Seven Day Fiancé Rachel Harris

One bad boy. One good girl. One unforgettable week.

Angelle Prejean is in a pickle. Her family is expecting her to come home with a fiancé—a fiancé who doesn't exist. Well, he exists, but he definitely has no idea Angelle told her mama they were engaged. Tattooed, muscled, and hotter than sin, Cane can reduce Angelle to a hot mess with one look—and leave her heart a mess if she falls for him. But when she ends up winning him at a charity bachelor auction, she knows just how to solve her fiancé problem.

Cane Robicheaux is no one's prince. He doesn't do relationships and he doesn't fall in love. When sweet, sultry-voiced Angelle propositions him, he hopes their little fiancé game can finally get her out of his head. He doesn't expect her to break through all his barriers. But even as Angelle burrows deeper into his heart, he knows once their seven days are up, so is their ruse.

Review from Way Too Hot Books

Easiest way to describe Seven Day Fiance? Your best friend's hot brother fantasy. Was it good? So, so good!!!

Cowboys and Kisses. Okay, this is not a cowboy swept me off my feet love story, but there are all of the recognizable elements of good and sweet Southern romance setting. I have a weak spot for American South, if you didn't notice. First, you can read this book like standalone, I did - you won't miss anything because Seven Day Fiance talks about other characters, it's not standard sequel. This would be a perfect movie - I could see it in my head while I was reading.

One of my friends accused me of being kinky, but actually romantic - well, I am. I love good romance no matter how sappy or cliche it sounds to other people. There is just something satisfying in reading about love and pink colored world. I like that fluffy feeling and silly smile they put on my face. Angelle and Cane made me smile like Cheshire cat.

Why I loved characters? Cane is hot, tattooed player who falls for that clumsy girl that won't spare him a time of the day. Angelle is loyal and doesn't want to be just another scratch on bad boy's bedpost. But somehow they figure out that there is so much more about that other person and suddenly their little charade isn't game anymore. I loved their appreciation of family values - I'm sick of novels talking about that whole "my friends are my family, because my real family sucks" rant. It was nice to read different angle for a change. Don't let me even start about chemistry these two have. I thought that my Kindle would be set on fire few times. And that scene in the barn... Swoon to the moon and back.

Who should read this book? Everyone who wants something that will bring a little bit of sunshine in their life. All of you who are secretly romantic but just don't want to admit that to anyone. Still not convinced? How about little teaser then?

"Cane tore himself away from her sweet lips to slide his tongue along the column of her neck. A gasp escaped Angelle's mouth. She was so responsive. She made him feel like everything was new for her, like he was the first man to make her feel like this. Pride and satisfaction coursed through his veins. He bit and then licked the underside of her jaw, and a deep moan broke free from her throat. And that released the hellcat.

Suddenly slapping his hands out of the way, Angelle knotted her fingers in his hair. Cane chuckled as she tugged roughly on the ends, impatiently yanking him closer and herself higher. Placing his hands around her slim waist, he slid across the seat and tugged her onto his lap. She settled a leg on either side of his hips and they shared a hiss."

You like it? Then go, find the book and read. We will love to hear if you enjoyed it and why.

REVIEW:

The story:

After leaving her small hometown and her not-quite-right fiancé behind, Angelle is looking to find herself. However when Angelle finds herself in a bit of a sticky situation when trying to convince her parents that she's happy, by telling them she's engaged to a new man. Uh-oh, Angelle needs to find a fake fiancé and fast! And it just so happens that she's won a date with sexy as sin Cane Robichaux at a charity auction.

After convincing him to play the role of fake fiancé they travel to her hometown in the heart of Cajun country to meet the family. It was really fun watching them try to convince the town they are indeed a happy couple. There are some particularly funny scenes as Cane struggles with some of the local customs!

For Angelle & Cane the lines between lies and reality soon become very blurred indeed. Angelle and Cane have such strong chemistry and the sexual tension sizzles away as they try to ignore their true feelings.

The characters:

Cane Robichaux is not the settling down type of guy. He's smouldering looks and cocky attitude make him very popular with the ladies. But his father's past indiscretions has made him very cynical when it comes to love and he doesn't believe he's capable of making that sort of commitment, convinced that he'll make the same mistakes. But it's clear to almost everyone else (except Angelle of course) that he's already falling for Angelle. Yes he does make mistakes, but he always makes up for them - some of the things he does for her melted my damn heart!

Angelle is such an awesome character and I absolutely adored her. She shy, awkward, and around Cane she basically becomes a hot mess - which created some hilarious scenes! Now I know a lot of people have issues with virgin characters, especially when they're older like Angelle is at 26. However I felt Rachel handled the storyline really well and that Angelle's reasoning was really well written & very believable. It's not about marriage or religion, for Angelle it was about finding the right man and feeling the moment was right.

"Look, at first I waited because I wanted to be in love. Then, even when I believed I was, it still never felt right."

"This isn't a religious thing or some random pledge I took. It just never felt right."

There is also an amazing array of quirky supporting characters that make this story complete. They may have a few strange customs in her hometown of Bon Terre, but it's clear that they love Angelle and just want what's best for her. I also have to make mention of Brady, Angelle ex fiancé. I thought that I would naturally hate him, but I actually really liked him, and felt a little sorry for him. He's sweet and kind and I would really love to see a story for him to have his own HEA.

The romance:

Angelle and Cane are so damn hot together it hurts! Cane is the complete opposite of her old fiancé and her family and friends think he's all wrong for her - with his tattooed muscly arms and biker boots! But there is another slightly nerdy side to Cane, that was so adorable! Their personalities complement each other perfectly. I love how Cane brings out the 'hellcat' in Angelle, and she brings out the softer romantic side to

Cane. Together they are the perfect couple!

The Writing:

I think one of my favourite things about Rachel's writing is her sense of humour. Every time I read one of her books I end up just sitting there grinning at my iPad, with sudden bursts of laughter - you know the loud embarrassing kind that make people turn and look at you like you're crazy. But I don't care because her books are so worth the strange looks I get! :)

FINAL WORD:

This is such a sweet and romantic story that sparkles with Rachel's signature humour. With a colourful cast of characters and a unique setting this book was fabulous and I can't wait to read more from this series!

2.5 - "You can proposition me anytime, angel." Stars!

The synopsis for Seven Day Fiancé ticks all of my 'Wanna-Read' boxes; unfortunately the reading didn't quite match my expectations. I am kind of surprised actually as I really enjoyed book one in the Love & Games Series – Taste the Heat. Rachel Harris has really got skill in providing an enjoyable love story, without the steam and sex that you get in some of the other Entangled Categories.

Lack of sextimes aside (as I know to expect this with a Bliss title), I really struggled to find any connection between Angie and Cane. I don't know maybe it's just me, but when you are told that a guy **'doesn't do relationships and he doesn't fall in love'** you expect a little more resistance to some of the things Cane ended up doing without a whimper of complaint.

Cane was a duality of light and dark, tough and sweet, bad boy and protector.

The massive amount of aunts, uncles, parents, grandparents, siblings and other people in the story got a little confusing at times too and everything just seemed to be sugar-coated and overdosed in sweetness, at points I had concerns I would go into a diabetic coma from it.

The storyline and the characters are sound, but I personally just found it all a little too busy, and over-the-top nice, even for a Bliss title.

I don't read many YA, but I thought this was a **cute**book

I liked the storyline and the title speaks for itself. Cane isn't a relationship guy but he agrees to be Angelle's fake fiancé during the thanksgiving holidays to bring home to her parents.

You're cousin must've been too busy staring at this sexy mug of mine to notice my eating habits

As you can probably guess, it was predictable. Being the first book I read from this author, I really liked her writing style.

There was a few parts of the story I wasn't so sure with. For example, I got **mad** with Cane one at point '*what was he thinking?*' Another thing was Angelle's previous physical relationship with her ex was **possible**, but still a little unbelievable.

Overall: **light, enjoyable** YA romance x

Seven Day Fiance was a lot more than I had been expecting. Not that I was expecting it to be bad, I figured it was just going to be similar to other stories I've read of its kind. However, much to my delight, it was much better than I had been hoping for. The story had me captivated from the first chapter and smiling and laughing out loud all the way to the end. This was easily my favorite contemporary romance book of the year.

Angelle Prejean is a fun, quirky, but shy woman who is determined to break out of her shell. After spending her whole life trying to please others, she is ready to focus on herself for a change. The trouble is, in order to do that she must show her overbearing, overprotective, but incredibly loving family that she can be okay out in the big bad world, and in order to do that she needs for them to meet...you guessed it, her incredibly wonderful, ruggedly handsome fiance...who doesn't exist. No problem, right? Enter Cane Robicheaux. Seemingly your typical bad boy, he has a soft side for his wonderfully fabulous sisters and, it seems, Angelle. Shh...don't tell.

What made this story so fabulous was the characters. From Angelle's lively antics to Cane's incredible sexiness to the Robicheaux girls' shameless matchmaking, each one brought a unique personality to the story. The banter was sweet, sexy, and fun, and the chemistry between Angele and Cane was...intense. There is no other word for it.

I fell in love with the author's easy writing style and loved how she was able to throw in so much of the southern culture and charisma into the story. While I had not read book one in this series before I read this one, I had absolutely no trouble following along without feeling like I was missing part of the story. However, after looking it up and realizing book one was the story of Colby and Jason, I had to purchase it and am planning on reading it next. I am very much hoping book three will be Sherry's book.

I received a free copy of this book in exchange for an honest review.

Meredith says

When I read Taste the Heat (Love and Games #1) by Rachel Harris, I knew right away I was hooked – by her writing, her characters and her sexy, swoon-worthy men. Jason was an incredible character and I fell in love with him so hard and so fast, my head spun. Cane was just a secondary character in that book, as Colby's older brother. We saw some of his personality and swoon-worthyness (yes, that is a word.. I just made it a word!), but we didn't see a whole lot of him. In Seven Day Fiance, that all changes.

Angelle was a great character to read. She really grows and evolves as a person throughout the book and that growth is very obvious. She starts out timid and humble and, by the end, becomes a woman who can say no and ask for space. She stops trying to please everyone else in her life – her family, her friends, her ex and even Cane – and she starts focusing on herself, who she is and who she wants to be. She's a strong character from the beginning, but she becomes even stronger by the end and she doesn't realize how strong she is until the end.

Cane is just... I can't.. *Fans self.* Cane is yummy! Cane is hot. Cane is MINE! But besides that, he's an incredible, incredible person. No offense to Jason, but I'm totally Team Cane now! There is so much depth to him, and we don't realize that in Taste the Heat because we only see so much of him. But in Seven Day Fiance, his personality and fears are front and center for us to see. It's difficult to watch Cane go through everything he does in this book, because you can tell how painful it is for him and how conflicted he is. He's the resident playboy, the tattoo-covered, leather-wearing bad boy who doesn't believe in relationships – until Angelle comes into his life. And even then, he's conflicted, confused and unsure. He's haunted by his past – a past we learned about in Taste the Heat, but that we truly begin to understand in Seven Day Fiance.

This book made me laugh, cry and swoon. There were a few moments where I was ready to sob, where my

heart broke and where I begged Cane and/or Angelle to NOT do what they were doing. But the end was INCREDIBLY sweet and amazing and wonderful and the epilogue made me giddy and excited!

There's going to be a third book in this series, and I'm DYING to know which hunky guy and girl-next-door are going to be front and center in that one! (Fingers crossed for Sherry!)

All in all, I absolutely loved this book. I love everything Rachel Harris does and I highly recommend everything she does. So get reading!

Seven Day Fiance is enjoyable read. It's warm, sweet and cute romance story. From time to time, I adore reading heart melting novels, that make me swoon and grin all the time. Rachel Harris accomplished this, despite few minor issues I had with her novel.

This story is about Angelle a young woman that is supposed to have Fiance. Every family member thinks she's already planning her wedding, while the truth is, she doesn't even have a boyfriend. Her lies are slowly changing into catastrophe that is only waiting to happen.

Angelle's problem is accidentally fixed, when she ends up winning, sexy, muscled bad boy on bachelor's auction. Now, she only has to coax him into pretending to be her future husband for seven days.

Cane Robicheaux isn't a good relationship material. He's the love'em and leave'em kind of guy, but something in innocent Angelle, makes him agree into this little charade.

Poor Cane, didn't realize that playing a fiance is like playing with fire, and seven days with a beautiful woman, can break his rules.

This story is really simple, nothing out of this world or explosive, yet I enjoyed it. Rachel Harris showed me well written story, that could easily be changed into Hollywood movie, that couples would watch on Valentine's Day.

Well, the sweetest of it, somewhere along started to irritate me. I started to feel intoxicated by it, and quickly had enough of swooning. I was like five year old on Halloween, eating too much chocolate, having sugar high and then... everything went downhill. Low, low, low... because sometimes enough is enough.

Overall, Seven Day Fiance is lovely, sexy and charming read. I recommend it for fans of swooning romance

stories, that can be read in one sitting. I missed angst and drama too much to fully enjoy it.

I was recently introduced to Rachel Harris by chance. I completely fell in love with her writing while reading Book 1 in the Love and Games series. I only recently found out that Book 2, Seven Day Fiance was available for advance reading and I jumped at the chance.

Keep in mind that this is from the Entangled Bliss imprint. You know that means only hints of the yummy smut, but with the way Harris writes you won't even miss it. Well... except for that one scene!

Cane Robichaux isn't the settling down kind of guy. If you read book 1 you know he's Colby's brother and he runs the family restaurant... yes, he's a closet nerd, but a damn sexy one with his tattoos and a motorcycle.

Angelle is the new girl. Working for the fire department, she moved to town to escape the expectations of her hometown and a fiance that just wasn't right for her.

Cane and Angelle have only had brief interactions, but they always seem to leave her a hot mess. When she makes the mistake of telling her mom that she's engaged to someone new, she needs Cane to help her out and spend Thanksgiving with her overwhelming family and the ex that still wants her.

I absolutely loved this book – the chemistry between Angelle and Cane was so well done, and omg that man.

"Just so we're clear" – placed his hand on hers – "you can proposition me any time, angel."

I mean...

So I'm going to say up front, I hate reading from PDF because I can't highlight the quotes that I love and want to share, and this book had plenty of them. Watching both Angelle and Cane slowly get to know each other and ultimately have everyone believing that their relationship was ... except for them, was perfect. I absolutely loved the two of them together and getting to see glimpses of Colby and Jason was just a bonus.

If you're looking for a book filled with Cajun food and family plus a sweet romance, you're definitely going to want to check out the Love and Games series. Rachel Harris certainly knows what she's doing in this series and I can't wait for the next one! (Crosses fingers for Sherry's story!)

Also... Rachel, if you want my email so you can send me the rest of that one scene... just say the word!

Thank you to Entangled for the advanced copy in exchange for an honest review.

3.5 Living Up To Your Own Expectations * * * 1/2

It seems one of the biggest challenges in our lives is to just be who we are... not who people want us to be... or what we think we should be... It is to have the strength to realize what makes us tick and be strong enough in our convictions to follow that path... no matter how hard it may be.

This tale touches on those thoughts. We have two characters who have presented themselves to the outside world how they think is best... but have hidden from what is their core... Both experienced a Family Trauma, a sign post...pushing both to take that fork in the road shaping them.

This was an easy read... a need to pretend she is engaged, our gal ropes her secret crush into going back home to show her family she is fine and able to live her life in another town. She has used this ruse to keep her family at bay ... allowing her to settle in and thrive in her new home. Now unfortunately, Thanksgiving is here and she must somehow bring this pretend fiancee home to meet everyone.

The subject of her crush has been interested in her since she came to town but hasn't been able to connect with her. He is a love and finish guy... he has seen what heart hurt looks like from the example his Father did to his Mom... and he is determined not to inflict pain like he saw.

When asked to be the Pretend Fiancee, he finds himself saying yes... thinking he will have a friendly tap that and then get her out of his system. Little does he and she know what is in store... can they pretend when feelings start to get involved....

The read was pleasant... it is part of a series with secondary characters either having their book done or will be done. The reader would feel comfortable reading whether they had read the other or not. There is a sweetness, charm and a chemistry between them. They mesh well and have heat... their time together is not really discussed in detail but you do sense they want each other.

I enjoyed this enough to see what is next for the series...

I have so many feels atm, loved Seven Day Fiance.

If you're like me and love a good romance this book will not disappoint. This series keeps getting better and better.

Angelle and Cane both owned me, loved them both and watching them together had me smiling and swooning through most of the book.

sigh... seeing Cane and Angelle falling in love was just gahhh

Poor guy didn't know what hit him, one minute he was all "I'm not a relationship kind of guy and I will never

fall in love as it's not for me" but when the thought of Angelle being with another man starts to make him feel sick, he's like "what was that???" ahhh yes jealousy isn't a feeling our Cane has had the pleasure of experiencing before :P

I'm going to stop talking now as I can go on forever and ruin the story for you :)

I truly love Rachel Harris's work, her writing draws you in and makes you feel like you're part of the story. Her description of the Cajun food and life had me wanting to book my next holiday to experience that lifestyle :P

The Love and Games series is one of my favs and I highly recommend it.

BTW did I mention I have a major crush on Cane? umm yeah that man is HOT!

Kassiah says

4-1/2 stars.

This review also appears on Steamy Guys After Dark.

Ya'll know that I love Jason Landry with the fire of a thousand suns, but I might love his best friend more than that. Cane Robicheaux *is* all that. But don't let me get too ahead of myself.

Shy Magnolia Springs transplant Angelle Prejean volunteers at the fire department and gives riding lessons part-time. So it's a total shock when she outbids everyone for a night with local bad-boy restauranteur Cane Robicheaux in the annual bachelor auction. They've been flirting with each other for months, and relationship-phobe Cane is more than happy to get the chance to spend an evening with the girl he can't get out of his mind.

"You bid an obscene amount of money just to go out with me," Cane interrupted, his deep voice laced with humor. Her eyes shot to his and he winked. "You know, darlin', all you had to do was say the word. You could've had me for free anytime."

Turns out, Angelle needs more than just one night. She needs a week, complete with a fake fiancé. After turning down her boyfriend's proposal, Angelle ran from her small Cajun hometown where her father is the mayor and everyone is all up in everyone else's business. To keep her parents off her back about coming home (and back to the ex, Brady), she invented a relationship that led to an engagement. Now it's time for her to return *with her fiancé* for the holidays. It only takes a little convincing for Cane to agree to help her.

Along the way, the lines get blurry and both of them wonder what will happen when they realize their fake feelings aren't so fake after all.

His goal had shifted. No longer was this only about getting her out of his system, though that did have to happen, the sooner the better. But now, he didn't just want her comfortable enough

to explore their explosive attraction. Cane realized he wanted to let Angelle *in*.

One of the things that I loved the most about *Taste the Heat* was the Louisiana setting. I felt that it captured the magic and romance of New Orleans to a tee. This was even better. Perfect descriptions, amazing food, local games and customs--Harris totally captured the ambiance and unique culture of Cajun country. I wonder how people who don't live here pronounce some of these words though. :)

I love this storyline--"fake" relationships that turn real, and this is one of my favorite stories ever. I loved the characters. Cane was just awesome. A restaurant owner, number-crunching nerd-at-heart, bartender, and amazing brother, he's very protective of all of the women in his life. He plays the guitar and rides a motorcycle and has tattoos and is just totally swoonworthy.

Cane was so authentic. One of my favorite moments was when his godchild, Emma, was talking about his upcoming "wedding" with Angelle.

"Tell Angelle my signature colors are green and blue," Emma declared, snapping Cane's attention back to the present. He lifted his head to see her listing the rainbow on her fingers. "But I guess I can work with yellow or purple, too. Oh, it could be like an LSU wedding!" She juped up and clapped her hands happily, then grew serious just as quickly. "But no taffeta bows on the butt, please. That mess doesn't work on anyone."

She rolled her eyes and then with a mischievous giggle, spun on her heel and skipped away.

Cane blinked. "Taffeta?" What in the hell was that, some kind of snack?

Angelle is one of my favorite female characters ever, and it's so rare for me to like someone so much--she totally knocked me off my feet. She loves her family, but refuses to live her life on anyone's terms but her own. She doesn't want to live under the microscopic scrutiny of her town, but she loves her culture and loves to be home. She waited for the right guy to give her heart to and wouldn't settle for anything less. She's strong, even in the face of weakness.

The chemistry between these characters was off-the-charts.

"Just so we're clear"--he placed his hands on hers--"you can proposition me *any* time, angel."

Did I mention that I *love* when he calls her "angel"? ::le sigh::

I love pretty much everything about this book. The only thing I wanted more of (besides once again wishing this was a Brazen title instead of the Fade-to-Black Bliss Brand) was Colby and Jason. We saw them and know they're totally in love and happy, but I wanted more. I loved that the relationships were all still there though--Sherry is still the over-zealous little sister we all love and Jason and Cane are still BFFs (or whatever guys call it).

"You know I was just busting your chops. But damn, this girl's done a number on you, hasn't she?"

Cane huffed a breath. "Yeah, I guess she has."

"Do you have any idea how long I've waited for a woman to knock you on your ass?" When Cane didn't answer, Jason did it for him. "Years. More than a decade. But the day Angelle walked into that diner, I knew it was just a matter of time."

They hold each other up and encourage each other, even when it's not what the other one wants to hear, and *that's* true friendship.

If you're looking for a story with an amazing plot, a perfect setting, and characters that will have you swooning, *Seven Day Fiancé* is the book for you.
