## **The Pixie & The Prince** Charity Parkerson

Be careful what you wish for, or better yet, what you allow your friends to wish for.

As Samuel the Dark's ward, Tam the Pixie is living in the mortal realm under the watchful eye of her guardian angel, Thomas. However, when she gives Thomas one free wish, she never expects that he'll use it to turn her life upside down.

Chained to the side of an ex-lover and trapped in the Mirror lands, Tam will have to come to terms with their past in order to break the curse.

In Bestselling Author Charity Parkerson's second installment of the "Sexy Witches" series, there will be secrets revealed and wishes fulfilled; so don't miss out.

### **NhaughtyV says Damn the Zon Save the Reviews says**

Why did I wait so long to discover this series by Charity Parkerson? Oh I knew her M/M romances were off the hook smexxy, but sexy witches? Dang! Why should you read this? Oh let me tell you! The setting is in New Orleans!! Not enough? Ok, how about verra sexy witches (duh!), fallen angels, Death, the Big Bad King of Hell, and a pet zombie that turns out to be a verra sexy...What? You think I'm gonna spoil it? READ the book!

I did not want this to end! Five plus stars! LOVED it! Highly recommend!

### **Sheryl Seal says**

The Pixie & The Prince by Charity Parkerson is another Awesome read that I thoroughly enjoyed. Tam is a spunky and hilarious pixie and if you read the first in this series, The Sexy and the Undead, you will definitely want to read this one.

We find out more about Tam and it is very creative and enjoyable. Her love affair with Freddie is very fun and there is more steamy romance for the readers.

I thought the Mirror World was inventive and here we learn about the romance of Katrina and Thomas and many secrets come to light.

We are introduced to another great character that I loved, Sigurd. I found him to be very loyal and quite amusing.

I think Charity's uncanny sense to develop wonderful characters that readers fall in love with right from the start of her books is why we all want more. There are more surprises in store for the reader and I liked this well written story-line.

5 stars

### **April says**

The great thing about this book is it is two romances for the price of one. The stories are interconnected and really kind of sweet. I was thrilled to get the HEA for Tam and Freddie!

The story has several POV, all the mixed narrative is key for understanding everything. The romances are mostly sweet, there is a bit of smexy detail.

I listened to the audiobook narrated by Hollie Jackson, who does a great job with all the voices. I enjoyed her pace and tone throughout the read. Definitely one I would like to hear again.

There is a fair share of mythology mixed into this series. I really would like the books to be longer and the world to be a but more fleshed out. They are very intriguing and have huge potential.

Disclosure - I received a copy of this book in exchange for an honest review. All thoughts, opinions and ratings are my own.

### **M.E. Franco says**

What an absolutely fun book. I couldn't wait to read Tam and Freddie's story after finishing The Sexy and The Undead. I loved Tam's character, so I was looking forward to this book. I was not disappointed. Tam and Freddie's story was packed with hot romance and humor, and I enjoyed the twist with Thomas as well. I am quickly becoming a huge fan of this series and cannot wait to read more.

### **Julia says**

"The Pixie and the Prince" is the second book in Charity Parkerson's "Sexy Witches" series. The focus of this story mainly shifts to the relationship between pixie Tam and zombie Freddie. Even though I'm usually not a big fan of supernatural romance, I really enjoy Charity Parkerson's stories: her characters, no matter who they are, are entertaining, engaging, and realistic; her plots are filled with surprises and unexpected twists; and her sense of humor surfaces through the voices of her characters, especially Tam in this particular book.

The relationship between Thomas and Katrina, while not central to the story, is integrated well with Tam and Freddie's story, and Thomas presents a nice contrast to Tam - serious vs. funny.

Tam has her opinions about everything and is not shy to express them, such as "babies are very wet" or "Thomas isn't a person; he's even better." Under what circumstances were those lines spoken? Very unusual ones, but you'll have to find out for yourself.

I loved all the Mirror lands adventures, too. A wonderful story!

### **Kim says**

I loved this story, I'm reading the series a little out of order, but that's my usual, lol. I love Tam, a pixie with attitude! She thought Freddie her best friend was also her prince, until he went thru the mirror and left her. There's times when I wanted to shake a character and times I wanted to cry. There are steamy scenes of course, you can't have a sexy pixie and unreal looking gods without a little sexiness. Charity holds my attention with all her books. This series is fantastic.. There's also Thomas a gorgeous guardian angel, wait till you read how he fits in this series. If I keep going, I'll give it away, so go get your own! Thank you!

### **Helle Gade says**

I received an ARC of this book.

The "Sexy Witches" series continues with Tam's story which I have been looking forward to since I love Tam.

This is two stories woven into one; it is both Tam and Thomas's story. The story twist and turn into a huge surprise ending that left me with happy tears in my eyes. This book has it all, love, pain, surprises and a dash of erotica. I always love a good book where the gods come out to play.

I'm so looking forward to the third book in the "Sexy Witches" series.

I just reread this story. I loved it as much as I did the first time in 2013.

### **Miku says**

I hadn't actually read the 2nd book and jumped to this book mainly because of Tam the Pixie and Thomas the once zombie and the actual brother of Ella and a real prince in the mirror world. I just had loved this character from the very beginning of the story when they were in *The Sexy and the Undead*.

There were some huge turn of events in the story regarding Tam's life. The side story about the secondary characters in the story were also well written. It was worth the time and money. Glad to had read it. Just wished that the cover would be more like the first one.

### **Edenmary Black says**

*The Pixie & The Prince* is the second book in the *Sexy Witches* series and is as enjoyable as *The Sexy & The Undead*. In *The Pixie & The Prince*, readers will be delighted to find Tam and Freddie's story, along with Katrina and Thomas. In this author's hands, they're all on a winding road, filled with surprises. Some parts of the story will tug the heart and others are hilarious. The contrast makes the book a page-turner, filled with laughs as well as sighs. There is a lovely revelation near the end, which offers a unique look into how fate moves us all. Highly entertaining. Recommended to those who are looking for a sexy love story, with a hot shot of the paranormal.

### **Becca Wickedly Sweet & Synful Book Blog says**

THE PIXIE & THE PRINCE

Well that took an expected turn! Love when a book can shock and surprise me!

---

### **Jams Roses says**

In book two of the "Sexy Witches", the story continues with Freddie and Tam as the main characters this time around. Now that Freddie's curse has been lifted, a secret separates the new couple, and Freddie returns to the mirror lands.

Tam's guardian angel, Thomas, makes a wish that sends Tam—willing or not—to Freddie's side. Both Thomas and Tam are forced to face their problems in this part of the series and as usual, they end up in a crazy mess.

When Tam is involved things are always funny, but this book was a bit more serious than the last. Great

read. I'm off to get the next one.

---

### **Christoph Fischer says**

"The Pixie and the Prince (Sexy Witches)" by Charity Parkerson is the third instalment of the series. This time the focus is on former Zombie Freddie and Pixie Tam.

Once again Parkerson weaves supernatural elements into an entertaining romance story, a blend that works very well especially since she writes such unique, strong and likeable characters.

An excellent play on the theme of a wish fulfilled - 'mirroring' the previously cursed Freddie, this story runs deeper than previous ones but is entertaining as all of Parkerson's work.

### **Roy Murry says**

THE PIXIE  
and the PRINCE

CHARITY PARKERSON

Reviewed by Roy Murry, Author

If you love consensual sex, this gem you will enjoy. This short story will keep you in suspense and then laughing with joy - no dirt here, just fun.

Fantasy is a significant part of this minuet of love. People of one world are fantasizing about lovers in another. When it reaches the climax, all are happy.

The lead up to encounters is teasing to the reader, which I enjoyed. Ms. Parkerson has a way with words that excite a PIXIE into action and will stimulate the reader.
