# The Wyoming Kid

*Debbie Macomber*

**The Wyoming Kid** Debbie Macomber

**Rediscover this heartwarming, fun romance by #1 *New York Times* bestselling author Debbie Macomber.**

Rancher Lonny Ellison has never known a woman like Joy Fuller. She doesn't seem very interested in him, and as a former rodeo cowboy, the Wyoming Kid is more used to being *mobbed* by women! And he and schoolteacher Joy seem to argue *constantly*. But it doesn't matter, because he's not interested in Joy, either. Except...maybe he is. Now he just has to convince her that opposites attract!

*Originally published in 2006*

### **Debbie says**

Rancher Lonny Ellison argues with Joy Fuller

---

### **Donna says**

OK, this was one of those books where the couple was so-o-o annoying and immature that you didn't really care if it ended happily ever after. This couple's conflict had the maturity level of 3rd graders and was boring and repetitive. And Lonny's epiphany halfway through the book that he was in love with Joy simply strained credibility!! Ms. Macomber has written MUCH better books.....

---

### **Cecelia says**

Absolutly wonderful, funny and touching and light, just like the Debbie we know and love

---

### **Bonnie says**

#### **Loved it**

I seem to love everything that Ms. Macomber writes. I read this when it first came out and I enjoyed reading it just as much again. The Cedar Cove series is still a favorite that I have gone back to revisit a time or two.

---

### **Stephanie Tracy says**

Sorry to say I wasn't impressed by this book. Waaaaay too sickeningly sweet with the picture perfect people and their proper, ultra friendly (to the point of sounding ridiculously fake) dialogue. I just couldn't get into this. The entire premise and delivery felt forced and unrealistic.

The hero and heroine were completely unbelievable, and had nothing in common. Seriously, these two shouldn't have even ended up together. And Lonny (hero) went on and on about the car "incident" for a full five chapters (I should have thrown in the towel then).

I can't recall if I've read Debbie Macomber before, but I'm not sure I will after this one. Way too simple - nothing happened, weird dialogue, and a couple I hated. Ugh... a little irritated that I spent time on this one!

## **Eunice Korczak says**

### **The Wyoming Kid**

The Wyoming Kid is a simple romance that could take place in any small town. The western part is on the periphery and I wonder why it is played up in the title. I guess someone in a romance story has to be obtuse to add a little tension. Much too often it is the woman who has to be the idiot. In this story both the man and the woman are downright relationship-stupid. Predictably, the woman is slower to come to her senses, so needs to be guided by her clueless man. Interesting story, though.

### **Cheryl says**

#### **I love all of the stories Debbie has penned**

I have yet to read a book by Debbie that was less than a five (5) some were tens. All I can say is read it yourself you will love it. Debbie is just that good. My daughter's and friends now read everything she has written.

---

### **Jennifer Morefield says**

I loved this sweet cowboy romance. Easy and light reading. A great dessert of a read. I enjoy Debbie Macomber for the most part. This one was very good and everything I look for when reading a romance.

---

### **Susan K says**

Romance, clean

Cute, light, old-fashioned romance in a small town. Joy and Lonny are at odds with one another. Joy has broken off a relationship with him. They are thrown together, and through the myriad conflicts, tiffs, and romantic moments, Joy and Lonny need to figure out their feelings while Joy is being wooed by another man from her past.

Heartfelt, small town romance at it's best. HEA and lovely fall, lots of chemistry mixed in with the misunderstanding, hurts, and tangles.

---

### **Cindy Adair says**

#### **Feel good story**

Sometimes you just need a good feel good romance to read. This one fits the bill. Predictable plot - boy meets girl, boy loses girl, boy gets girl back. But the relatable and likable characters with the happy ending provide the perfect escape from the stress of life. I'm thankful for authors who can create an enjoyable story like this.

## **Delena constant says**

### **The Kids**

There comes a time in ones life you meet someone and your very much a like. That is how the main characters were in this book. In the end they came together. Read and see if you think they will make a life together? I say yes!

---

## **Anna says**

Joy is a city girl who goes to live in a little town. Two years ago she dated Lonny, a former rodeo cowboy but they didn't connect. Now they have a passive-aggressive relationship that is due to their unfinished business, that is, the spark is still alive. And this is the starting point for lots of unbelievable silly misunderstandings.

Main characters bring stupid to a new level. He is delusional, he is the one who decides that he must love her because he hates her. And she gets angry because, one day after kissing together, he attends to church where she plays the organ because what he wants is to unnerve her (at this paranoid point I just dropped the book).

---

## **Beverly says**

I struggled to like the two main characters. Their bickering just did not do it for me. Also having dated 2 years earlier and then breaking it off did not seem realistic. Glad I finished it, but not that impressed.

---

## **Sandra Gosney says**

### **Liked the Story Line**

I really liked the characters involved. There was enough conflict to make you want to keep reading to find what happened. I have really loved of this author's books. She is probably my favorite author.

---

## **Marie Buccellato says**

Typical love story about life in a small town where everyone knows your business \_ very predictable but still a good book

---
