**Not Forgotten** Nancy Holder , Joss Whedon (Creator)

Even if it takes an eternity, he will make amends...

## ***BURNING BODIES***

A crime wave has swept the Los Angeles area, which under normal circumstances would be par for the course. But nothing links these particular victims except the cause of death—their bodies were burned from the inside out. Obviously supernatural forces are at work.

While Angel investigates the murders, Cordelia tracks down a band of child pickpockets. Surprisingly, both searches lead to the same place: a wealthy slumlord who has all but imprisoned the children's immigrant parents.

And conducts elaborate rituals to Latura, the Indonesian God of the Dead.

Angel, Doyle, and Cordelia may have had a rocky start in L.A., but they realize they've got it much easier than the immigrants. Characteristically, Angel wants to help. But can he free them before the Feast of Latura? And if not, will they become the next sacrifices of someone's quest for immortality?

## **Not Forgotten Details**

## Liz says

A fill-in book. wanted something light, this borders on horror, more so than the show...and I sure like the show better than this book- too gruesome for me.

---

## Ceejay says

Nancy Holder has written an excellent novel about Angel's life in Los Angeles. And, just like in the TV show, Angel, Doyle, and Cordelia find themselves having to fight a creature of evil. This time around they are dealing with an evil god based in Indonesian lore. It's an interesting story with a surprise ending. Nancy Holder has always done well writing Buffy and Angel stories. With both series gone, these books allow us to continue to get our fix of these two shows.

---

## Nothing says

That was so fucking anticlimactic. The story was interesting till the last 10 pages. Then it just fizzled out. And so many stories were started but left hanging. Just whispers of rumors of how they ended.

---

## Dharia Scarab says

Since I don't normally write reviews unless I have something specific to say, here's the break down of how I rate my books...

1 star... This book was bad, so bad I may have given up and skipped to the end. I will avoid this author like the plague in the future.

2 stars... This book was not very good, and I won't be reading any more from the author.

3 stars... This book was ok, but I won't go out of my way to read more, But if I find another book by the author for under a dollar I'd pick it up.

4 stars... I really enjoyed this book and will definitely be on the look out to pick up more from the series/author.

5 stars... I loved this book! It has earned a permanent home in my collection and I'll be picking up the rest of the series and other books from the author ASAP.

---

## **Gabriel Mero says**

Great story. My only complaint is that once again there are flashbacks to Angel's pre-vamp days and he is referred to as Angelus. Again...his human name was Liam....

---

## **? Jeri's Book Attic ? the Romance Bibliophile ? says**

## **Lexus Dreyar says**

it is nice because i think this is a suspense book.

---

## **Jim C says**

A book based on the television show. One would assume that when a author writes about characters of a tv show that the author would have his or her facts straight. Not so in this book. I found a couple of different glaring mistakes. These mistakes were not tiny mistakes but mistakes that moved the plot along. For this reason, I could not give it a higher rating. Also, I believe more time of the story was spent on the villians than the characters that are the reason we are reading this book. My recommendation is to skip this book.

---

## **Kiri says**

Interesting so far only problem is that apparently no one informed the author (I'm figuring Ms. Holder) that "Angel/Angelus's" original name was Liam when he was human. Somewhat important thing to know when writing about the time when he was alive in a flashback.. certainly something an editor should have caught.

This was an odd story. I think the writer was trying for time shifts by using unusual segues. It didn't work. There are bits of the story that don't belong, they are nice fro showing the character's disposition but out of place in the plotline. *(for those who have read this I'm thinking of Angel listening to the elderly woman's memories. A nice scene if it weren't in the middle of that section AND it had anything to do with the rest of the story.)*

Plot threads are left hanging, and the ending is just very disjointed an ill-written. I hope Ms. Holder has improved in her writing skills since this, but I'm stunned this made it past an editor.

Two stars because I like the series.

## **Brittany says**

The first original story from the 'Angel' novelizations. Written by Nancy Holder (who did it's predecessor 'City Of'), this book is a nice read for those who want adventures between the episodes of the original show. Originally taking place in the first half of Angel series one, this places Angel, Cordelia, and Doyle on the hunt for a supernatural being that is targeting immigrants.

The story itself has a lot of promise, and it starts off really steady, but half way into the book it starts to slow down, and I really lost interest in it for a bit. Again, Ms. Holder seems to not realise that Angel's name was Liam not Angelus before he was turned, but I am getting used to overlooking it.

It picks back up by the end of the story, but the ending seems rushed and I felt like it wasn't really worth my investment of time.

All in all, I again recommend it to anyone who loves the show and just wants to read/re-read adventures that weren't shown on television.

---

## **Xion says**

Good book crap load of typos. but a good book.

---

## **Noah Z says**

The second book in the Angel series. Their are a cult of people who worship their god of death Latura. A girl who has a psychic connection to Angel needs his help.

---

## **Lisa says**

Angel Investigations gets involved in an ancient conspiracy to bring the god of death into the earthly plane. Doyle's still alive at this point, and I always felt his character shouldn't have been killed off eight episodes into the show, so that was a plus. And Cordelia's not crazy - also a development that I think contributed to the show's demise. The plot's nothing special, and since the books are technically not considered "canon," I guess I can't get mad about timeline inconsistencies, but there were a few that ticked me off anyway.
