**Stony Creek Cowboy** Taylor Berke  
[Siren Classic: Erotic Cowboy Romance, HEA]

Dr. Billie Rothman, a beautiful, widowed MD, leaves all that she knows behind, attempting to follow her dreams to Stony Creek, Wyoming. She is yearning for the passionate life she wanted to live after a safe marriage to her best friend.

Jackson Powell, a huge, handsome cowboy, literally saves her life soon after she arrives in town. After being married to a selfish and superficial woman, he decides that women are simply for his pleasure and to ranch alongside him and his family, never expecting the bundle of sensual energy that punches him in the gut after meeting his new neighbor.

While getting to know each other, both these wounded souls cannot ignore the instant attraction or the pulling of their hearts, but in the background lurk several individuals who yearn to teach them both lessons in pain and revenge. Unfortunately Jackson's ex-wife and a jealous acquaintance from his past try to hurt both of them physically and psychologically.

A Siren Erotic Romance

### **Christie BILKY says**

I have to say this is the first book by Taylor that I have read and I am very impressed , and can honestly say she is now on my must read author list..thank you for a read I stayed up til 2 am because I had to finish the book..lol

---

### **Nethng Forwendy says**

I love books that are a series so the stories continue on and become so familiar. Jackson Powell, the hero in this book was just dreamy and I loved how Billie kept her head and wasn't a wimpy heroine. This book had a lot of love and steamy loves scenes but the best part was the great story line and humor that Taylor Berke included. Her website says that there she has the second book coming out soon! So excited. So many wonderful characters in the book and the scenes were so hot. I want to be Billi! I can't wait for Stony Creek book 2!

---

### **Kim says**

What a sweet surprise this book turned out to be...Wouldn't have read it based on the cover because it makes me think of the older erotica books but it was actually REALLY REALLY good...Very hot scenes & an excellent story line that kept you captivated the entire book...Read this book in one day, could not put it down.

### **Lovesromance says**

This is one of those secret "GREAT READS". The book starts out introducing the cast of Stony Creek but you are aware of Billie Rothman and Jackson Powell, in every conceivable detail from the very beginning. You become part of the story. There was laughter, love, a little drama from time to time and a healthy amount of vivid intimacy that you almost wish made Jackson knock on your door. I highly recommend this book for your next romance/erotica read. Can't wait for the next installment of Stony Creek!

---

### **Mike Krane says**

Excellent book. Pretty long, 79,000 words. Great characters. Very damned funny and super vivid sensual sex scenes that were very well done. You could practically feel it as well as read it. Not just sex, great plot. Want more. Definitely on my re-read list.

## **Jane says**

This was a big surprise. I live this new author and book. I can't wait to read more. The story is a hot love story that introduces you to a living family and town. I look forward to the next book in this hot series.

---

## **Sunny says**

Amazing. Loved the book. Highly recommended if you love hot cowboys

---

## **Brandy says**

I really liked this story and it was very well written as far as details in the story and so forth, the only thing that bothered me is that there were no contractions used so everything sounded so proper that I had to reword everything in my head so that it sounded right.

---

## **Beautiful\_Jade says**

I was really looking forward to reading this book.

It has such great reviews and the story line sounded interesting.

Sadly it was spoilt by the never-ending descriptions of her hot liquid juices dripping, gushing, creaming and spilling down her thighs. How she wet her underwear, clothes and seats she gushed so much.

The dialogue was awkward at times.

So a big let down for me.

## **Lisa says**

I absolutely loved this book....it captured my attention from the very beginning and I could not put it down...Jackson and Billie's love for one another shows through like a shining star...he is pure cowboy through and through and always the gentlemen.....but it is the possessive nature and dominance of Jackson that made me fall in love with him.....and Billie a woman who has never really had love....not the raw

passionate love that she experiences with her man who takes her beyond any pleasure she could have imagined.....I think they were destined to be together....the stars aligned for a powerful emotional journey to find the greatest love of all....I am really hoping there is new books for this series because I can imagine with the other people we have met in Stony Creek we have many more sensual journeys to take...and also continue with Jackson and Billie ;)

---

### **Tammy says**

A fantastic new book and series. Amazing strong characters and hot steamy monkey sex. A must read!

---

### **Ursula says**

This is the first book in the Stony Creek Series. Billie Rothman is attempting to follow her dreams when she meets sexy cowboy Jackson Powell. Loved these two they were great characters. If your looking for a great Western Romance book to read I highly recommend Stony Creek Cowboy.

### **Desiree says**

I feel guilty only giving this 3 stars, and complaining, as the author appears to be new, and is actually good. The writing was good, as was the plot. However, there were so many things about the book that either didn't wow me, or that I didn't like, that I couldn't give it 4 stars.

The heroine was too goody-goody and polite for me to like. Too sweet and perfect. I found her annoying in her perfection.

The bad guys seemed lame, contrived, and 'oh please' worthy. The bad guys didn't have motivation, or depth. They were just these 2D characters written in to fulfill a need for drama. Their behavior was ridiculous, their dialog was ridiculous, and their supposed reasons for their ridiculousness were ridiculous! I didn't find the bad guys believable in any way. The premise was there a jealous man and a bitch ex. but their motivation and behavior were way disproportionate and inappropriate.

Also, there was too much sex. I get that some people like to read what is basically 3 thousand orgasms strung together with a subplot, but I don't. I get it, they liked to fuck, and they enjoyed the fuck out of it! I don't need to read 4 sex scenes in a row to get that.

I also got sick and tired of 'how sexy' everyone was, everyone was breathless by everyone else's sex appeal. Whole fucking town of sexy dudes and imported goddesses.

I did like how much time together they spent before professing their undying love for each other. This was one thing that seemed far more realistic than most books of this kind. They THOUGHT about how they were falling/in love, and they acted lovingly. But they didn't start marching down the aisle within three days of meeting each other! Refreshing!!!

I wanted to like this book far more than I actually did. I found myself skim and out right skip reading a lot of

this book. I liked that it was lengthier and had a longer time span than most of these books, but there was NOT a great deal of character development, there wasn't a great deal of activity. It was mostly just sex, more sex, and a bit more sex in between glimpses of their daily lives.

But again, the writing style was good. And I was definitely entertained, and I enjoyed reading the book! I'm just not sure if I'd read more of her books. And I feel really badly for that!
