I read this book because I have a pre-teen son who is already having questions and concerns about not only becoming a man, but becoming a Godly man. This book was extremely helpful with all his questions and topics I didn't even know we SHOULD be discussing with him! It will definitely be a book that we will be referencing over and over again throughout his teenage years and also when his younger brother becomes a teenager. I will definitely be sharing this book with the youth pastors at my church!

Got this for my teenage son (read before gifting) it was the perfect purchase. I really appreciated how honest and blunt the book was. Something boys can really relate too due to the honesty of situations and what goes thru boys heads .

It's a modern day book of Proverbs.

Like many youth ministry books I've read, the title may show the book is intended for teen guys, but the content contains a depth of thought that it easily speaks into the lives of adults as well. The Guy's Guide to God, Girls, and the Phone in Your Pocket is full of bite size bits of wisdom that had me nodding my head in agreement constantly with things that I believe need to be said, and with things that convicted my soul. It will be a book I keep with me for my personal use, for ministry use as a pastor, and certainly for use as my own three sons grow up.

The book is written in easy to understand terms that can translate across many age groups, but filled with pop culture references that will certainly resonate with the audience of teen boys it is intended for. Jonathan speaks a number of hard truths that leave no room for misunderstanding the message he's trying to get across. Where some books will speak of learning "respect" or "dealing with sexual sin" he goes the step further to explain what respect or lust really are and what they look like in life. It is more than just a list of do's and do not's though, and steps into the midst of seeking to have hearts and life patterns that strive to be Christ-like. I'm glad I heard about this book online as I'm sure it will prove as valuable in my ministry as it is proving in my own life.

Interesting book for parents to give to their high school sons. A lot of good information on how to grow in faith, talk to girls, avoid sins/temptations, how to be a good son, a good friend and how to use and not use

your phone.

It is direct on porn, sex and other hot topics. It stays the mainline course. A bit graphic for young mids.

Thanks for allowing me to win this in exchange for my honest review. I loved this book. I is in just the right format to keep young guys reading.

It sure covers a lot of territory that are of interest to young men today. It is spiritual without being in your face. After reading this I am passing it along to a 16 year old and will be encouraging him to pass along to his friends.

Hott Synopsis:

Every day each of us is faced with choices. What you chose will determine the course of your life. No, it's not drama. It's cause and effect. Spend a little time each day and see what choices God wants you to make and why. Yes, even HE has something to say about screen-time!

Hott Review:

What I liked: This book is amazing! It's s series of short Q&A essays to not only help teens learn how to conquer their choices God's way but also what to look for so they don't start heading down the wrong path.

My favorite part? As a girl reading it hit me that they weren't pulled together in a specific format but then it hit me that the book reminded me of a conversation with my teen sons. Short. To the Point. No Fluff. Just Facts. Perfect for a teen's brain!

What I didn't like: There are some subjects broached that are not appropriate for all teens. Yes, they'll encounter them but they may not be ready to think about them.

Received book through Goodreads First Reads giveaway. (a few years ago :))

Overall, I thought it was a great advice book. I like how the author was blunt about the issues facing teenagers...trust me your 15 year-old and probably younger have been exposed to all of these in one way or another. Like one other person said it's a little too heavy on the religion for me and got very irritated at the comment on depression on the 97th tip. I get what the author was trying to do but I think he went about it the wrong way and downplayed a very serious mental health issue.
