**Dirty CEO** Mickey Miller , Holly Dodd

Vince:

LaRosa and MacNamara are two names that don't belong in the same breath. Not unless you want bullets flying through the air, and blood on the floor.

I'm sick of the death and fighting. All that violence? Yeah, I might love it, but it's not good for my bottom line. With Kelly MacNamara's influence, my money, and our fake relationship, the decades-long feud between her family and mine is coming to an end.

I just hadn't expected to become addicted to Kelly's tight little body, come hither eyes, and scorching kisses. She might be a wanna-be actress, but the heat between us is all too real.

Kelly:

As the only daughter of an Irish bigwig, I'm expected to follow in my father's footsteps and take over the family business. But I don't want this life. I have California dreams and a shoestring budget. Truth was, I had zero chance of changing my life. Until Vince LaRosa offered me an out.

His plan? Pose as his girlfriend, smooth over the tension between the Italians and Irish, and then I'll head west to start over with a nice little nest egg compliments of the man himself.

It didn't seem like a big deal to fake it for a few months. He's ruthless as hell and panty-dropping hot. I thought I could handle him and the passion between us. But I was wrong.

Now, not only is my family in jeopardy from Vince's ruthless strategies, but so is my heart.

"This isn't over, Kel. Even if I leave right now, this isn't over. When I call for you, you will come.

Kelly

Vince LaRosa is rich. He's powerful. And he wants to boss me around.

But I'm not about to be tied down.

Not even if I might have fantasized about it...

I'm independent, and I've got big dreams of my own.

And they don't involve being second fiddle to CEO of Chicago.

Vince oozes power and sex appeal.

So what if I can't get him out of my dreams?

That doesn't mean we're meant to be.

But he's relentless in his pursuit.

Maybe just one little taste can't hurt.

Vince

Years ago, I fell in love with a girl I made out with under the high school bleachers.

Her name was Kelly McNamara, and her family hates me.

She doesn't know it, but I never stopped caring about her.

Kelly's family sent her away to college, away from the violence on the South Side of Chicago.

Six years later, she's back in town, and I'm not the man I used to be.

I've seen bloodshed. I've seen war between our families.

But I'll be damned if I'm going to let a little bad blood between the Irish and the Italians stop me from getting what I want: her.

After growing up with the love of your life but not being able to be with her due to the feud that your families have. It's like the Montagues and Capulets all over again, but with a Mafia twist. Lol. Cray Cray right? Well, you have no freaking clue!!!

You have Vince, who is next in line to follow his father's footsteps to run his Empire. Then you have Kelly, who also is expected to follow her father's footsteps with running their family business as well. The feuds between the Italians and Irish becomes too much and unbearable.

At the end of the day, all Vince wants is to finish what he and Kelly started in high school before having his world pulled from under his feet and having to take on his family responsibilities. Vince wants the feuds to come to an end and be able to give him and Kelly a fighting chance. Did they know that it would be so hard to do that? Did they know that they would have to basically pull teeth to get it done?

Not at all. You will have to grab this and read it, and I suggest doing so before Book #2 comes out, because I am so excited to see how that will unfold. One clicker and One hand reader for sure!!!!

???????????

Sooo it took a while to get into this book. First three chapters I was like uggghh. But then I was like "No. Don't give up yet." And I am so glad I didn't. When I read Playing Dirty by Mickey Miller I knew this author was unique. And I always look for uniqueness. When you first read the title you're like....oh ok another CEO story. BUT PLOTWIST. It's totally something different.

Vince De LaRosa is considered to be 'CEO of Chicago'. He is a made man in the Italian Mafia and owns one of the biggest sausage company in the US. But underneath the designer suits he carries blood in his hands. He is also suspected have been the notorious hit man the 'Executioner'. He lives his days as a business man and nights as a Mafia boss. Word has gotten to him that his high school sweetheart has come back to Chicago after being in college. He decides to pay her a visit. Oh, but he knows where he's going he is definitely not welcomed. That doesn't stop him though. Nothing can from wanting to get his hands on the redhead Irish beauty that he's DEFINITELY not supposed to be with. Why because he's Italian and she is Irish. They have a century old history of rivalry. But he's planning on changing that.

Kelly McNamara has returned after being in college to work at the bar that was inherited to her. But she is not happy at all being back. She has dreams of becoming an actress and for that she needs to go to California. Tired of the same old war between the Irish and Italians she wants to get as far away as possible. But when the Italian handsome tall man, Vince, propositions a deal where they stop war and she gets to live her dreams she takes it. One question that she has come to is who to choose. Family or Vince?

This book was filled with really sexy moments, angst, and Romeo/Juliet type of love. I absolutely loved the characters and just about everything. Vince and Kelly's chemistry was too much fire and I couldn't wait for

them to be together. These characters get down right and dirty and I loved it. Definitely smutty. I also loved how Vince always had Kelly model and have a fashion show for him. It was both sexy and sweet. Damn, where is my Vince?

P.S. I'm a UFC fan and there is one character in there who just reminded me so much of a pretty famous fighter right now....His name is Connor McGregor who is Irish. And then there's Connor McGrath who is also Irish. So....was this on purpose? If so I'm sold. I love Connor McGregor and even this Connor McGrath who has similarities to him. Geniuses!!! I really need the next book! And I hope to see more of Vince and Kelly.

Loved every second!! Hot as Hades Romeo and Juliet that I could not put down even if I wanted to!! As always this Author never disappoints, and I always enjoy the alpha males and the strong female leads. Blush worthy, fun, and well worth the read each and every time!! I thank the Author for providing a copy to review!!

First off Love Mickey Miller and his books. Holly is new to me but this book they co-wrote was absolutely incredible. The story line of the Italian Mob and Irish Mafia keeps you on the edge to see what will happen. A story about two families who have been against each other for decades only to realize the Mob son and the Mafia daughter secretly have been crushing on each other for a very long time. Vince who is the head of the Italians has always had a thing for Kelly the daughter of the Mafia Boss. They think they have the perfect idea to try and bring peace between their families only to realize it backfires when their true feelings start to show. "Why, you sound worried about me."

"I'm not. I just don't want to have to hose your blood off the sidewalk."

Loved it! Loved it! Loved it!

I've read pretty much everything Mickey Miller has written - and I've loved them all. But, I have to say, Dirty CEO, co-written with Holly Dodd has got to be my favorite!

Kelly McNamara is back from college and expected to take her place in the family business - one that isn't quite on the up and up. She wants no part of it, and is biding her time until she can leave for California to pursue her real dream. She's tired of the endless rivalry and all-out war of hatred between her Irish family, and the Italians over control and territory. She's mapped out her escape - until the one man that can send her on a detour re-enters her life. Vince LaRosa. With their families at odds, can they finally put the blood-shed

to an end together? Or will they end up as collateral damage in this endless war? When their plan turns a little to real, will it be her heart that ends up in sacrifice? If she's forced to choose, will she choose Vince or her family?

Vince LaRosa is known as the CEO of Chicago. He's got his hands in everything - from businesses, both legitimate and illegal, to politicians and law enforcement. His reputation of ruthlessness precedes him. His one soft spot is her. Kelly McNamara. Friends since they were kids, she was the one that almost WAS the one - and now she's back. He wants her, despite their feuding families. He wants to end this war, and soon. He's had enough. With a plan, can the two of them unite the two families at last? Will he finally be able to get what he's wanted all this time? When Kelly finally realizes what he's done, and how it has destroyed her family, can she ever forgive him?

I really enjoyed these characters. Vince is so bad, but he's so sexy. You can't help but see the man he hopes to become lurking somewhere in there, and how hard he is working to let him out. Kelly is both strong and vulnerable all at the same time. I loved the banter between these two, neither pulling punches, and pushing each other's buttons. And the steam? Holy hotness! I swear, my reading glasses fogged up more than once!!

This was a great story, with great characters, humor, suspense, secrets, love, friendship and more! I highly recommend this one!

This book was so enticing from the very beginning! The story is so much like a modern day Romeo and Juliet that I really loved every minute of it that much more. Kelly and Vince have such an in-depth past that it makes their future so significant. Everything about their story is heart wrenching, but it's all written so well. There are also some VERY hot situations in this book so it really is quite a well rounded book!!

Can I rate more than 5 stars?! Holly and Mickey work beautifully together, this book went along seamlessly from the very beginning until the end. Vince being part of the Italian side and Kelly the Irish you know without a doubt there's going to be trouble when they collide. They agree upon a plan to make peace between the two families but things don't go as smoothly as they thought. This story is hot and sexy but at the same time we're given a love story and so much more and yes I'll say it again SEXY! Two people that were raised completely different have so much of a connection shared. You just want to cheer them on and see them both happy. Kelly learns so much from Vince and there's no doubt that Vince learns quite a bit from Kelly. This was an incredible story and I loved every word of it. Wonderful job to both Holly Dodd and Mickey Miller on your collaboration for this story. I cannot wait for more. This is my unbiased and voluntary review.

I absolutely love this book! I am a huge fan of Mickey and Holly and the fact that they have written this creation together, makes me one happy lady. You would not be able to guess that this book was written by two people as the writing styles are amazingly similar and just flows so well. This is a mafia story like no

other, Vince and Kelly are from opposite sides but come up with a plan to unite the people of Chicago. It all goes well until it doesn't and then what will Vince do to get his Bunny back? These two are absolutely sexy together and I love how truly dirty it all is. Can't wait for the next book in the series. I received an ARC in exchange for an honest and unbiased review.

I received an ARC of this book from Mickey Miller in exchange for an honest review. Thank you Mickey!

This is a love story between two forbidden lovers; enemies. It's a Chicago Irish vs Italian kind of feud, where the Irish Princess falls for the head of the Italian Mafia. Sounds like a fabulous, match-made-in-heaven plan right? Well...

First, the characters needed more depth. The one thing that kept nagging in my mind was "Why do they always say the same thing?" They get quite repetitive, and it gets bothersome at times. In addition, there are some scenes where they act like teenagers, which may work in another setting, but for me, it just didn't fit with their personalities.

Second, I felt as though when Connor dropped THE bomb, Kelly would have reacted a lot worse, but instead, had like a thirty second "moment" and was fine. That didn't sit right with me. I found that throughout the novel, Kelly just acted in odd ways. She would freak out about comparatively small things, and would take huge things in strides. She also never really stuck to her plans - and as someone who plans and sets goals, not going to work for me. Like, why even try to tell herself something, when she clearly won't follow it through.

However, LOVED the concept, and can I say that Connor is my favourite character? He is probably the smartest of them all - surprisingly - and cannot wait to read more about him!

Overall, a few snags for me, but I look forward to what Holly and Mickey have in store for us!

My Review: Vince and Kelly were some interesting characters in which I loved from the very beginning. Their families have been feuding for quite some time and they want to put an end to it in which I don't want to spoil anyone who hasn't read it yet so I won't, but overall I absolutely loved everything about it. Mickey and Holly should work together more often cause their writing styles mesh so well together and I can't wait to see what's up their sleeve next.

#### **Okay**

I couldn't get into it the sex scenes were fantastic but that the only thing I enjoyed too much push and pull. Obviously you like push and pull in a book but this one had too much. Maybe it's just me and you might

want enjoy it so get it if you have Kindle Unlimited to be safe.

### **Natalie The Biblioholic says**

Ooh wee!! This was an interesting blend of sexy and smutty with a plot you can sink your teeth into. As the first book co-authored by Mickey Miller and Holly Dodd in their new series, Windy City Bad Boys, it served to titillate my senses and has me clamoring for more from them.

Like a modern day Romeo and Juliet, Vince LaRosa and Kelly MacNamara knew better. The Irish and the Italians have been out for each other's blood for nearly a century, but these two had had enough of all of the fighting and the dying. So when Vince suggests they pretend to be together in order to unite the two sides, Kelly reluctantly agrees. Neither one of them was prepared for the sizzling chemistry they'd share nor could they predict that their feelings would grow deeper for one another. All in all, their time together made for one heck of a ride.

Although there wasn't an abundance of character depth and some details got lost in the plot, this was a highly entertaining read. Or maybe it was all because of Vince that I enjoyed this story so much. Regardless, it had a bit of everything and as a smut lover, these authors had me covered. I even loved the glimpses I got of a historical Chicago and its infamous gangsters, which helped to make this a worthwhile mafia romance read. I can't wait to read Connor's story!

I voluntarily reviewed a copy of this book (given by the author)...

3.5 Stars

Kelly and Vince are from opposing families and they are basically a modern day Romeo and Juliet.

Possible Spoilers:

It takes a little while to get into the book since it's starts off slow. I wanted to love the book but it was hard to follow Vince and Kelly's plan seeing how they really didn't do anything to promote peace between the families. They started off with a plan to fake a relationship to bring the families together, but all they did was go on dates and there were no conversations between the families to make a truce. Basically the idea was we are dating so now there should be peace which did NOT happen.

I did love the relationship between Vince and Kelly even if it was a little fast and unpredictable with their past.
