in my review for Trust Me and said that I had a few minor problems with it, but Love Me was just a rollercoaster! I loved that the author actually took on board what I said and sorted the problem in this book as well! I said that words weren't abbreviated and that is my pet hate with a book! I find it distracting, but in this book most of it was abbreviated, which made me really happy! The plot of this book continued on from where Trust Me left off from! It was sexy, it was mysterious, it had a perfect ending! I loved the plot as it continued on Allison and Damien's relationship and it showed how far they had come as a couple and as individuals! The mystery aspect also comes to a close in this book and it was kind of who I was expecting it to be! I had my suspicions about this person, but I'm definitely not going to tell you much more than that, so that I don't spoil it! I loved the end scene though as it was so climatic and it was the scene that I had been waiting for! The characters were again amazing! I connected with them even more in this book! Allison was again the main female character and I have to say that I loved her even more in this book! She reacted the exact same way as I would have if I was placed in the same situation as her! I thought she handled it all brilliantly though! I loved how far she had come from the loss of her parents as well and I think that Damien was the main factor in that! Allison went through quite a lot at the end of this book, but she was able to bounce back from it a stronger person! Damien was again the main male character and I was actually going to say that I would have liked some of this book to have been written from Damien's point of view because he was such an intriguing character and a lot of the plot is focused on his past, so it would have been interesting to have been able to go inside his head, but then the author actually put extra scenes at the end from his point of view, which was seriously amazing! Again, he was still fiercely protective of Allison and was immensely hot in this book! I kinda preferred him in this book if I'm honest! I loved the little things he did for Allison and how he would give her the world if he could! The secondary characters also added so much to the story and I loved all of them! I will without a doubt be reading the next book in this series! I know that it's not going to be about Allison and Damien and instead it's going to be about another important character in this book, Sam, but I have been told from the author that Allison and Damien are going to be in the book a lot, which makes me really happy! Especially after what's revealed at the end of this book! I'm excited to find out what's going to happen in Sam's book! I read this book when it didn't have a cover, but the author gave me a general idea of what the cover was going to look like! I can say that the cover is... Big thank you to Kristin for asking me to beta-read Love Me and to Book Plug Promotions for having me on the Blog Tour!

Rose says

This was book 2 to the duet from Trust Me

It was a very sweet read even with all the suspense

I would say the only thing that was missing from these books from the start of their relationship was the "chase". Damien set his sights on Alli and that was it.

Megan Ailey says

You know how second books are generally never as good as the first book? Well.....This one was NOTHING like that...it was every bit as good as the first book!

It held my attention...it was ABSOLUTLEY GREAT!

Alli and Damien held their love together through some wicked drama, and scary s**t!

The hot lovin in this book had sparks flying off the pages!

What I really enjoyed about this book was the commitment between these two, Alli and Damien truly loved one another and were dedicated to working through everthing that was put into their path.

I like to think that I can figure out the "who done its" and the "what's going ons" in books but I generally was surprised by who the super bad guy was in this book. I was picturing somebody else entirely. My only complaint is the person I was thinking it was...there was never any explanation as to what happened to him or WHY he was such a turd...oh i mean jerk! I would have really liked to seen him get a beat down. I hated him with a passion!

Now it is time to decide if I am going to read book 3...it is about Sam...not my wonderful Alli and Damien. I am wondering what Sam's issue/hurt is so I am sure I will read it. But as for this book..LOVE ME wonderful read...give it a try you will not be disappointed.

Sarah says

I was really looking forward to reading this book but then it started just live the first book with all the detailed sex scenes and really not focusing on the plot. I didn't read all this book because I was put off.

Tori Ward says

This is such a good "ending" to Damien and Alli's story. Its not really an end because there is a third book but its from Sam's perspective. I love that they are going to have a child together and I can't wait to see in the next book!

Brandie says

Audiobook version:

This is actually a re-read for me. It was that good! I loved the mix of romance, steam and mystery that Kristin gave us. The characters were great, the pace was perfect. A must read!

Fiona Wilson says

Following on from the end of book 1, Trust Me, this book continues the story of Allison and Damien.

If I'm honest, due to the mystery in this sequel, I enjoyed it a lot more than book 1. The love story is still there, and it is a huge part of this book, but the mystery is what really made it for me.

There is a lot of intrigue in this book. A lot of lies have been told and it is only by deciphering the clues given to them that Allison and Damien can succeed in working it all out.

The way that side of the story is written is really good. I love a book which has me thinking, and trying to work out who the culprit is. This one kept me guessing all the way to the reveal.

The character development continues to be good. The relationship between Allison and Damien is lovely to read. Also the friendships they share with those around them are done well too.

My only niggle is that when it is all worked out we don't see a lot of what happens immediately after that. It is almost just one scene which to me seemed just a little too quickly dealt with.

The book ends with a look at book 3, which will be Sam's story, and I honestly can't wait to read it. As a series I have enjoyed reading it so far and look forward to the final part.

TC says

I thoroughly enjoyed this book, it was a really good follow on from Trust Me. The book picks up where Trust Me ended. With Alli and Damien in love and engaged. Even though they both want to just move on with their lives, there is always something in the way or someone that comes out of the woodwork and causes up a stir in their lives.

What I loved about this book was the aspect of mystery and torment throughout with the 'mystery man' who kept cropping up. Just when you thought you had the person who it was pegged, BAM, something else happened and you again, began to question who the suspect was. The relationship between Alli and Damien continued to grow and strengthen and I loved the scenes both sexy and intimate between them as it showcased the many sides of their relationship. The love between them really shined through.

This is a wonderful romance book with the added mystery and suspense that keeps you engaged, on the edge of your seat and forever guessing. Damien will do anything to protect Alli and find out who hurt his sister and you're constantly thinking, 'will they be able to find him and save her?' This was a book about learning who to trust and to keep those you love around you. I cannot wait for the next installment.

Krystyn says

So many questions answered!

The first book left me in a bit of a rage with not knowing who the killer was. I actually spent some time trying to bribe a fellow book lover who had previously read the series to tell me who it was. After many, many attempts, she would not tell me and I gave up. In the end I am so happy she was stubborn and would not cave. It made the mystery all the better! Kristin Mayer does mystery well! I thought I had it all figured out and then there was the reveal and it knocked the wind out of me! The mystery wasn't everything for this book, the love between the happy couple is still in the forefront. Everyone needs to go read this story ASAP!!!

I listened to the audio version and Shirl did another outstanding job with the narration!

Secka says

I thought it was okay. It kept me busy when I had nothing else to read. It reminded me way too much weaker version of Fifty Shades of Grey. there wasn't enough action for me. I prefer suspense thrillers this did not deliver. I tried her other books trust me and promise me and it was the same thing, literally. dreamy boy trying to convince insecure girl that no one else in life will ever make sex exciting except them. there's no real substance to any of her characters and in all three books it was weak drama trying to come in between the perfect couple.

Crystal Gray says

3.5 Stars

I liked this one, other than the fact they act like horny teenagers LOL I found myself skimming. There could have been more suspense but we finally find out who was behind it all. The epilogue was different, where it gets us ready for the next book it didn't tell us what happens with the two main characters. I can only assume the next book is Sam's.

Tina says

Wow loved this series, I enjoyed the romance, suspense, twists and turns. It was great to see all the pieces come together. Damian and Alli finally get their HEA, but will Sam? That's for us to find out in book 3. Highly recommend, great story, plot, writing, characters, lots of sex, highly romantic.

Philomena Callan Cheekypee says

Read Trust Me before you read this book as this continues straight on from book one.

This is a bloody brilliant book. I loved book one but this one is off the scales. My heart was seriously in my stomach through most of this book. This was one of them books I wanted to read but didn't as I was so afraid something would happen to destroy Allison and Damien's happiness. I love these two characters so I felt that anything that was hurting them in this book was hurting me. Yes the author had such a great way with her words I felt for these two characters.

The love these two had for one another was true raw love. The chemistry between them was fantastic. The sex in this book was so so hot.

I loved Sam in this book and I'm so looking forward to reading more about her when she gets her own book.

Loved that the author gave us extra scenes from Damien's point of view at the end of this book.

Really hope the author is busy writing as I need more soon.

Received in return for an honest review.

Allie says

Great read. Suspenseful, but my only issue is..... the epilogue sucked. It wasn't even about the 2 main characters. I think after everything these 2 went through it would of been nice to see how their lives turned out a few years later.

Jen ♡ says

I really enjoyed Trust Me and this book as a great story featuring a jealous, possessive hero. While a few things annoyed me (all the "processing" and Sam), I did like Damien and Alli together. A lot. They talked things through and were open about their feelings with each other which made me believe in their love. I also thought the mystery was well done and liked how everything was resolved in the second book. These two books can be read as a duology with a HEA, although we don't get an epilogue in the future as you're supposed to read book 3 for that. I'm passing on that one as I have absolutely no interest in Sam or her story, and I'm completely satisfied with the ending of Love Me.
