One Demon.

One Angel.

One Soul.

Josh lived a reckless, selfish life, so upon his death, escaping the eternal torments of Hell by assuming the role of a powerful, soul-corrupting demon is an easy choice. His first soul assignment doesn't seem too hard: the mortal Camden is already obsessed with weapons, pain, and torture. If only Josh wasn't distracted by Cam's beautiful friend, Grace.

Grace never expected to die violently at age sixteen, but now she's an Angel, responsible for saving a soul. She can already see past Camden's earthly flaws, so the job should be easy. If only that handsome, playboy Josh would stop getting in the way.

It's forbidden for an Angel to be with a Demon, so if Josh and Grace stop resisting each other, the results would be disastrous.

And only one can claim Cam's soul.

**Anna Luce says**

**Rating: 1 Star**

**DFN at 20%**

**This book was many shades of awful.**

Soul Crossed is about a Josh and Grace waking up respectively in Hell and Heaven. They will be both given a mission, Josh will have to corrupt the same soul Grace is supposed to save. I immediately disliked the complete lack of a realistic behavior in both protagonists. They both sound flat and monotone. Within the first chapter they accept the fact that they are dead, without ever thinking about their families and friends.

The lack of world building was also vaguely irritating and off putting. We get very little explanations on how both Hell and Heaven work and why are Josh and Grace chosen for this mission. Also we know nothing about the two protagonists other than *he's bad* and *she's good*. It reminds of a really poorly written bad version of Sweet Evil,

**The setting was juvenile and ridiculous:<**

But most of my time is spent in the classroom, learning how to save souls and use my Angelic Powers for good.

And the impeding **insta-love** was the cherry on the top:

That's no name for a Demon. I guess Josh isn't either, but it's better than Grace. Still I can feel undeniable magnetism between us. I wonder what my new enhanced senses will do for me in bed.

I want her completely. I want her to give in to me in every way, not because I hypnotized her. It's a little unnerving how much I want her, but I figure it's got to be the challenge.

Josh is fun to be with. He flirts with everything with breasts, but I suspect it has more to do with his need for acceptance and love than anything else.

### **And this is all within the first 20% of Soul Crossed.**

Take my advice, don't waste any time on this.

### **First Thoughts**

I'm feeling a wide range of emotions based on what I've just read. **Contentedness:** because you **KNOW** a book is good when you want to laugh with glee, hug a pillow and cry, and throw it across the room throughout reading it. **Sorrow:** because I always expect good to conquer evil, but it didn't quite happen this way in *Soul Crossed*. **Rage:** because of what happened to Tommy #2, the dog. I'm **NEVER** going to get over that. **EVER**. **Confusion:** because I questioned why Heaven wanted to claim Cam's soul. How could he ever redeem himself after everything he did? **Giddiness:** because of the sexy, forbidden romance between an Angel and a Demon.

So many feels, guys!

### **What I Enjoyed**

**Josh.** I'm quite pleased with the last chapters of *Soul Crossed*. So many times while reading Josh's POV, I'd shake my head and say to myself, "How the heck did Josh end up a Demon in Hell?" A real Demon would never fall in love with an Angel and make sacrifices to protect her! I get that Josh's actions as a human were reckless and Hell-worthy (**drunk-driving is NEVER ok!**), but I feel he redeemed himself after death. It's hard to hate on him for that.

**The forbidden romance aspect.** I know it's been done before, an Angel and a Demon falling in love, but *Soul Crossed* was different in that the Angel and Demon were each trying to claim the **same human's soul**. It was hard to root for one against the other because they each had so much at stake. Grace wanted to **earn her wings** to be able to visit the family she missed so much and Josh had to earn the benefit of **avoiding eternal torture**.

### **A Quick Rant About Cam**

I HATED Cam *so much*. He did something **HORRIBLE** when he was younger and you think he was just a kid and didn't know better, but no! You find out he knew exactly what he was doing and he even laughed like a **maniac** after! He trapped squirrels and rabbits to practice **killing them** with arrows! **Sadistic a\*\*hole**. When he upgraded to stray cats, I started to feel an **uneasiness** in my gut. When a particular scene portrayed Josh burying a stray dog Cam had tortured and killed, I howled with grief. **No No NO, EFF NO! I LOVE** dogs. **MY DOG** is my *LIFE*. **I HATE** people who torture animals. When Grace gifted Tommy #2, a stray dog, to Cam, I wanted to jump into the book and **slap her silly**. I hate him. I hate him with a passion. Credit to Lisa Gail Green for invoking my rage. Her writing was that good. **Too good** when it came to evil Cam.

Cam, you make me want to puke.

\*I received an ARC via Netgalley in exchange for an honest review\*

From the cover, you'd think this is one more fluffy angel/demon romance to add to the pile. I sure did think so, but this was one of those times I was pleased to be wrong.

There's something dark about the plot that makes it spicy, and I was actually very surprised to see this kind of story line, since most of this sort of books don't dare dwindle too much in the religious aspects for fear of messing it up somehow.

This story was daring in that sense. There were elements that surprised me, and others, did not. But the ones that did were quite amazing. I've seen there is a second book, but... I think this one wrapped things up pretty nicely. I'm content with this ending and if I pick up the second one, it'll be in a long while.

### **Dana says**

*Sigh.* I should have guessed from the cover, but apparently I am a glutton for punishment. This book...where do I start? How about our amazing MC? She is ditzy, naive and frankly a really shitty Angel. She spends more time lustng after a boys than saving souls. Josh was okay, his position was more understandable and

Cam was well done in how freakin creepy he was.

The ending was extremely predictable though, and the insta-love induced a lot of eye rolling. Trusting two newbies with the fate of the world was also ridiculous and didn't make sense. Would there not be billions of better candidates for the job? There also seemed to be some convenient holes in the story, but at that point who really cares. I had a lot of issues with this story, but despite my eye rolling it did have an okay concept, the pacing was good and I wasn't bored while reading this, so... all things considered...

### **Taylor Knight says**

I knew from the second that I seen the cover of Soul Crossed that I would love this book. I love the colors and the font. It a really pretty cover! However, I didn't love this book like I thought I would.

Soul Crossed is about a boy named Josh who lived his life recklessly and wasn't the nicest person and a girl named Grace who died violently when she was sixteen. When Josh dies he becomes a demon and when Grace dies, she becomes an angel. They both are sent on a mission to claim the soul of a kid named Camden who's basically the Antichrist.

Soul Crossed started out really great. For the first 14% of the book, I loved it. Green painted a really cool picture of Hell and her writing style is so addicting! I couldn't put this book down at first. This is such an easy read and I was so curious to see what would happen next.

Sadly, at about 16% into this book, things started to fall apart. The characters weren't making any sense and the plot crumbled into a muddled mess. Josh was never a likable character but he became a really mean boy. He degraded every female he seen and he was so misogynistic towards Grace. One thing that bugged me a lot he how he would order food for Grace. Like, she would be sitting right there and he would just order without asking what she wanted. As if she couldn't do it on her own. He would say things like she's "such a blonde". Granted, Grace isn't the smartest character in the world but Josh made it seem like because she's a girl, she dumb and not worthy.

Grace wasn't all that great either. She wasn't a strong female character at all. She was sometimes so dumb and she couldn't see what was right in front of her face. She wasn't an empowering female character at all.

The "connection" between Grace and Josh was so stupid. One page they were just acquaintances and the next page, Grace was in love with him. I'm not even kidding. Green just put in a little "It's been almost three weeks" and boom. Grace loves Josh. And there is nothing that Grace talked about loving more than Josh's looks. No qualities that he had, just his looks. It was pure physical attraction and nothing more.

So much was skipped over and not explained. The plot was perfectly fine for the first %14 and then it was so rushed. The writing started to become like a draft and not the finished book. Nothing was making any sense to me. And by 31%, I was so done with the characters and plot. I was trying to push though to find out how it

ended because I was really curious but when Camden became a completely different character out of the blue, I just couldn't carry on.

Overall, I was disappointed by how this turned out. I really wish the characters had more depth and were better written. I'm still reeling over how Josh ordered for Grace (it really made me angry). I did love this book for the first 14%, I really did. But it went down hill so suddenly. I'm always looking for great female characters that showcase great qualities and male characters that are empowering to the female counterparts. Grace and Josh just didn't do any of that.

### **Aneta Bak says**

**"I think evil isn't so cut and dry. Sometimes it wears the face of a friend or an average person. That's what makes it so insidious."**

She was killed by a drunk driver. Sent to heaven, Grace has been given the chance to become an angel, but first she must save Camen's soul, the boy who just might be the antichrist.

Josh was the drunk driver that killed Grace, and ultimately killed himself in the process. Sent to hell, Lucifer gives him the choice of eternal torment, or helping him turn Camden to the dark side.

Angels aren't meant to fall in love with demons, especially ones who killed them in their previous life.

Soul Crossed is a very fast and easy read. While it doesn't take much to get into the book, the book itself is very predictable.

I really wish I could have liked this book more, it definitely had the potential because the storyline is very creative. Yet I didn't like any of the characters, and I predicted everything that happened in the book.

Grace is a very sweet and pretty girl. I loved how she was so nice and helpful, but she was also very naive, and an idiot at times. She just kept making mistakes after mistakes, its like she wasn't even focused on her mission half the time, which made me really mad.

I wasn't a fan of Josh as well, he was supposed to be this tough yet broken guy because of his father, but all we hear from him is "wow it sucks I'm a demon" and "Damn I wanna do that Grace girl." His part of the book was just boring.

And the only thing I have to say about Camden was that he is super creepy!

Of course the romance in this book was insta love. And it wasn't even the cute insta love where you're rooting for the couple to be together. No, this was the - I wanna barf - type of insta love. Of course they're attracted to each other right from the beginning, and then they think they're soul mates and care more about each other than the mission they were sent on. Seriously open your eyes people, you're already dead!

Overall, it had potential, but the crappy romance and characters ruined it. If you decide to give this book a try, I hope you like it more than I did.

Happy Reading,  
- Aneta

I've loved this ever since I read it years ago. Like all of Lisa's ideas, this one takes something we think we know and twists it until it becomes something entirely different, something with originality, humor, and devilishly sly tweaks of the tropes. Lisa takes the battle for a soul to a different and hellish dimension here! A fun, fast, and engaging read!

Soul Crossed is the story about Josh and Grace trying to complete a really hard task. When Josh died, he became a demon; when Grace died she became an angel and now they've crossed paths in a unique way. Josh has to help Cam, their human mission, to become the anti-Christ, Grace has to stop it at all costs. Both of them befriend Cam and just do what normal people do: hang out.

Will Josh succeed or Grace will win? Now that they know each other, will there be an forbidden attraction? Love? Is Josh more good than evil? Will Grace surrender?

Oh my god, do NOT let this book fool you. I might seem kinda cheese, the angel/demon cliché thing but it was *reaaaally* good. I absolutely loved Josh, for real. Gimme all the hot, tortured soul guys.

This book was way darker than what I was expecting and it was great, I loved all the characters and how they interacted with each other and how they evolved from the very first time we saw them to the very end of the book.

I was waiting for an angel/demon story that could get me in the mood for those kind of books again, and this one just did it.

Grace and Josh were really good and I loved the way Green wrote them but can we talk about Cam?

F\*cking guy had issues. I mean, he was beyond disturbing. Like, I needed to stop reading about him but at the same time I couldn't stop doing it. When he was with Josh they did bad things, like creepy evil things that were too much even to Josh and when he was with Grace they went to churches and all of that but damn boy was creepy but it made kind of sense, considering the kind of childhood he had but still.

Anyhow, I love happy endings and the things he sacrificed for Grace... cute as hell. I mean, Josh wasn't that evil anyways so it made sense Grace falling for him.

Cute book, for real.

If you're looking for a cute romance with tons of angst and a creepy character, you should really read this one.

PS: This book comes out on my birthday. YAY!!

### **SHORT REVIEW:**

"Not everyone has your charm, your quick wit, or your looks. You'd be surprised how many things people will do for someone as handsome as you."

This book frustrated me so much. Is it my fault that the gorgeous cover and that blurb made me to expect so much? IS IT MY FAULT? Okay, I finished this book. But this will be short and I'll say what's wrong: **EVERYTHING.**

No world building.

Awful characters.

Nonsense plot.

Romance that makes me wanna barf.

Instalove gone wrong (they're never right tbh)

And this thing that bugged me so much:

"I know I'm a Demon but that's just wrong"

**DUDE, YOU'RE A DEMON! A DEMON. DEMON MEANS BAD AND EVIL.**

"Why is it my business if he wants to hook up with some slut?"

**OOOH, LOOK AT THIS GIRL BEING AN ANGEL AND EVERYTHING.**

And lastly..

"He's my soul mate," I say. I know it sounds childish, but in our case it's true. Our souls are connected."

That's it. I'm out.

#### **Rating: 5 Stars**

#### **My Opinion Of This Book: LOVED THIS. IT'S SO AMAZING. READ IT, READ IT!**

---

Okay, so where to start? THAT COVER. It's beautiful, gorgeous, and amazing. But what's even better than a nice cover that looks absolutely incredible on your shelf? When the content inside of it is so breathtakingly amazing, and that's exactly the case with *Soul Crossed*. I know you guys may be skeptical about picking this up because it sounds like your typical book on angels and demons, but it's so much different. Trust me, Lisa Gail Green sure knows how to put her own little unique twists into a book.

#### **THE GOOD.**

##### **●The Plot/Storyline: DEMONS. ANGELS. HELL. HEAVEN.**

The plot was so good and fast-paced! I love that Lisa isn't afraid to add in those sickening moments (I was so disgusted by some of the things Cam did). The darkness of it all just makes the story so much more interesting and real.

**●Josh:** I'm so happy and proud because of all the character growth he went through by the end of the book. I was there thinking: *wait, how did he ever end up as a Demon?* He made mistakes before he died, and in the novel, but in the end it was like he redeemed himself. He learned and made all these sacrifices. If I had to pick my favorite character from this book, it'd definitely be him. He's totally book boyfriend worthy, just sayin'.

**●Grace:** Grace was a great character. She's smart, determined, and nice. I loved how much she wanted to change people to be good, and how encouraging she was.

**●Cam:** Okay, so I absolutely hate Cam. He's sick, heartless, and just....he disgusts me. But bravo to Lisa for creating the perfect villain. Cam is without a doubt evil.

**●Forbidden Romance:** Yes, it's been done before, it's nothing new. But this one was different and unique because both the angel and demon are trying to claim the same soul. It drove me crazy on who I should root for! I mean, they both had an amazing reason for what they were doing. Josh didn't want to suffer eternal torture. Grace wanted to earn her wings. Who to root for? Who to root for?

**●The Writing:** Absolutely flawless. I applaud you, Lisa. It was so descriptive and sucked me into the story

from page one. Lisa is most definitely one of my favorite authors.

●**The Ending:** A few words: SO RAD AND AMAZING. And don't even get me started on that sneak peak to the sequel! I'm dying to get my hands on it!

### **OVERALL.**

*Soul Crossed* definitely has to be my favorite read of the year so far. And I cannot stress it enough that you guys really should give this one a shot!!

---

### **Kelly (Diva Booknerd) says**

Torturing animals is not on with me, fictional or otherwise. I can understand the need to paint Camden as psychotic and evil, but I can't continue. DNF.

### **Cassie says**

#### **Initial Review:**

Ok, so it improved somewhat towards the end, once all the characters were on the same page, but until then it was just frustrating.

Full review can also be found [here](#)

#### **The Short Version:**

I was expecting something awesomely amazing.

I didn't get it.

#### **Warning: The Long Version may contain spoilers**

#### **The Long Version:**

Ok, I had some serious problems with this book.

##### **1. The pacing**

It felt like every single chapter took place a few weeks after the previous chapter. It felt like getting random snapshots of the story, without being given the whole thing. It made it very difficult to get to know the characters when we only seemed to check in on them at random intervals.

##### **2. The 'romance'**

So, Josh seems to fancy himself in love with Grace, all the while, he's still planning on using her to damn the soul of this other guy, end the world, and hopefully cause her to fall.

Yeah, that's love.

### 3. The character's in general

So...Josh decides to become a demon and has to go corrupt this kid into becoming the ultimate evil, and then he gets disturbed when this kid who he is hoping will become the ultimate evil kills animals.

Like...seriously? What did you think the ultimate evil looked like, Josh?

And Grace seemed like a bit of an idiot. Not that I got to know her (or Josh) very well because, as I said above, the pacing was ridiculous.

So...did I enjoy anything?

The ending. Once all the characters were on the same page with who was what and who was damning who I found the story improved immensely. It helped that the story became more evenly paced and less 'a few weeks later' at the start of every chapter.

Also the characters seemed to get a fair bit smarter.

However, that was not until the last 20%. The first 80% was horribly frustrating and annoying.

### **In Conclusion:**

The ending almost made up for the annoyingness of the rest of it...Almost. But not quite.

Book Review originally published here: <http://www.iheartreading.net/mini-rev...>

I loved the cover – seriously, how gorgeous is it – and so I wanted to give this book a shot. Uhm. Well, it didn't turn out the way I expected at all. There's insta-love (I hate insta-love), the main character is a total Mary Sue, the ending is predictable, the characters are mostly egocentric and their "love" isn't real love at all, and the first few chapters consist of several time jumps, which makes it impossible to connect to the characters. Wouldn't recommend.

### **Kim at Divergent Gryffindor says**

#### **Actual rating: 3.5 stars**

I had a mini debate in my head while deciding whether to join the book tour for this on or not, but I'm glad that my curiosity got the better of me because I enjoyed it.

Soul Crossed is about an Angel and a Demon both assigned to the same person, Camden, a man who is capable of causing the apocalypse. As time goes by, Josh and Grace get feelings for each other, but a love between an Angel and a Demon is forbidden, for obvious reasons.

Soul Crossed is the most unique apocalypse book that I've ever read mainly because it's not that dark. It's a

pretty light read, and I found myself enjoying it well enough. I really liked how the story went and ended, and I liked the twist near the end.

On the other hand, what I didn't like about this book was that I felt like there was something missing, but I just can't point it out. Also, there were some grammatical errors here and there. For example, "put if off" instead of "put it off." Another is "You're girlfriend finding out" instead of "Your girlfriend." One more thing that I didn't like was the inconsistency of the information whereby for the most parts it said that Keira was 350 years old, but there was one part where it said that she was 250.

Overall, this book was a pretty enjoyable read in terms of the story, but there were small errors here and there. Although I think that those will be quite easy to fix.

(Source: I received a digital copy of this book for free on a read-to-review basis. Thanks to Lisa Gail Green, Full Fathom Five, and NetGalley.)

***“Inside this boy,” Ms. A. says, “is the ability to destroy everything you know on Earth. But it doesn’t have to be that way. You can save him, Grace. You can save the world.”***

This was a YA paranormal romance with angels and demons!

I liked both Grace and Josh in this story, although Josh did seem a little misguided at points. It seemed a bit unfair that he had ended up in the position he was in, and he didn't seem as evil as you would have expected from someone in his place.

***“The point is that you must claim his soul for me. I’ll worry about the rest.”***

The storyline in this was good, and there were some twists that I didn't see coming, which really surprised me! I really wasn't expecting the twists to be so good!

***“There is no undoing what happened. Choices were made. People were hurt. All we can do now is make the best of the situation.”***

The romance was good, and I thought that Josh and Grace were really cute together, even if things were complicated a bit by Cam.

***“Electricity zaps through my palms and up my arms, sending a thrill through my entire body. Now that we’ve connected, I can’t let go.”***

The ending to this was good, and it will be interesting to see what happens in book 2!
