Jen says

A gift from my sister.....FUN

Gail says

This one sort of surprised me, I did not expect it to be quite so tasteful and elegant in scope. I recommend it highly.

Iammspam says

I read this book before the raunchiness known as Zane was released to the masses. Unlike erotica circa 2009, these short stories manage to capture the essence of erotic writing: stories with a sexual theme.

Iejones says

An eclectic assort of short story, poem and verse. Sensual, arousing and provocative. For African Americans viewing our sexualized selves free from restraint and stereotype. In Black Erotica we become lovers, loveable, feeling and felt people worthy of intimacy.

Mi Corazon says

I've had this book on my shelf for nearly 20 years. Every so often I go back and read part of it. Classic!

Black Butterfly says

one of my all time faves!

Sunshine Reddick says

I love this work of sensuous poems written about sexuality that is black/brown/golden/cinnamon and more. My favorite is My All Day Sucker. *rolls eyes into my bangs* Loved it! A must own for anyone who loves the sensuous or erotic.

Yvonne says

Something for everyone.

Cina says

I read this book at the end of junior high school when I was really into works of erotic fiction. My goal at that time was to become a erotic novelist so I poured myself into books of the genre. Black Erotica is a collection of sensual works of writing, from poetry to short stories written by a wonderful mosaic of people representing all parts of black culture. It is a great example of how sensual, free, loving black eroticism can be. I owned this book and this was my very first foray into erotica written by black people. I was use to reading books by white writers and their views of eroticism so it was very eye opening for me as an African-American woman. The current erotica in black novels can't hold a candle in my opinion to the way the words in this book were strung together. Not demeaning, far from overly masochist but very sensual.

Arburtha says

I enjoyed the format of the book. All of the poems, letters and stories were noteworthy. Some of them I personally enjoyed more then others but I am very happy that they were all encluded. Do your self a favor and read it..or at least the sections that interest you as how I am very sure that you will find something that stirs your interst!

Eroticnoire says

this book is still probably the best erotic book/anthology i've ever read. sensual, delicate, raw, intellectual, beautiful and classic. It'll never go old, will never become boring. You do not have an erotic book collection unless this book is included.

Elaine says

This is the most amazing anthology of erotica I've ever stumbled across. Okay, that's not saying much at this point in my life, I'm kind of just beginning to stumble across this genre. But let me just say this. This book was put together by African-American Literature Professors. The pieces collected are by writers of EVERY genre out there, and there is poetry, prose, fiction, and more. And they are INCREDIBLE. This book is literary, beautiful, sensual, intelligent and educational. The essays throughout, written on Afro-American issues, Feminism, Inter-racial relations, and Erotica itself are incredibly well-written, poignant and intellectual. I recommend this book to everyone who loves to read!

Christa says

This book covers a gamut of erotic delights from plays, prose, astrology to poetry. It includes beautiful works of arts for gay and straight, from decent to smutty, written by people of color from all over the world and essayists, novelists, and poets. I've read this book so much, the binder is coming off and I haven't completed reading the entire book yet. If you love erotica, you must have this book. And if you're not sure, but want to play with your sensual side, you must have this book.

Kristine says

Hot, Hot, Hot, A modern day classic

Cleo says

This is one of my favorite books of all time. Read it when I was in college and writing my own poetry. This is true literary art and not the smut that is being considered erotica now. Highly recommended.
