After I Do Vicky Gemmell

After she says 'I do,' to Nick, Clio learns that happily-ever-after isn't guaranteed. Ten years into stale matrimony she is lonely, and longing for an elusive second child.

When her marriage is rocked to its foundations, Clio fights to keep her man and regain her self-esteem. She lands a dream job with Walt, a dazzling Canadian, who rekindles more than just her zest for life. As Clio finds the strength to resist temptation and starts to rebuild her marriage, tragedy strikes. She has to summon all her resources to ensure a happy-ever-after for herself and for her family.

Between England, South Africa and an island off Oman, where will Clio find happiness? And how?

Sheketa says

Good read. Some errors. Language was noticeable shocking in parts

Nikki says

A brilliant read with lots of twists and turns, highly recommended.

Josephine says

Not sure how to describe this book. I felt it was rather long and at times (far too many) lacked a goal/point. It spanned the entire lifetime of the heroine. Was it to show how not to be as naive and ignorant as she was in making choices? Was it to show how life can be so very complicated and unpredictable? If so, both were achieved with unsatisfying results. At the end, it was unclear whether she was wiser for her experiences or just bitter. After finishing the book, I was left with feeling like, 'What?'.

Liesbeth says

I feel ambivalent about this book.

I wanted to like it, and when I first started it I did.

However, Clio, our "heroine" got on my nerves after a while.

Surely no one is that dim?

Quite a few major events, the affair, the death of husband nr 1, got dealt with quite speedily, emotional wise.

A lot of emphasis is given on "slim being the only way to be"

The constant weird writing of the German accent got on my nerves, rather a shallow view point.

However, I do think the author has got promise, and some good ideas.

Maybe she needs to mature a bit.

Kim Tutt-monteith says

This was a good page turner and I enjoyed the twists and turns! Perfect holiday reading - a good escape!

Bailey says

I don't usually read novels, but I could not put this one down!

Maureen Vincent-Northam says

Clio and Nick have one daughter, Emma. But Clio desperately wants another baby and in the process of achieving her aim she puts her marriage at risk. After a major marital upset she finds work with the wealthy Walt – a dream catch if ever there was one. But disaster strikes and turns her world upside down.

Peopled with interesting characters and in turns funny, sad, and gripping this story with all its twists and turns has just about everything. Recommended.

Lu Ann says

I tried very hard to get into the book. It jumped around a lot in the plot.
The dialogue was weak. It seemed overly whiny.
The relationship - or lack of- between husband and wife was non-plus.
The mother-in-law situation was too predictable.
Sorry. I began skimming through the book because I was getting too bored.

Mai says

I tried really hard to like and enjoy this book but I couldn't. The first few chapters were okay but after that I started skimming it because I got bored of the story.

Anna says

Woah, Nelly!! That was NOT what I was expecting at all!! This isn't my usual type of book, but I truly enjoyed it. Well written plot, deep characters and detail. So glad I took a chance on it!

Michele M says

Lots of twists and turns that show how unpredictable life can be.

Dena says

I really enjoyed this story. It had twist and turns and fell in love with each character. I'm not sure how to describe it, but ok is a definite read. Worth it

Michelle says

Enjoyed this book, a couple of twists which were unexpected.

Alison says

kindle 393

Ruth Loizides says

Enjoyed this story, romantic, emotional, interesting, fast paced. Long winded mind you. Good read
