**Perfect Kind of Trouble** Chelsea Fine

**Sometimes when perfect falls apart, a little trouble fixes everything . . .**

Twenty-one-year-old Kayla Turner has lost everything. After spending most of her life taking care of her ailing mother, she just wants to spot a glimmer of light at the end of the tunnel. So when her late father—a man she barely knew—leaves her an inheritance, she finally breathes a sigh of relief . . . until she learns the inheritance comes with strings. Strings in the form of handsome playboy Daren Ackwood, her father's protégé. To see any of her inheritance, she's forced to team up with him. From his expensive car to those sexy dimples, Kayla's seen his type before. But Daren isn't who he seems to be . . .

Struggling to make amends for his family's mistakes, Daren has a life more Oliver Twist than Richie Rich these days. He's beyond grateful that James Turner included him in his will, but working with Turner's princess of a daughter to fulfill his cryptic last wish is making Daren wonder if being broke is really so bad. Still, she's just as beautiful as she is stubborn, and the more time he spends with Kayla, the less it feels right being without her. Soon Daren and Kayla begin to wonder if maybe the best gift Kayla's dad could have left them . . . was each other.

# From Reader Review Perfect Kind of Trouble for online ebook

## Steffi De Ceuster ♥ says

This journey took me a bit longer, because I'm on vacation. With this book my eyes opened a bit more, not everyone has a good home or great and loving parents. I must say Kayla hasn't had the most luck with her mom. Both Kayla and Daren have problems with their parents. In Kayla's situation it's a bit different because her mom lied about her father and she believed it. What other choice did she have? None! I find it admiring and am proud of the people they've become, with the shitty parents they had. It's close to home, because my man his parent isn't a role model and he is so much more! So I admire those people!

The scavengershunt they needed to do was so much fun. I enjoyed every minute of it!

---

## Laura says

I enjoyed this book more than Book 1. This one features Daren who we met in the first book.

Daren didn't have great parents himself so when he worked for James Turner he found 'the old man' as he called him taking him under his wing but since losing his on again/off again girlfriend through a car accident he partly blames himself for, Daren hadn't spent much time with James in the last year and then James died. At the funeral Daren sees James' estranged daughter Kayla. They each have pre conceived ideas of each other but when they are informed by James' lawyer that they must be handcuffed together to gain access to the money James left them they start to grow closer together and learn that they were both wrong about each other.

I liked the scavenger style hunt James sent them on. His letters were poignant. This is quite a predictable read and it features my pet hate 'insta love' but, it was a sweet story. I liked both Daren and Kayla. The author certainly likes to give her characters crap parents! But Daren and Kayla are able to overcome all their insecurities and find their happy ever after.

Occasionally the plot dragged a bit and like the first book it takes a long time for any bedroom action to happen and the endings always seem a bit rushed but it was still a nice read. Pixie and Levi from the first book hardly featured. The next book is about Pixie's bestfriend Jenna and Jack who featured in book one.

A note to the author: The product description on Amazon for Perfect Kind of Trouble is incorrect. It states Daren hated James?!

---

## Shannon Moore says

Daren Ackwood and Kayla Turner are indeed the Perfect Kind of Trouble. <3

I love how Chelsea takes this series so seriously and gives each story and character tremendous depth and

heart. Her writing is captivating and effortless while she pulls emotions from the reader without being overwhelming. Bravo to the second book in the series! Can't wait for Jenna and Jack. :)

Thanks Quinn for not only making me start this series, but hounding on me to keep going with it! I have a serious habit of reading the first book and getting distracted before getting to the second and third, even when I love the first. I have you to thank for keeping me in line. (Only Occasionally, of course. ;) )

## Jen ♥Star-Crossed Book Blog♥ says

### \*4.5/5 Stars\*

Perfect Kind of Trouble was the perfect kind of book to put a smile on my face. It was exactly what I needed! **It was heart-warming, smile inducing and when the last page closed, I had this happy feeling floating around me.** There's a reason I love this author's writing and that's because in my eyes she always creates female leads who are like-able and that will have you rooting for them, males who are drool worthy, broken and definitely hard to forget, and a fun, entertaining story-line that makes you want to read the book again and again!

Kayla Turner's father has passed away. She has traveled from Chicago to Arizona, to not only attend his funeral, but to deal with his will. But Daren Ackwood is involved with the will also. As far as Kayla knows, Daren use to mow her father's lawn, has a crazy amount of drama clouding his past, and is gorgeous. Now they have to make a choice together. If they want to receive whatever it is that Kayla's father has left them, they have to team up together. Handcuffed. Little do they know what is in store for them!

**An elderly couple walks past us, looking horrified when they see the glinting metal binding us together, and the old woman's mouth drops open.**

**I smile at them reassuringly and explain. "We're not felons," I say, shaking my head.**

**"We handcuffed ourselves together on purpose." They look even more horrified. "Not for a kinky reason," I quickly add. "For money."**

**Kayla mutters, "Please stop talking."**

**Kayla was so easy to like!** She is level headed, careful in her life plans, and thinks things through. She deals with a lot of stigma for being gorgeous, but instead of coming off as stuck-up or trying to use her beauty as an advantage, it nearly hinders her at times. Plus, the fact that she does not put up with any of Daren's douche-bag ways, made me love her resolve! She puts him in his place again and again, and I almost started to feel sorry for him. Almost.

**"Hi. I'm Daren Ackwood— all-around nice guy and legendary lover. Nice to meet you."**

**She doesn't even look at my hand.**

**"No."**

**I blink. "No?"**

**"No."**

As I said, Darin could be a douche-bag, but then two seconds later his heart would peak out and he verged on the border of being a sweetheart. Probably my favorite aspects of Darin was that **he was cocky and charming.** He kept asking Kayla for a kiss and to be her friend. Such simple requests, and it was so

hilarious when Kayle would turn him down. But there's more to Darin than meets the eye. What he has going on underneath it all? Oh wow. **He truly is a beautiful, broken person inside. His situation and past seemed so real. That it could have happened to anyone in his situation. And with how he handled it all, just made me love him that much more.**

**I trail my eyes over her face, down her body, and to our joined wrists, oddly satisfied by the fact that she's literally locked to my side. Twisted, I know. But everything about this girl tangles me up.**

**This was an adorable, feel good book.** I was guaranteed that when Kayla and Darin were in the same area, I got to witness hot sexual chemistry and hilarious banter! But personally, the beginning was a little slow for me, since we have to learn about each of them separately. Thankfully that part doesn't last too long and shortly after, **I found myself snagged and falling for their story.** I'm so happy I read this book, and I can't wait to start Right Kind of Wrong next!

## Carole (Carole's Random Life in Books) says

This review can also be found at Carole's Random Life

I received an advance reader edition of this book from Forever Grand Central Publishing and Net Galley for the purpose of providing an honest review.

4 Stars

This is the book that I picked to read sitting on the beach during my summer vacation and I was not disappointed. I enjoyed this fun, romantic read. I have had a chance to read two books by Chelsea Fine and have really liked both of them. I am becoming quite the Chelsea Fine fan.

Kayla is in town to attend her estranged father's funeral. It has been years since she has seen or spoke to her father. Daren Ackwood looked up to the same man and saw him as a father figure. The pair knew each other years ago so they both make a lot of quick assumptions without any merit.

Kayla's father has included the pair in his will but there is a catch and they soon find themselves handcuffed to each other. As they work to solve the scavenger hunt, both Daren and Kayla learn that they have misjudged each other. They both learn a lot of things about each other and about themselves.

I found this book to be extremely well written with a solid plot. I found the characters to be very likeable

although I have a hard time feeling sorry for Kayla because of her good looks. The constant "nobody takes me seriously because I am beautiful" theme is really the only part of the book that I did not like. The chemistry between Daren and Kayla was authentic. I had a really good time with the fact that they were literally attached to each other throughout a large portion of the book. Let's face it....the handcuffs made the book much more fun.

This is the second book in the Finding Fate series. While some of the characters and places are in both books, each book in the series can be read as a stand alone without any confusion. I would definitely recommend this book to others. I plan to continue to read this series and watch out for other books by Chelsea Fine.

---

### **Müni (MuenisBookWorld) says**

Such a **cute story**.

This book entertained me from the first page on.

I actually really liked **Daren and Kayla**. Their characters were different. I loved how **bitchy** Kayla was!

I loved the idea of the bracelets and that both protagonists were trapped/chained together. Every step they made ... Everything they did... They needed to do it together. It was just **hilarious!!**

Sometimes I laughed and smiled! But then there were moments where I couldn't stand both of them! They exaggerated too much. And sometimes there were these **typical NA lines>**.

*Probably more 3.75 Stars than 4.*

---

### **Wendy says**

Ooooh, this seems like it may be good.

---

### **Anaïs says**

**5 out of 5 Stars for a wonderful sequel to the Finding Fate series!**

\*\*\* ARC provided in exchange for an honest review \*\*\*

**Kayla Turner** is back in Copper Springs for her estranged dad's funeral. This is where she meets handsome, cocky and Porsche driving **Daren Ackwood**.

Kayla sees and remembers Daren as a spoiled brat who is nothing but good looks and no brains, and Daren sees Kayla as a heartless trustfund baby, who didn't care about her father's terminal disease until the actual will-reading. But looks can be deceiving.

Especially when at said will-reading, Kayla's father left them nothing but the option to handcuff themselves to each other in order to find a letter - whatever that letter may say...

I really loved Book #1 from the Finding Fate series (Best Kind of Broken), so I was really looking forward to reading Perfect Kind of Trouble. And as wary as I am with sequels to stories I really love, there was actually no need to be - because Perfect Kind of Trouble was indeed prefect and even better than Book #1.

The story starts off with a rather unusual plot that has Kayla and Daren embark into a rather hilarious scavenger hunt. Given that they don't regard each other highly was not going to be an easy tasks, but sure worth the chase in the end.

As expected (I mean, of course it was expected, but that didn't make me enjoy the story any less), they both start opening up to each other in the course of their quest, and the unavoidable feelings arise. But we also discover more about Kayla and Daren's past, and how it has turned them into what they are now.

I cannot disclose too much about the storyline because it would very surely spoil a really nice read, but I can tell you that it's very well worth discovering this book and the other works from this author. I will most certainly be eagerly awaiting the release of Book #3 in the series.

## AJ says

### 4.5 'I love trouble' stars

Oh Chelsea Fine, how I love you! This is yet another fun, romantic read with fabulous characters and a lot of heart. I was hooked from start to finish.

In the first book of this series, Best Kind of Broken, we met Daren and Kayla, and got a very interesting glimpse of the two of them together. Definitely enough to have me eagerly awaiting their full story, and I can happily say that I was not disappointed!

Returning to the small town of Copper Springs for the funeral of her absentee father, Kayla is bitter, angry, and in a desperate situation. She is alone, broke, and feeling fairly hopeless, but still dreaming of a better life for herself. Also at the funeral is Daren Ackwood. He too, finds himself at rock bottom and in hopeless circumstances, but is there to honour the man he thought of as a father. He takes one look at Kayla and writes her off as a bratty and spoiled princess. Kayla recognises Daren from childhood summers spent with her father, but thinks he is a rich, arrogant, manwhoring playboy. They couldn't be more wrong about each other (well, Daren couldn't be more wrong – Kayla is only slightly wrong), but their initial impressions of each other make for a fabulous starting point for a very interesting venture. Because, as much as they may despise each other on sight, they have both been left an inheritance from Kayla's wealthy father, but the catch is - they have to work together (REALLY, closely together) in order to claim it. And with both of them without any other options, they are forced to accept his cryptic conditions.

I'm not going to go into too much detail about the story or the journey that these two embark on because it's best to just sit back and enjoy it, but I thought this was a fantastic and fun set up to the story. Kind of ridiculous? Possibly. But somehow Chelsea Fine makes it work, and it's a great ride! The dynamic between Kayla and Daren is absolutely gold! Their antagonism towards each other is brilliant, with some sensational arguments and banter, all with an underlying current of mad sexual tension of course.

*"I don't want you to think I'm some disgusting pig who just wants to drool all over you ...  
Although, side note, I do want to drool all over you. I just don't want to be piggish about it."*

*I glance him over again and frown. Goddamn Daren and his bandit kissing, getting my body all worked up and bringing on unsolicited belly twitches. I really need to get away from his fingers and hips, STAT.*

*She can't say things like "give me a ride" and touch her mouth at the same time. That's just not fair.*

Then, when the chemistry becomes too hot for them to hide... DAYUM! There are some sensationally steamy scenes in this book, and it's all tied in brilliantly with the storyline, and the emotion the two characters are going through.

And with their enforced bonding, the two of them slowly start to open up to each other and they learn that all is not as it seems and things become quite emotional. My heart broke for both of them and the circumstances that they were in, and it made it even more special that they finally found somebody they could trust and depend on.

*Watching him, I feel a piece of my heart break off and deliver itself into Daren's hands, permanently. He somehow got a hold on me and now it's too late for me to wriggle free, even if I wanted to. Which I don't.*

*He leans in a bit so our faces are just an inch apart and sinks his eyes deep into mine. Then quietly he says, "I see you."*

But with their pasts dragging them down, and their futures a huge big question mark, there is a lot that they have to work through - and I loved every minute of it! I didn't even mind the obligatory angsty bit because it adds to the intensity of it all, and I could understand exactly where both of them were coming from. And, of course, the resolution was gorgeous!

*"Real love isn't something you plan or earn, it's something that just hits you – like a bolt of lightning – and changes you forever."*

With chapters written in alternating POV, we get to know Kayla and Daren intimately, and as the events of the past are slowly revealed, I came to love them more and more. I also love the way that Kayla's father became a part of the story, even after his death. It's so beautifully done (and a little tear-inducing), and I thought the whole thing was really cleverly put together.

I loved this book! Told with Chelsea Fine's usual fun and humour, there were a lot of laughs, but also a beautifully told story of two very deserving people who manage to find something very special together.

I can't wait for the next book.

4.5 stars

### **"3 Handcuffed Stars"**

Best Kind of Broken was my first book by Chelsea Fine and I really liked it! I've been looking forward to Daren's story and was so excited when I finally got a copy. The beginning of this book reminded me of Truly Madly Yours by Rachel Gibson, which isn't a bad thing because it's probably my favoritest book ever (I've read it about 7 times). Kayla has returned back home to her father's funeral. A father who hasn't spoken to Kayla in years and who Kayla wasn't even aware was sick. If it weren't for the fact that Kayla is broke, on her own and practically homeless, she might not have even come to his funeral. But when she finds out that he left her something in his will, she doesn't really have any other options so she decides to stay

until she gets her inheritance. Unfortunately, getting it means having to spend time with playboy Daren who was more of a son to Kayla's dad. Daren loved and looked up to Kayla's dad and can't understand how Kayla couldn't even come to visit her dad when he was dying. They both have their minds made up about each other and don't really like each other. Too bad they have to spend the next few days handcuffed to each other while they search for clues left to them about the inheritance. I loved the concept for this book! Having Daren and Kayla handcuffed to each other while they don't like each other (but are very much attracted to each other) was a lot of fun to read about.

**He's cocky but wounded, charming but lonely, with the sureness of a wealthy man and the desperation of a pauper. I can't figure him out, but one thing is certain. Daren is not as tough or undamaged as he lets on**

I liked this book, not as much as I liked Best Kind of Broken, but I still really enjoyed it. But, there was something that kept me from loving it. Apparently, Kayla has a rocking body and she's super pretty and according to her 'all girls hate her because they are jealous of how pretty she is' and/or 'all guys only look at her like a piece of meat because of how pretty she is.' This came off as kind of conceited to me, but oh well. It was also weird how she complained about how people judged her based on her looks...but then she does the same thing to Daren.

**"I'm willing to rub tongues all day if that's what it takes. Hell, I'll tongue you all night if it'll get me off your Stranger Shit List."**

What bothered me the most was how much she mentions this throughout the book. I was like: I get it Kayla! You're super hot and it's made your life really hard because of this! Daren had a weird attitude too. Since his parents never really cared about him or had time for him growing up, he gets it into his head that the only thing he's good for is sex, hence the manwhore thing...okay? The fact that these things played a pretty big role in the book (or way more than I would have liked) annoyed me. Another thing that bothered me was a few details about the whole handcuff situation. If you know me, you know that I can't help but think about the weirdest shit when reading books. I can't help it! Daren and Kayla are handcuffed together for a few days (I want to say at least 3 or 4 days) and while the shower situation is addressed (they shower in their undies), the bathroom situation is never mentioned! Daren briefly mentions once the cuffs are off that he's happy he can pee in private...but what about when they have to go number 2??? Did they really go 3 days without crapping??? When they first got cuffed together, my first thought was 'oh how embarrassing, they have to use the restroom in front (or right next) to each other.' I warned you I think of the weirdest things...there's something wrong with me.

My Fav Quotes From This Book:

**He leans in a bit so our faces are just an inch apart and sinks his eyes deep into mine. Then quietly he says, "I see you."**

**"You're both inverted diamonds in the rough; polished on the outside, cracked and raw within. But priceless just the same."**

Perfect Kind of Trouble was a fun book. It was cute and sexy and I loved seeing Daren and Kayla really find out who the other person really is. Although I would have loved to see more of Pixie and Levi, I was happy that we got to see more of Pixie's aunt and I loved the role she played in this book. I enjoyed this one and I'm looking forward to reading the next book!!

---

**Lisa (Remarkablylisa) says**

okay not gonna lie I got into maybe 3 chapters into it and DNF and debated whether or not I should continue or even add this to my shelf but the premise that two people would have to be handcuffed to each other to get a letter from her deceased father seems a little far fetched lol ill pass on this story

---

**Julia Kai says**

I really enjoyed reading this book. It was a random pick so I was really surprised by the story. Loved Darren and Kayla. Hated her mom. Loved her dad

---
