'He'd never noticed before but Becky looked a lot like his ex-wife.'

OUCH. I couldn't take it seriously after that. And they went on to have sex in a horse stall, WITH the horse in there with them. (even more 'ouch' !!)

However, I read Thoroughbreds and Trailer Trash by the same author and enjoyed that immensely. The trouble with Fillies is that I didn't ever get to care about any of the characters, certainly not Dino or Becky.

Retta says

Meek and mild Becky Foster craves love and security and carves out her own home as companion-nurse to an aging Texas matriarch with more opinions than horses. Bruised from years of neglectful foster care, Becky is intimidated and awed by handsome, swaggering men, and no one leaves her more tongue-tied than the charismatic horse trainer she oversees.

Dino Anders charms every horse and woman in sight, and has a reputation for turning green fillies into winners. Yet even as Becky sheds her mousey layers, sinister elements creep into the stable, and Dino and Becky must join forces to save the horses, their employer, their lives.

Hard to put down, wantd to keep reading to what would happen next

BRIEF SUMMARY

In this story we get to read about horse trainer, Dino from the book Color My Horse. Dino is a ladies man and will never get tangled up in a relationship after his bitter divorce. His life belongs to horses and one night stands. Becky is a nurse hired to take care of Martha, a horse owner with a failing health. When Martha asks Becky to be her eyes and ears at the stables, Becky discovers a love for horses and love for a certain hot trainer.

THOUGHTS

I love this series as the author's talent shines through each story being told. Dino is sexy and Becky is shy and not confident and learns to let go of past fears and rejection. Becky and Martha's relationship becomes more than Becky just being her nurse. Martha becomes the family Becky has not experience being in foster care as a child. It's fun to see Becky shed her shyness and makes Dino drool over her, my absolute favorite scene was the stall scene!! The story also holds another plot with a manipulative nephew and Slim's sad

story. A great series and great job to Bev Patterson on what I think is an excellent series.

Storyline: GOOD

Enjoyment: GREAT

Intimacy Level: SWEET

I really enjoyed this book. It's easy reading with a blend of romance and mystery. I think what I enjoyed the most was how the characters really grew and changed throughout the book.

Heart warming page turner

I actually gave it 3.5 stars, you can read more about it in my blog post, but it's a nice story, I like that the suspense and mystery were the main focus, the romance aspect was good, it didn't overpower the story.

I have enjoyed all of Bev's books that I have read so far. They all have to do with horses and horse racing. There is a mystery to solve too. Some of it I guessed but not all of it.

Becky has worked for three years as a nurse to Martha. The last little while since her husband has died Martha's health has gone down fast. Martha has leaned more on Becky. In fact she is using Becky as her eyes and ears about her horses and how they are doing.

Becky is shy especially around guys. She was a foster child and got to go to horse camp one summer and loves horses. Becky is getting more confident the more she has to go and interact with others. Plus Martha keeps conning her into different changes, like clothes, haircut and makeup.

Dino is a ladies man since his divorce, and never plans on getting married again. He is also Martha's horse trainer. Dino has slept with 6 of Martha's nurses in the year he has been working for her.

The story keeps your attention and draws you into horse racing business, I really liked Becky.

I will read more of Bev's work. I was given this ebook in exchange for honest review.

Tara Chevreton says

As I read the last paragraph of this book, I wanted to cry. A tear actually formed in the corner of my eye. It wasn't a sad ending, nor was it an ending in which everything was neatly tied in a bow...not quite. But I was

sad because I thought this was the last of the Bev Pettersen horse books. After all, I hadn't heard of any other books in the series and a visit to her website only showed me three books: Jockeys and Jewels, Color My Horse, and Fillies and Females. But then I turned the last Kindle page and gasp!!!! Happy dance!!! There's to be an additional novel called Thoroughbreds and Trailer Trash. When is it coming out? I don't know, but I'll be watching closely.

Fillies and Females is about Becky, an extremely shy and self-conscious woman who hides behind her hair and rarely speaks up. Not my kind of heroine, right? Wrong. There's a very good reason why Becky is the way she is and with the right amount of coddling and some hot sex with the right man, a sexy trainer named Dino, she blossoms. She transforms from a woman hiding behind her hair to a woman who focuses on people's foreheads so she can at least pretend to look them in the eye to a woman who DOES look them in the eye.

So good

If you love horses you'll love this book. Not only is the author an excellent writer but she puts all emotions in the right place. I could not put this book down. Of course I had a love affair with Dino haaa. It is hard to move on as I feel I am leaving the greatest neighborhood.

Janet says

I just love this series of books by this author. She gives you the horse lingo and you also can learn something about horse racing from it. The characters in this book are very good. I like Dino the best but who wouldn't? I look forward to more books to come. I have a hard time putting it down once it is started. Thanks for a good book.

I love this author and will certainly read more from her, but this was not the romance suspense balance I enjoy. This story is much more focused on the mystery of race horses suddenly not qualifying for major races, and less on the romance between Dino, the horse trainer, and Becky, a dedicated nurse to a billionaire horse owner.

The mystery was also predictable, and I felt it portrayed Becky as a bit clueless when so much happens in front of her yet she never puts the pieces together nor informs Dino until things are too late. It was a stretch to believe she was put in the position of being Martha's eyes and ears at the track, but I liked her chemistry with Dino so I could easily just go with it.

I did enjoy this as a romance, just wish there were more. If you are interested in the sport of horse racing, I think you'll enjoy this one quite bit. There is a lot of information about racing, which I also found interesting.

This is my first book by Bev Petterson. I recieved a free e-book copy from the author after entering a goodreads contest. I was very excited about a new horse book, specially one on a more adult level.

It was a solid romance with Becky and Dino both being flawed. I have to say the horse stuff is always my favorite part and Bev Petterson actually knows horses. I have read so many books where I'd just roll my eyes over how the author wrote about horses and it was clear they'd never been around them, not Bev Petterson.

The suspense kept the romance plot from being boring and kept the pages turning for me.

Thanks for a very enjoyable romance filled with horses. :)
