## Must Love Plague: Shelly Chalmers

Spreading disease isn't all it's cracked up to be.

Piper Bane wants nothing to do with her pesky Pestilence bloodline and would give anything to be a Normal. In fact, she put Beckwell--land of the paranormal and home of the weird--in her rear-view ten years ago, and hasn't been back since. Until an invitation to her best friend's wedding coaxes her back home and reminds her what it means to continue the legacy of the four horsemen of the apocalypse. She receives a typical Beckwell welcome the second she reaches the city limits where she's stalked by a toad and wraps her car around a tree. And is rescued by the one person she most wants to avoid: Daniel Quilan. Town doctor, genuine nice guy, and her ex-fiancé.

Ten years hasn't been long enough for Daniel Quilan to forget the only woman he's ever loved. His responsibilities as Beckwell's only doctor keeps his mind off the hole Piper Bane left in his chest when she broke his heart and skipped town all those years ago. His not-so-ordinary patients and his trouble-making twin brother keep Daniel occupied twenty-four-seven, not to mention magic going haywire throughout town. But his plan to stay busy as the town's golden boy is shattered when his latest patient turns out to be Piper. How good she looks isn't his concern. How she still makes fire shoot through his veins isn't his focus. But the fact that someone wants to end the world and will use Piper to do so.....that makes her impossible to ignore.

## From Reader Review Must Love Plague: for online ebook

### **Sheri says**

I don't typically read paranormal fiction, so was unsure how well I'd like this. Well, I loved it! The farther I read, the more captured I became in the plot and the world. There were unexpected surprises, too, and a story arc that extends through the series. This couple's issues are tied up nicely, though. I loved the imagination of the author, the unusual abilities of the characters. I don't want to give any spoilers, so I won't say more. The last third of the book was an exciting, breakneck ride. I loved the rapid reveals. Great storytelling!

Piper Bane, descendant of the Pestilence clan, returns to the small paranormal town of Beckwell, Alberta, for the wedding of her best friend, Ginny (heiress of Famine, who loves to bake) and a reunion with their friends Anna (heiress of War, currently the town librarian) and Nia (heiress of Death, who speaks to ghosts). Piper has spent ten years trying to avoid her heritage—and her propensity for making others ill. Now she's faced with the rumor that she and her friends are about to rise as the Four Horsewomen of the Apocalypse, bringing on the End of the World.

As if that wasn't annoying enough, the first person she runs into when her car lands in a ditch going through the supernatural barrier that protects the town is her one-time fiance, Daniel Quillan, town doctor and sometime Fomorian (yes, I had to look that one up—definitely bad-ass guys). She's also being stalked by a large brown toad. And the barrier that has protected the town and its not quite human inhabitants for a century has suddenly turned into a prison dome.

What's a girl to do? Piper and her friends are determined to avoid the Apocalypse, but the citizens of Beckwell aren't making that easy.

Chalmers' imaginative approach to a wide range of mythology makes for an entertaining read, to be continued as the rest of the Four Horsewomen take their turns.

A new paranormal series that is based around the Four Horsemen of the Apocalypse. Except in this case, its four horsewomen. The story takes place in Beckwell, Alberta where supernatural creatures are the norm and hidden from the real world.

We are introduced to the 4 main characters/horsewomen – Piper Bane who is Pestilence, Ginny Lack who is Famine, Nia Amort who is Death and Anna Frey who is War. The 4 women grew up together and have known about their family's legacy and the risks that they might be the generation that starts the apocalypse. Piper couldn't handle this knowledge and ran away from Beckwell in hopes of avoiding her fate. For 10 years she has traveled the world never staying in one place to long for fear of causing a fatal outbreak of an infectious disease. She reluctantly returns to town for the wedding of her best friend Ginny not knowing that a group that calls themselves the League has been planning this to kick off the apocalypse with Piper being the main source.

Dr Daniel Quilan is the town healer. He is also part Fomorian – gods with destructive powers. He has always tried to fight the chaos, darkness, and death that surrounds his family legacy but his twin brother walks the line between between both. Daniel and Piper were childhood sweethearts who were engaged before Piper ran away 10 years ago. She always feared of making him sick one day and could bear the thought – but what she didn't know is Daniel didn't think their pairing would work out either due to the risks of him becoming a hostile and monstrous being.

Lots of world building and set up for the future books. Even with the book heavily leaning on the paranormal side – there is still plenty of humor and romance. I enjoyed this book and look forward to the other 3 stories.

What a fun read this was! Hear about the Four Horsemen? Well, what if the Four were Horsewomen?

Piper Bane is returning to Beckwell, after ten years of running away. One of her best friends is getting married. She's just hoping to avoid running into Daniel Quilan, the only man she's loved, but left. Her plan doesn't go well, when she crashes her vehicle into a tree and the first person on the scene is Daniel.

Beckwell, is a paranormal town hidden by an erected barrier. It soon becomes evident that the barrier is changing, and traps everyone in the town. With everyone trapped, the townspeople start to mutate and there is a sinister plot at hand to force Piper and her friends to bring about the apocalypse.

Piper and her friends have a plan of their own, that will require each one to accept who they are and the powers that they weld, then try to use them to stop the apocalypse from happening. While doing so, they need to learn who the members of the League are.

One thing that hasn't changed, is despite not wanting to run into Daniel, it is apparent that the two care about each other, and are stronger together than apart. The two will need to set aside their stubbornness and fear, in order to be together. Piper has the potential of making Daniel sick, but Daniel's lineage carries its own

concerning problems. Piper has a new sidekick, a stalking morphing toad, with an awesome attitude!

If you enjoy paranormal with humor, you will love this!
