## **KING SERIES BUNDLE: The Four Book Set** T.M. Frazier

All four books in the USA today bestselling KING series. King, Tyrant, Lawless, Soulless.

KING: Homeless. Hungry. Desperate.

Doe has no memories of who she is or where she comes from.

A notorious career criminal just released from prison, King is someone you don't want to cross unless you're prepared to pay him back in blood, sweat, sex or a combination of all three.

King's future hangs in the balance. Doe's is written in her past. When they come crashing together, they will have to learn that sometimes in order to hold on, you have to first let go.

TYRANT: I. Remember. Everything.

Only now I wish I didn't.

When the fog is sucked away from my mind like smoke through a vacuum, the truth that has been beyond my reach for months finally reveals itself.

But the relief I thought I would feel never comes, and I'm more afraid now than I was the morning I woke up handcuffed in King's bed.

Because with the truth comes dark secrets I was never meant to know.

I will put the lives of those I love most at risk if I let on that my memory has returned, or if I seek help from the heavily tattooed felon who owns me body and soul.

I don't know if I'm strong enough to resist the magnetic pull toward King that grows stronger every day.

He's already saved me in more ways than one. Now it's my turn to do whatever it takes to save him.

Even if that means marrying someone else...

LAWLESS: She's prim and proper. He's leather and lawless. It will never work between them. It's a lie they almost believe.

SOULLESS: The conclusion to Bear and Thia's epic love story.

# From Reader Review **KING SERIES BUNDLE: The Four Book Set** for online ebook

**Jennifer Lessard** says

**KING**~I was waiting to read these books until they were all released because I don't do well waiting for additional books in a series to release. Well they I heard that they were coming out with a box set so I decided to wait for that. Once the box set came out, I got swamped doing ARC's and have just now gotten around to starting the boxed set. OMG! I expected this book to be good because everyone I talked to were like, OMG, you have to read this series, but I honestly have to say that it has exceeded my expectations and then some! Not only does this have a killer story-line but it is unbelievably well-written! It flows beautifully and I was 100% invested from page one all the way through until the authors acknowledgements! Every thing about this story screams best-seller! The characters are also impeccably well developed. I was able to connect with not only the main characters but with the secondary characters as well. At times, this story had me laughing one minute and crying the next, only to be screaming mad the next minute! This story-line grabbed pretty much every emotion I have a tore it from me while I was reading it! But it still left me wanting more. It left me racing to start the next book in the series. So if book 2 is half as good as book 1, I will definitely dive head long into the next one! I almost want to slow things down because I have a feeling I am going to be very sad when I finish this series and I will be left with a huge book hangover. But for now, I have another book to read!

**TYRANT~HOLY SHNIKEY'S!!** ALOT of sh!t went down in this book that I was not expecting at all! WOW! Not real sure what I should even write in this review other than if you love any or all of the following, bad a\$\$ Alpha Males, Bikers, Tattooed sexy studs, hot sex scenes, angst, suspense, psychopathic nutcases, fun-loving sexy men, fun-loving jokesters, passion, love...I could go on and on, but if you like anything mentioned, then you need to get reading this series! I really don't want to say alot about the book because I don't want to spoil it for anyone. I did not read any reviews before I started reading this series. I did look and see how many reviews were written and I also looked at the average number of stars it was rated, but I rarely read the reviews because people tend to write way to many spoilers in them and nothing upsets me more than to come across something that pretty much ruins major parts of the book for me. That has happened to me in the past and then after reading the book I was let down and upset that I wasted valuable time reading a book that I already knew everything that was going to happen. Life is to short to waste time that you can never get back. But as far as this book/series, you will not be disappointed and you will be doing yourself a huge injustice if you DON'T read them! I am looking forward to books 3 and 4, Bear's story!

**LAWLESS**~I have been so excited to dive into Bear's story, and I have to say I have NOT been one bit disappointed! Ms. Frazier has definitely hit the mark with Bear's story also. I was sucked completely into the story from the first page! Alot of times with series, once there are already 2 great books already released, the one's that follow tend to lack in alot of things. But that is definitely NOT the case with Lawless! It contains all the amazing features that both books from Kings Series contained but it all is Bear's story. Another that shows great artistic skill is that there is nothing repetitious throughout Bear's story. We are not just reading "King's" story all over again, just replaced with different characters. Ms. Frazier has a very brilliant mind and amazing storytelling ability. The only similarities in these two characters stories are, how well written both story-lines are. The story line of Lawless flows effortlessly and consistently. As I read this book I felt like we went from 0 to 60 in like 6 seconds and we kept up with that same speed and drive right straight through to the very end. It was so filled with action, emotion, drama, suspense, adventure, angst... Not once did I ever feel like the story line was ever stalling out or feel like it was forced, it was just enthralling! In the first 2 books we get a real good feel for Bear's character, or so I thought. But once you start reading Lawless we realize that Ms. Frazier just fed us enough information on Bear to make us just have to read his books once they came out. Because the character development in Lawless takes us to a whole other level in Bear's life!

All that being said, I have book 4 that is screaming at me, so off I go.

SOULLESS~WOW!! Now to try to explain that 3 letter word to everyone without spoilers... If you love a story that drags you through the woods, the mud, the rocks, hot coals, up hillsides, over mountains, across broken glass...all of that, and leaves you with your mouth hanging open and WTF running through your mind, I suggest you get to reading and make sure you start with book 1 of this amazing series! These books NEED to be read in order! If I had known about The Dark Light of Day before I started the first book, I would have read that before, but I am going to read that now. That is Jake and Abby's story. But it won't really be a big deal I've been told. ALOT happens in this book. As are the first three books, book four is as well written as they are. Ms. Frazier just continues to amaze me. She has the story-telling mind of a genius! The story just continues to flow from her mind through her fingers and onto the computer screen! So many times when reading a series, once you get 3 or 4 books into it everything starts feeling a bit repetitious and alot of things just kind of fall short but not so with this series. There is alot of action(some really over the top) in this book, but I do not feel that any of it takes away from the book. I mean, hello, isn't that why we read books? We want to escape...well my thoughts are, in between the covers of a book, anything can happen! When I read, I don't want to read about an average life of an average character! I want the hype, I want the over-the-top stuff! And even the over-the-top stuff that is in this book, Ms. Frazier did one hell of a job selling it! She gave us all of that stuff, a HEA AND she left us with a jaw-dropping WTF? Kudos to you once again Ms. Frazier!

King - Book 1

Review Wow Wow Wow! I've had this book on my Kindle forever and finally got around to reading it and it blew my mind - it was crazy good! I am for sure a King Fangirl, oh my lordy he is hot hot hot! This could definitely be considered a dark read as it touches on drug abuse, selling your body, being held against your will, rape and murder but I will say that though these topics are disturbing, this story was written in such a way that it wasn't "heavy" if that makes sense. And Preppy, what can I say about Preppy (let's out a big sigh...), I loved everything about this character and every profanity that came out of his suspender and bow tie wearing lips. Definitely would recommend this book!

Tyrant - Book 2

I was bummed to see King and Doe's (Ray's) story end but what an ending! This is a twisted story about Doe recovering from her amnesia just to discover that probably not knowing was better than knowing. This story had twists and turns that kept me on my toes and I was totally surprised with each new revelation and I really love when a story can do that to me. This is a violent and emotional story that had me swooning one moment, surprised the next, going WTF, fanning myself from the sexy scenes and constantly rooting for King and Doe. Great read! (

Lawless - Book 3

Bear and Thia's story! Absolutely loved it! I just love all of the characters in this series! Ends in a cliffy!

Souless - Book 4

WTF? WTF? WTF? I can't even control myself right now! Let's just get the basics out of the way - yes the story was great, characters fricken awesome, storyline is just WOW but it's the ending that has me freaking out, screaming out loud and a BIG smile on my face. I CAN'T BELIEVE IT - I CAN'T BELIEVE IT! I have chill bumps, I swear TM Frazier you're killing me over here!

Four books packed with action, emotion, passion and love with four amazing and unforgettable characters that experience it all.

I read each of these individually and had them on my must read suggestion list. King and Bear are ALPHA, SEXY and TOTAL badasses!! They fight for what's theirs and have each other's back when things get tough.

A series you should definitely have on your readers!!

## **Jan says**

Angst,drama,action, bloodshed you get it all in this gripping read.

"I never expected to all in love with King, my tormentor, my lover, my friend, my world. But I did."

There are twists and turns where you wouldn't expect them, lovable characters you wouldn't expect to love.

The man I once so fearful of, a man of violence, and yet so much love, was struggling with control because of me.

Dark full of suspense, gripping, definitely no hearts and flowers but even in the mix of darkness, evil and danger love is found.

A Brilliant box set for anyone who loves on the edge dark and gritty reads.

### **Amazingly disturbing and utterly addictive!**

Started reading a series that was unlike anything I had ever read before. I skimmed the synopsis so I wasn't really prepared for what I was actually going to read..

After the first few chapters, I literally stepped past my comfort zone. The more this utterly raw intense story played out, the more addictive it became to me. Although some these characters had very disturbing qualities they had the capability of loving and being loved. That reality had an alluring intensity that I , just couldn't put it down.

I not only finished this series in only couple of hours that it made me thoroughly annoyed that I have to pre order and wait for Preppy's story to come out October 25, 2106.  
I have never read anything from this author before this series but I will be continuing .

### **Bridget says**

I loved the first three books in this series. Brantley King and his best friend Preppy, have made a life for themselves after bonding as kids. They had really awful families and became each others'. They have another good friend, Bear, who is a biker. During one of their crazy drunken parties, a couple of girls walk in, one of who is a wisp of a thing, with innocence pouring off her. So begins the mystery of Doe (as in Jane) and King. The story only lost itself in the last book, where too much time and effort is spent in establishing a final story, but so repetitive and redundant that I found myself skipping past most of it. Bad. Overall this could have been a full five stars with a more succinct ending that didn't overdo it.

5 star

I was pulled right into this story. The story has laughs, hostage, murder, bikers, grief, loss, betrayal, drugs, pain, no memories, abuse, rape, and heartbreak.

This is Doe and King's story. Doe's friend took her to a party at Kings house. He takes her hostage after her friends steals from him. When she escapes he tells her to run and never come back. Later he rescues her and takes her back home. They fall into a pattern. She is his. He wants her but she does not know her past so she can't allow him to truly have her. When he betrays her she wonders why he keeps her around. After she is taken from him he has to kill to get her back. But is she really made for this life? When he finds out her past he decides to return her to her family but he wants something in return. Can he really give her up? Does she want to go? What happens when it all goes wrong?

I loved these characters and also the side characters. There are some tear filled moments and some anger filled moments in this story. But all in all I felt I was able to connect with the characters and the story was a great read.

I highly recommend this book and can't wait for the next story from this author.

5 star

I was pulled right into this story. The story has laughs, murder, bikers, grief, loss, betrayal, drugs, pain, no memories, abuse, and heartbreak.

If you have not read the below I would recommend reading those books(s) first  
King (King, #1)

This is Doe and King's story. King has given Doe to her father. But is she better off? He was betrayed. He

thought he was going to get his daughter but instead he was going to get taken out. King fights his way back to Doe. Doe is confused and still trying to get her memory back. Will she get it back before it's too late? Will she be under her family's touch so much she does something she regrets? With her feeling for King being more than her feelings for Tanner will that cause problems in what she thinks she needs to do? What is behind her decision? It is for her or for King? Will she find out who the real "tyrant" is? Will it be King, Bear, Tanner, or her father?

I loved these characters and also the side characters. There are some tear filled moments and some anger filled moments in this story. But all in all I felt I was able to connect with the characters and the story was a great read.

I highly recommend this book and can't wait for the next story from this author.

5 star

I was pulled right into this story. The story has laughs, murder, bikers, grief, loss, betrayal, drugs, pain, abuse, and heartbreak.

If you have not read the below I would recommend reading those books(s) first

King (King, #1)

Tyrant (King #2)

This is Thia and Bear's story. Thia and Bear met years ago and Bear made a promise to her. When her world comes crashing down Thia looks up Bear. But when she is pulled into his world she is not expecting what happens next. Once Thia learns the truth about the promise will she walk away? Bear is a different man than he was years ago. Can Bear keep a promise to Thia that was really just a story? Will he be able to protect her from the danger that is after them? Or will he leave her to fend for herself? Can he offer help to her when he just might be the one who needs help? What happens when danger comes for them will they survive to fight another day? Someone is about to rock their world will you see it coming? Yes this book ends on a cliffy but it's expected if you have read the series.

I loved these characters and also the side characters. There are some tear filled moments and some anger filled moments in this story. But all in all I felt I was able to connect with the characters and the story was a great read.

You get a sneak peek at the next book and can I just say I need that book now?

I highly recommend this book and can't wait for the next story from this author.

5 star

If you only read one book this year make it this one!! You will not be disappointed!!

I was pulled right into this story. The story has laughs, murder, bikers, grief, secrets, loss, betrayal, drugs, pain, abuse, and heartbreak.

If you have not read the below I would recommend reading those books(s) first

King (King, #1)

Tyrant (King #2)

Lawless (King #3)

This is more of Thia and Bear's story. Bear is in jail and Thia has a new friend who doubles as a bodyguard. As time passes Thia wonders if she will see Bear again. When Bear gets out some people will prove to be loyal and some will prove to be betrayers can Bear figure out who is who before it's too late? When Bear loses someone close and secrets come out will he be prepared for the outcome? Just how far does the betrayal run? Will Bear be able to deal with the grief and the pain? When the one thing Bear loves down to his soul is taken will he be able to get it back? Or will he lose part of himself when he tries for revenge? Is this the end or just the beginning?

This author always manages to throw in a few surprises with her stories but really some of the surprises in this story are some of the best!! I am sure if you read you will understand just what ones I am talking about.

I loved these characters and also the side characters. There are some tear filled moments and some anger filled moments in this story. But all in all I felt I was able to connect with the characters and the story was a great read.

I highly recommend this book and can't wait for the next story from this author.

**Wow**

I have had this boxset on my kindle for a while and someone recommended me to read this now I'm kicking myself as to why I didn't pick it up sooner.

I fell in love with king and doe's stories and the heartbreak they went through ripped me to shreds, then we get to Bear and Thia's stories and I didn't know that I could be cut up over fictional people but man was I wrong.

T.m.Frazier has a way of ripping the world out from under your feet then putting it all back together again then drops a massive bombshell just to keep you hooked.

I can't wait to see what's next

Not going to lie, it wasn't an easy read at times, it's dark, it's gritty and will have you on your last nerve. But Damn it's worth every tear and every gasp of breath...and laugh. Yes, there were times I laughed out loud because.....Pancakes .....Preppy!

I am desperate to catch up on the rest now!!! I may not sleep for a while!
