**Of Ice and Shadows** Audrey Coulthurst

**The long-awaited sequel to *Of Fire and Stars*—in which Mare and Denna travel to a new and dangerous kingdom where Denna must be trained to tame her magic by a mysterious queen who is not all she seems. Perfect for fans of Kristin Cashore and Tamora Pierce.**

Princesses Denna and Mare are in love and together at last—only to face a new set of dangers.

Mare just wants to settle down with the girl she loves, which would be easier if Denna weren't gifted with forbidden and volatile fire magic. Denna must learn to control her powers, which means traveling in secret to the kingdom of Zumorda, where she can seek training without fear of persecution. Determined to help, Mare has agreed to serve as an ambassador as a cover for their journey.

But just after Mare and Denna arrive in Zumorda, an attack on a border town changes everything. Mare's diplomatic mission is now urgent: She must quickly broker an alliance with the Zumordan queen to protect her homeland. However, the queen has no interest in allying with other kingdoms—it's Denna's untamed but powerful magic that catches her eye. The queen offers to teach Denna herself, and both girls know it would be dangerous to refuse.

As Denna's powers grow stronger, Mare does her best to be the ambassador her kingdom needs. Her knowledge of Zumorda and its people grows, and so too do her suspicions about the queen's intentions. With rising tensions and unexpected betrayals putting Mare and Denna in jeopardy and dangerous enemies emerging on all sides, can they protect their love and save their kingdoms?

Ok, but doesn't the description give away too much? I hope there are enough surprises in the book itself to make up for this...

Welp, since I didn't absolutely loathe the first book, and since my brain won't let me forget there's a sequel to a story I've read and thus I MUST READ THIS TOO . . . I suppose I'll be picking this up whenever it comes into my library.
