## From Reader Review Criminology: The Core for online ebook

### **Justin Miller says**

Was a very informative textbook. Not something I would have read without taking a course, but I enjoyed it.

### **michelle says**

i had to read this for a class  
i counted it for my challenge because i deserve it  
i hate this book and i hate criminology and i thought my class was going to focus on critical criminology and it didn't  
c'est la vie

### **Dulcy says**

No rating. It's a textbook. It didn't kill me, but I can't really say I enjoyed reading that much text in so little time.

### **Dawn says**

I figured out why I couldn't like this book more than about 3 stars. It reads like a book in the Dummies series, oversimplifying in places where I wanted to go into more depth. It was for a Criminology class that, even though it was for Criminal Justice majors, felt like it (the same as the book) was for non-CJ majors. When you make things like "arson" and "burglary" major vocabulary words, I feel like I'm being talked down to. I learn more from episodes of "Criminal Minds" than I did from this book.
