**Lies** Cassie Wild

**The Deceit and Desire series is now complete. To celebrate, all books are only 99 cents this week.**

**Suria:** I live in a world anything but normal. Lies, cheats, cons and fortune tellings are all part of my everyday life. Most people call us Gypsies, but they don't know us. I love my family and I'm proud of being part of the Romani people.

Except for one thing. One day soon, I'm supposed to marry a man I haven't even met yet. Yes, arranged marriages are all the craze in our world but there's no way in hell I'll live in a loveless marriage.

**Kian:** I didn't have it easy growing up. My father left before I was born. He sends gifts to ease his guilty conscious, but I see through his guise. I'm the one taking care of my mother, I run a pretty decent garage, and I enjoy a casual hookup every now and again. But last night I met someone special. She makes the single life seem like a waste of life. We flirted at the club and now I can't get her out of my head.

Hardworking Kian is dedicated to improving his high-end car shop and caring for his mother. The night he meets a beautiful and mysterious woman, his life was already a delicate balancing act but now his attention is driven away from his obligations and causing him to rethink his priorities.

**Follow the mysterious Suria and the hardworking Kian in LIES, book 1 of Cassie Wild's new Deceit and Desire series.**

# From Reader Review Lies for online ebook

## Sewanee Kracalik says

Bysewanee 2010on May 21, 2018

Format: Kindle Edition

Wow! Just Wow! This is my first read by Cassie Wild. I received an ARC through another Author and I'm so glad I decided to read it. It's about the struggles of two Romani sisters, especially Suria. Being the eldest, she must save herself and her little sister from their abusive gypsy father and their klan. But along the way she meets Kian, a mechanic and not a Romani, and they fall instantly in lust. This is what the series is all about, and the tangled web of lies and deceit she weaves. And that's just the beginning! I loved every page and cannot wait to find out what happens in book II. So I'm gladly volunteering to give this review. Plus I'm adding Cassie Wild to my list of favorite authors.

---

## Michaela Zankl says

Suria is unhappy with her life. Being deceitful to people as a fortune teller is not the life she wishes for but family ties don't leave her an option. Meeting Kian is the highlight of her unhappy life and he sweeps her right off her feet. When Suria discovers her little sister will be married off to an older man she has to take matters into her own hands. Lying to her family and to the man she loves is painful but saving her sister becomes her main focus. Family secrets are revealed and lies are uncovered. Can Suria and Kian's love overcome the lies or is their love doomed from the start?

This is my first Cassie Wild read and it won't be my last. I love the storyline and how it flows. It's not rushed and gives you some insight on gypsy clans. Great read ?

---

## Debbie Caswell says

A brilliant read that is a new author to me

Suria is a romany she wants to escape the life and take her young sister with her but her family and klan will not let her go easily. When she meets Kian a mechanic who isn't romany she falls into instant lust with him. Now they will have to see if there is anything long term between them and if they have any chance at a relationship.

I was given a copy of this book but this is a true and honest review

---

## Rhonda Hicks says

Suria was known as The Mysterious Sirene, a fortune teller/con artist. She brought in more money than anyone else in the Romany Gypsy clan. All of it went to Vano, the head of the clan, and then once a week, her family received 30% of her earnings. Less than any other family because of her father's disgrace. But

Suria always tried to skim off the top of what she made, building her nest egg so she could find a better life. The only reason she stayed was for her cousin and her younger sister.

Kian was an only child to a single mother. It's always been just the two of them and Kian is devoted to helping her. He may not be a settled family man that his mom would like to see, but he's not unhappy. He owns his garage and goes out once in awhile.

This is a deeply emotional story with a plot that takes twists and turns. Pieces of the puzzle are made clear and others are still in the shadow. Can a villain be a good guy/girl? This one will make you question what is right and wrong. When is wrong done for the right reasons? I'm anxious for the next book.

---

### **Tanya says**

he was hard working looking after his mother after his father left them. his father sends gift but he sees through the why he receives them. things are going great until she appears. now all he wants is more of her. will this destroy his other plans? see if they do

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

---

### **Shante Heart says**

Suria is a fake psychic. It not a job she wants to do, but she is good at it, and she is forced into the position. Kian is a mechanic and owner of the shop he works. When the two meet they can't stay away from each other nor can they fight their attraction.

Reading the novel, Lies, I can truly say I'm not disappointed. The minute I started reading chapter one I was hooked. The author was able to keep you engaged from beginning to end.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

### **Nancy says**

This was such a great read and all I can say is WOW I really enjoyed this journey. Cassie Wild has been one of those authors I took a chance on and I am so glad I did and I look forward to reading more by her. This is about two sisters struggling to survive and Suria being the oldest wants to protect her little sister and will do anything to do so. She saves her sister from their abusive father and their gypsy klan. She meets Kian along the way and they fall in love but he is not a gypsy. How will they go through the differences between their cultures.

---

### **Kendra Needs says**

I read this book as one of my favorite authors recommended the series and said it was fantastic, and I have to

say that i would agree.

I was hooked from page one on, this is the most unique story line that I have read in a long while. like every other book it has the romance story and characters that make you fall in love with them and then there is real story of the book. That is the lifestyle that Suria was raised in, she comes from a family of Gypsies, and its a life that she is trying to run from and make sure that her sister is safe.

I am so glad that I have book two to read, because book one was just amazing

---

### **Emma bramley says**

This is the first book by this author that I've read and the first book in this series. This book has amazing characters you just fall in love with as you read. This book has a unusual plot, which will have you hooked from the first page. I can't wait to read the second book in this series.

Highly recommended series

I voluntarily reviewed an advance reader copy of this book

### **Jami says**

This is my first Cassie Wild read and I was not disappointed. The story is very complex with compelling characters and a driving story that almost turns the pages for you. I really loved Suria, what a great strong character. I loved the unique setting and the different from the norm formula writing that seems to be so prevalent now days. This is a great first book in the series and I can't wait to read more. Well done!

Worthy of your one -click.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

---

### **Deb says**

Intriguing, interesting, dramatic, and seductive. What a fantastic start to what might be a great series. I was curious about this storyline after reading the blurb and once I started reading, I couldn't put it down. The characters are awesome and somewhat relatable in the sense we are all looking for something; her - freedom, him - possible relationship, his mother - answers. I hope that what we find from reading this series is a HEA for each of these characters including her sister and cousin. These characters are likable and I already care about them. I also already want her father and his boss and his boss's brother to get their not so happy

ending. I am on to the next book in the series.

### **Karen Galloway says**

#### **A Really Good Read**

I voluntarily reviewed an arc of this book. I enjoyed reading “Lies” by Cassie Wild. It is a really enjoyable, book with a well written storyline that sucked me in and kept me engrossed from start to finish. I loved the chemistry between the characters and the way they interacted with each other. They really make this a page turner. This is an Enjoyable, Romantic, Must Read Book that I loved

---

### **Elizabeth Mularski says**

I received a complimentary copy of this book with no expectation for leaving a review. This review is being left voluntarily and any and all opinions are my honest thoughts on this book and the authors work. This is a different type of storyline for this romance. The writing is smooth and cohesive. My attention was grabbed from the beginning and I was captivated until the end. This is a new Author to me but one I will watch out for.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

---

### **Darcy Smith says**

Absolutely amazing story. I loved the characters and the story with how well everything fell together. Suria is an amazing woman. She is strong, sweet, and kind. Yeah she has some issues but you can just see her real personality beneath all of it. Kian has this all out hard work, but at the same time sexy feel to him. The story hooks you from page one to the end. It is a little quicker read and is part of a series but it is oh so worth reading. You will not be disappointed.

I received a free copy of this book via Booksprout and am voluntarily leaving a review.

### **Judy says**

I have read so many books over the years and for the most part, they are kinda the same. However, THIS story, is so different!! I loved it from beginning to end!! It really makes my day when the plot is so unusual!

Amazing characters that had me falling in love with them instantly!! Cassie Wild never disappoints with her stories! This is a great beginning of a new series and I look forward to reading the rest of it!
