## **From Reader Review Meet Me for online ebook**

### **Charity Parkerson says**

Tasha has been married for over 20 years and is the mother of eight children. Her husband is a preacher and has been unfaithful, not to mention, he is really a jerk. She is bitter, unhappy, and trapped since she is certain that no one will ever want her again until she meets a man on Facebook. Tasha never considered cheating before, but Morgan is everything she has ever fantasized about and he wants Tasha, kids, and all. About half-way through this book you get your first clue that the sexy Morgan is hiding something, and you will drive yourself crazy trying to figure out what it is. I read this book in one sitting because I just had to know! Tasha is so real and women will truly be able to relate to her feelings of insecurity after so many years with the same man. I couldn't believe how this one ended. It left me amazed.

---

### **Lynsey says**

I'm very sorry to say that I didn't like this.

I did enjoy the sex-chat-room style and thought it was different and very clever, but the characters were not fully formed enough for me to feel that all important connection to them.

The sex scenes nearly hot, but without that crucial connection, I didn't really \*feel\* the passion. I wasn't really drawn into the story and quite quickly lost interest.

There were a couple of editing errors along the way. At one point when the girls are chatting online, one of them refers to 'John' when it clearly should have been 'Morgan'. Other than that there were just a couple of minor errors dotted about.

Lots of things in this story struck me as very extreme, which probably didn't help to hold my interest. There were not just 2 or 3 children, there were 8; Each sex scene was orgasm after orgasm after orgasm, with barely a breath in between; The main character is either ignoring the husband or yelling at him and throwing things; The husband was just repulsive to her in public...and so on. All of these extremes were too distracting and a waste of word count.

To be really honest the ending just made me mad. It was too ridiculous therefore not very believable.

### **Becca says**

2.5 Stars. I wanted so bad to like this book, but the end totally ruined it for me :(

---

### **Janet Juengling-Snell says**

What deliciously, hot and sexy short story!!! I totally loved it!!

I know there have been a bunch of reviews about the twist at the end of the book and about how unrealistic they are, but I'm here to remind everyone... We read to fulfill our fantasies...we don't read about real life. We have Reality T.V for that!

And "Meet Me" By Azure Boone is the perfect example. Un-happy, unfilled mother and wife for 20 years turns to on-line friends to meet her needs. This is where she meets the man of her dreams that fills all her needs, both emotional and physically. He Sweeps her off her feet. \*swooning here\*

Hasn't that been a fantasy of most women, isn't that why we read romance novels? So what is not to love about this book, plus we have lots of hot, sweaty sex.

As for that blasted twist at the end...I personally feel it just added to the fantasy.

Well Done Azure Boone, Well Done!

### **Laurie Garrison says**

I found this novella as a freebie on amazon. It sounded different and hot so I decided to jump right in and read it. Low and behold I found it different alright. I'm not one that likes reading about cheaters and this one starts off with one spouse doing just that, but low and behold as you read on you'll find things are not as they seem. I myself really enjoyed reading Trisha's story because as a mister's wife I know how neglect feels. I think we all go through the feeling of neglect now days, life is just too busy and we all sometime forget that we each have needs. I just wished the author would have told the husband's side in the story, I really felt like it would have brought the story into a deeper level.

Before the end you'll find a huge twist to the story. I really liked it even if it was kind of over the top and maybe, some might even find the twist hard to believe. I know this is fiction and I have to say as for me I that's how I would have wanted it to end.

Trisha is a loving mother to 8 kids. She finds out her preacher husband is cheating on her. She finds refuge online chatting with her girlfriends and a hunk named Morgan. One day Morgan types the two forbidden words "Meet Me." Will Trisha do it and if she does what will happen to her life as she knows it?

Unique ideas and some potential.

Description:

Tasha feels safe in her online affair. Plus she's broken no hard moral rules. But that all changes when her

cyber lover types those two forbidden words: Meet Me.

Disclaimer:

I never will give a short story a 5/5 rating as I feel you can't possibly have a well rounded story with any depth in less than 150 pages.

My thoughts:

I thought Azure Boone had some pretty unique ideas. Her chat room dialogue was good and the twist at the end was fabulous. However, the writing style needs to be smoother and more complete. There were characters in places where I couldn't figure out the purpose for instance Sheri in the hotel room next door...who would travel that distance to just be alone and the couple John had over from the trailer park. Not sure they were necessary. I know what AB was trying to illustrate with the couple that John introduced but I don't think it came across completely.

Over all a good attempt but work and beta readers required. 2 stars for creativity and to encourage Azure Boone to keep writing..the potential is definitely there.

## **Delta says**

[The ending of *Meet Me* was so ridiculous and such an illogical turn-around that I was stunned! *Did I miss something? Is this a comedy? Noooo, it's not that funny. Is it still a romance? It's too creepy at this point to buy the thought of romance.* The writer must think we are drooling idiots to find it credible that Morgan was really John and that Tasha had no idea. She should have immediately recognized John by scent

---

## **Angus says**

A short story erotica about a woman-wife-mother of eight who is sick of her husband who she suspects of cheating. When she is not direct the household of children in their daily chores she is on the computer working on her writing, participating in her social media circles or sexting her new interest. Everything is okay until one day the new interest wants her to agree to meet him in real life.

I found this read entertaining and well paced though there are perhaps some few edits that could still be made. That will likely be the case in most works these days. I'm giving this four stars mainly because I believe it to be overpriced.

### **Ange says**

Meet Me was a fantastically good read!! Relatable in so many mundane ways, scorchingly hot with forbidden hook ups and a curve ball at the end that came out of nowhere which blew me away!! I know I sound quite dramatic but it really was a fun, sexy and exciting read!

I think alot of housewives could relate to this story in some little way, whether it be meeting friends on the web, devoting and living your life for your family, getting annoyed at your partner's routines or mannerisms...

The story was exciting, funny, sexy and surprising. I felt nervous when Tasha, the main character, felt nervous, elated when she was, trepidacious when she did... The author really made you feel like you were living through Tasha. Her facebook conversations with her girlfriends were hilarious too. Like I said... relatable!

I truly loved this book and I've downloaded a whole heap more of Azure Boone's books to devour!

### **Denise says**

Meet Me is an erotic novella that really went for the uninhibited. I love the story of a mother whose life revolves around her children and her not-so-deserving husband. Tasha had found a release through a man whom she didn't truly know. She built her inner strength through the sexual encounters with Morgan. This story can be perceived as a true love story. Her husband truly loves her, yet, he didn't have the knowledge to show it. Tasha felt obligated to her husband until meeting the one whom she thought was the man of her dreams and desires. I loved this story. I definitely recommend it. Once again, Azure Boone has delivered a hot steamy erotic story that opens one's mind.

---

### **Holly says**

1 1/2 stars

Despite the messy writing style, I started off enjoying this novella. Unfortunately the silly and absolutely ridiculous ending ruined it.

---

### **Cam says**

I did not really expect how this ended. That was a different kind of twist but in a way it was also hard for me to believe that she didn't realize. And who is the best friend?? Still entertaining read though.

---

### **Amee says**

I REALLLLLLLLY enjoyed this story!!!! When I first sat down and began to read it I kept thinking to myself that I wasn't sure if this was my thing and I didn't know if I would enjoy it. Boy was I wrong!!! As the story progressed and everything came to light in the end I was like OMG OMG OMG OMG this is sooooo good! I think as a wife and stay at home mother I could totally put myself in Tasha's shoes and see things from her perspective. The ending of this book makes the entire story and you defiantly do not see it coming! I would most certainly recommend Meet Me, it is a good read!!!

---

### **Amanda says**

I honestly don't see why this story got so many 1 stars. The book was very well written and the ending was GREAT! Although a little out there but seriously great.

I highly recommend reading not only this book but the others this author has written. So far all the ones I have read have been amazing.

### **Nikki ? Navareus says**

Got this book as a freebie. Lately the freebies I have picked up have pretty much sucked. This one was the exception. I really loved the writing style of Ms. Boone. The story was very good, and the sex was super hot IMO. I'm giving this a 3 1/2, would have been a solid 4 for me if I could have believed the ending more. I liked that the ending surprised me though. I'm definitely going to check out more of Azure Boone's books.
