Fame, fortune, and fans are SpongeBob's destiny when he's picked to star in a TV special. Hotshot producer Barry Cuda is sure that SpongeBob's sea-lebility talent is going to steer them both to stardom, and SpongeBob is reeeeaaaady for his close-up! Mommy's review from 9/24/11 -

3.5 - Normally we finish a book like this in 2-4 days but Julia's 6th birthday was right in the middle of reading this and we did no night reading for two nights.

I'd suggest parents/guardians gear up for the task before starting. It's just kind of brain-numbing to read the words I think. I have nothing against SpongeBob. Julia watches the shows - they're her favorite of all cartoons actually - and I'll watch them with her at times. I even laugh sometimes. But for some reason when he translates into written form it just seemed so... different.

I don't mean to insinuate that it's lacking because it's not. Julia liked it and I liked it well enough. It's just different.

The story was pretty darn funny though. Bikini Bottom residents try out for a new daredevil show and of course SpongeBob gets picked. Except somewhere along the way the show turned from a 'dardevil' show to a 'embarrassing stunts' type show and SpongeBob is made a fool of. After he's alienated all of her best friends no less.

In the end SpongeBob sees the light and gets back to his regular self - in more ways than one.

I liked that Mr. Crabs came to SpongeBob's rescue instead of one of the others. Normally it's Sandy or even Squidward and hell, even sometimes good old Patrick. That was a nice touch.

Either this was a scrapped episode or someone's attempt at imitation. Either way, it's dull and charmless.

If there is some sort of special award or prize I could get as a mother who suffered through this absolutely horrible book just because my daughter found it interesting for some reason ... well please ship that trophy this way. Dumb. Dumb. Dumb.

I read this book to my niece and nephew at bedtime. They seemed to enjoy it, however, I don't think it represents my favorite Spongebob characters very well. Spongebob's head literally grew as they fed his ego? That's ridiculous. You can convince me that a sponge who lives in a pineapple is a fry-cook in a city at the bottom of the sea, but there are some things you just can't persuade me to believe.
