Must say that Hide My Memories, that Lisa Ladew knocked it out the park again and left us with a very big cliffhanger. Love the couple in this book. It was a great read once again. Plenty of action and kept me so engrossed that I could not put it down for long. Love all her books. Can't wait to find out what happens. Enjoy it won't disappoint. Very well worth the read, all of the series.

This review is for Fueled Obsession one by Amanda Heartley. I will add to the review as other books are read.

Our story starts as Mollie, a pediatric nurse, decides to do her residency at the local clinic for the poor-on the wrong side of the tracks. Her high-powered attorney father, simply forbids it. He doesn't want her working in the seedy part of town. Mollie wants to help people and feels it's not the time to be sheltered. So against her father's wishes, she takes the job downtown. After a series of accidents where she keeps seeing super-cute hottie, Jackson Fitzgerald, her curiosity is peaked! Jackson is a self-proclaimed bad boy. He street races. Not just because they need the money, but because he loves racing. He drives a bad-a** Camaro the ladies just swoon over. He could care less about any of them, until he meets Mollie. Again and again... There's just something about her.... Could someone like her ever go for a guy like him???

A copy of this book was given to me by Amanda Heartley for the express purpose of an honest review. The opinions and rating of this review are solely mine and in no way was I compensated.

Hide My Memories!!!

Katerina Holloway OMG what an amazing character.....Loved how she found comfort in being in West Shepherd's company despite his own ordeal, he wanted to help Katerina.

The paranormal was well done, Katerina having visions and her not being able to control them was so realistic especially the way those premonitions freaked her out.

It was fabulous to see Emma and Craig Masterson, can't wait for the next novel.....Another masterpiece by Lisa Ladew.
