Touch Me

Jenika Snow

Touch Me Jenika Snow

Since her father's passing, Freya feels alone, so when she turns eighteen she leaves everything behind. But she'll miss Elijah, a man she shouldn't want because of who he is.

Elijah lived under the same roof as Freya for three years. He was married to Meghan, a woman who, at one time, was in a relationship with Freya's father, and it made things hard and tense.

But now four years have passed, and Elijah's no longer married. He's successful and far wealthier than he ever imagined. When Freya comes back to town after graduating college Elijah instantly feels an attraction for her.

He wants Freya with an intensity he can't explain. She's beautiful, smart, and the level of arousal he has makes him feel as if he's crossing a line. But Elijah's determined to have Freya, and he'll show her that being together doesn't have to be wrong.

Elijah will show Freya she belongs with him.

Nanci **WarningIWASASailor??MyMouthisDirty says**

I know when I read Jenika Snow it's a hit or miss. Personally this one sucked. The sex scenes which are usually her saving grace where stupid and juvenile. A lot of heavy petting. Snoozeville.

The h was dull and immature. She was 22 but acted 17. I did like the H. He was ok. At times he was a wennie. Like he was too desperate for the h attention.

Charity says

Not my favorite Jenika Snow book unfortunately

Too repetitive-constantly saying the same things over and over. I also felt the taboo factor wasn't actually that taboo, they just kept mentioning it over and over. If there would have been a scandal, if the Ex would have went to the papers with their sordid love affair-then it would have felt more taboo.

I just wasn't feeling this story. The characters just didn't click for me and I found myself skimming or zoning out and thinking about other things.

I may just have to stick with Jenika's biker men---she does those perfectly!

Exquisite Reviews says

This is the first time I have read a taboo type story and this type of storyline. In all honesty i'm not sure how I feel about it. My major hang up was the constant talking about the stepmother/ex-wife. It felt repetitive and as a reader I got the story without having to be reminded of the plot. I didn't think it added value to the story and it took away from their relationship.

With that being said taking the whole taboo subject away from the story. I can say that this was a well written love story. The sex was hot but the characters felt a little disconnected and rushed at times. I will say that I am still on the fence when it comes to taboo stories but will keep an open mind for future stories.

K.L. Donn says

I love this book!! I love the way it started when Freya was 15, how she felt, going through the motions of what was going on. How Immediately her and Elijah clicked....

Fast forward a few years... Then a few more years... And they meet again... Only this time there's not just affection but off the chains chemistry!!

Yes this book is taboo, yes he was married to her step mom, no there are no comparisons between the two. I loved how protective and possessive he was of Freya, they were to pieces to a whole! I loved it and I think you will too!!

5 hot stars from NADBB!!

Confessions_of_a_Serial_Reader says

This book really makes you look at the question: Is there REALLY that one person your pre-destined to be with, regardless of everything that says other wise?

Elijah and Freya's story is a perfect example. They both struggle w/ the question of whether or not a relationship would be considered wrong or awkward given they're history. Absolutely not. I believe that history or not, when they saw each other for the first time after all those years, that they're fates lined up in that oh so perfect way.

This really was a great story. A true romance w/ a little bit of that Jenika magic. The erotic build up was also very refreshing. The whole story from top to bottom really meshed well.

Well done once again, Jenika.

Abigail says

If you are not grosse out with stepdaddys love, go for it if so really the plot does not says a lot about ther step situacion, so older ex step dad falls for exstep kid, selfish bad stepmom cuz the kids parents are dead.... in the start its kind a small part, and then the fall with each other and HEA

The TBR Pile *Book review site* says

The author wrote in tons of emotions to go with the actions on each page so I really felt right along with them, especially Freya. Full Review: <http://thetbrpile.weebly.com/reviews/...>

Georgina Parkin says

This books Goodreads genre tags are contemporary romance and romance.... Since when is a book with an epilogue that's anal sex and a marriage proposal romance? Dear Lordy. I would say it's erotica, but there's only like two and a half to three sex scenes if you add them all up (first is heavy kissing which I count as a quarter, second is dry humping so half I guess, third is a full sex scene and the fourth is the anal). But all the scenes in regulars to the length of the short book aren't really that long. It's not a substantial amount. It IS kind of more on the 'romance' you could say, but it's also not at all because the first 50% is scenes from the past or her talking to friends and moving home.

To me, I didn't like it. The sex scenes were basic, kind of things I see in either all romance/eroticas or all Jenika snow books. I don't think Maurice's character was even needed at all. Like, use him for a jealousy thing or something! Or the friend at the start, she was basically just a drive home. I don't know, nothing was really necessary half the time and I spent a lot of time forcing myself not to skim anything and actually read it. So no, not for me.

Maura says

Taboo smut about a girl and her stepmother's ex-husband. Years after they'd lived together when she was a teen, they meet up again and fall in lust/love. The sex was hot. Very drawn out, lengthy and graphic. Smut. The characters were fairly cardboard - nothing to make them stand out in any way. Despite the build up to their sexual relationship, it still didn't even feel like they connected to each other or to the reader. The dialogue was mildly irritating - every other page had "I want you." or "You make me so hard/wet." Oh, and nothing quite so romantic as a proposal right after anal sex. Read this for the sex. That's the strength here.

Granger McGingot says

The story may be taboo for some readers, since it's between ex-step father and ex step daughter, but fret not, the love story actually begins after the h is in legal age and the stepfather is single in every humanly possible. The story though, i think it's not even an insta love story. The love and affection between them grows over time, understanding, and compassion. I like the author way to build up the storyline slowly but still keeping intact the lust and sweetness of romance. A great read for us to better understand how such taboo (but not really taboo) love can actually grow and happen to real people. Oh how remarkable the possibility is!!

Maya says

Self note:

Too many time-laps, also h lived with H when he was still married to her step-mother, so she knew he's had

sex with the witch. Just no!

Donna says

Love at first sight? Of course I believe that. And these two prove that no matter what people say, what others think is wrong, , they both even struggled with that themselves but when it's right it's right, no matter what anyone else thinks.

This was pure love, devotion protective, possessiveness, this was thier destiny. This was an amazing love story, sexy as sin and I loved it

Amazing
