Run with the Moon

Lucy Monroe

Run with the Moon Lucy Monroe

A precursor to the story found in Moon Awakening - illustrated with hand drawn anime by ZJS.

When I went to write this story, I did not anticipate the characters remaining in wolf form for the entire story, but that is what happened. Please be aware that this is not how my other shapechanger stories are done, but it was certainly a lot of fun to write for all of that.

Run with the Moon Details

From Reader Review Run with the Moon for online ebook

Jessa says

Very short, but cute. I'd have liked a but more description of their human forms at the end though and maybe a bit more of an epilogue to see how the following day or so went after the change.

Natália Eduardo says

É uma introdução rápida e divertida a serie. Mas ainda bem que li o volume 01 antes deste prólogo da história, pois já sabemos quem é o vilão da história.

Izy says

Rating~ 3 stars.

Very short read, its just a couple of pages. Its a prologue to the rest of the series. The couple in the book are secondary characters in the later books.

L Bongiorno says

I thought this was a cute free into offered by the author:)

K.C. Hilton says

Perfect prequel to Moon Awakening. It helps to understand the battle between two clans. I loved it! Free to read online on Lucy Monroe's website: http://lucymonroecotm.com/Book_Runwit...

Geovanna Maya says

(2.5)

Holly says

The main conflict in Moon Awakening arises from the events that happen in this short story. It was interesting to see what happened to bring about such mayhem.

Yasmin Theroux says

Too Short. But interesting all the same

Laura the Highland Hussy says

http://lucymonroecotm.com/Book_Runwit...

free download can be found on this page. Prequel to Children of the Moon series

Deanna Against Censorship says

Short prequel of the Children of the Moon series. Not a true indication of the series due to its length but gives incite into an important event in the Sinclair and Balmoral Clans.

Netanella says

A prequel to Moon Awakening. I've read good things about Monroe's books, and look forward reading them.

E. R. says

Would have been nice if this was longer. But it is still a nice prequel to the series.
