## Fake It Till You Break It Jenn P. Nguyen

Mia and Jake have known each other their whole lives. They've endured summer vacations, Sunday brunches, even dentist visits together. Their mothers, who are best friends, are convinced that Mia and Jake would be the perfect couple, even though they can't stand to be in the same room together.

After Mia's mom turns away yet another cute boy, Mia and Jake decide they've had enough. Together, they hatch a plan to get their moms off their backs. Permanently. All they have to do is pretend to date and then stage the worst breakup of all time—and then they'll be free.

The only problem is, maybe Jake and Mia don't hate each other as much as they once thought...

## Fake It Till You Break It Details

## **From Reader Review Fake It Till You Break It for online ebook**

### **Lissa says**

I appreciated the incorporation of Asian American main characters (daughter and mom) without over explaining cultural references, and I think the alternating first person narrators worked well for that, as well as for revealing Jake and Mia's thoughts but never in the same chapter. This is a solid high school romantic comedy with popular fake-dating trope as a bonus!

---

### **Elise (TheBookishActress) says**

A romcom about fake dating, no matter how many times I may have read it before, is the height of romantic perfection and I can and will read it again thanks

---

### **Autumn says**

This was just a great little YA romance. Everything in it went as is expected and that's a-okay by me. A little love triangle, a little snooping, over involved parents...a little bit of everything that makes a YA romance a YA romance.

Easy book to recommend to YA romance lovers!

Received an advanced copy from netgalley in exchange for an honest review.

---

### **Divine says**

I'm a sucker for the enemies to lovers trope so count me in!

---

### **Scrill says**

I loved Nguyen's other book so much. I need this asap, it has my favorite tropes. They never get old.

---

### **alexandra ling says**

fake dating is the best trope i don't make the rules!!!!!!

---

### **Bookworm LLC says**

I LOVE Jenn P. Nguyen!

Fake It Till You Break It is a story about two high school kids who have lived across the street from each other their whole lives. Their mothers are the best of friends and have been trying to get Jake and Mia to date for what seems like forever.

Mia and Jake decided to act like their dating for a short period of time and then stage a terrible break up so their moms will get off their backs. What they did not see coming was the feelings they started having for each other. Will it work out? Or will they stage the breakup they had planned?

---

### **Sophia (Bookwyrming Thoughts) says**

I just love the fake dating trope?!?!?!

Darn it, I'm a hopeless case.

---

### **caitlin says**

Another YA romance that is comparable to "To All the Boys I've Loved Before." Mia and Jake's mothers are best friends who have been scheming for years to get them together, and even though we hear about them sharing dentist visits and car rides, we don't nearly see enough of this thrown-together friendship before Mia and Jake plan a fake romance and a terrible break-up that will end their constant companionship. Predictability ensues.

---

### **Katlin Seagraves says**

Mia Le and Jake Adler have been neighbors since they were kids. They've been sworn enemies since about the age of 8 when their moms decided matchmakers and started to ship "Jakia". When Mia and Jake decide to start fake dating (trope-y deliciousness), they realize they may not hate each other as much as they thought. This fun read is chock-full of k-drama references and sure to melt your heart. Get it on your TBR immediately!

ARC provided by NetGalley and Macmillan Children's Publishing Group for honest review

### **Taasia (libraepaintspages) says**

uhhhhhh an asian fake-dating rom-com??

the publishers really know how to appeal to the people ngl

---

### Carol says

A cute and swoon-worthy YA rom-com that wonderfully plays out the enemies-to-dating trope that so many romance readers--including me!--enjoy.

I loved the details like Mia's obsession with K dramas and mochi, and how Jake is fastidious in just about everything he does.

I received an advance copy from the publisher via Netgalley for review consideration.

---

### Alea says

I purchased The Way to Game the Walk of Shame on a whim and ended up falling in love with the characters, the story, the relationships, and so much more. My point is I have been waiting for Nguyen to write another story since 2016 and I am beyond thrilled for this release!

---

### Catherine Tinker says

Enemies-to-lovers, via fake dating.

Yes, please.

---

### Kalie says

(3.5/5) **FAKE IT TILL YOU BREAK IT** is a charming romcom in the vein of **TO ALL THE BOYS I'VE LOVED BEFORE** complete with - wait for it, **WAIT FOR IT** - the beloved fake dating trope (while simultaneously stemming off of enemies-to-lovers and once childhood friends, if those are also up your alley!). No matter how many times I see this trope in some form of fiction, I will eat it up every single time. I'm predictable like that. The romance set up was the main draw for me and that alone is worth a high four star rating. However, I could have used a little more fleshing out and development of the non-romantic relationships and there were a few things here and there that irked me to the point of dropping a star. Still. I found myself charmed more often than not. I wanted a cute, light romance featuring some of my favorite tropes and that's essentially what I got, so I'm plenty satisfied with that! And it's a quick read too! I devoured this in a single sitting. If you enjoy reading Jenny Han or Maurene Goo, this book is 100% your jam.
