## Zombie Town R.L. Stine

This used to be such a nice, quiet town. But that was before all the zombies. When twelve-year-old Mike and his friend, Karen, go to see a horror movie called *Zombie Town*, the last thing they expect is for the title characters to come down off the screen and chase them through the theater. And it's not popcorn these hungry creatures want to chomp on—it's human brains!

Now Mike and Karen frantically try to flee through the panicked streets of their hometown before shuffling bands of zombies turn every last citizen into a ravenous flesh-eater. But if Mike thinks he'll be safe once he reaches his house and warns Mom and Dad, he'd better think again. When the zombies say it's lunchtime, no home is safe! *Zombie Town* is R.L. Stine's delightfully spooky take on the horror genre that's infecting the world, bite by bite.

#### 3 STARS!!!

According to GR I read this in December 2013 but totally forgot about it haha So when I saw it at the library I snatched it up because it was 60 pages and I didn't feel like diving into a giant book right now. It was a pretty fun read, true to R.L. Stine's style though with the copyright being under Parachute Press which is notorious for hiring ghost writers, I wouldn't be surprised if this was a shelved Goosebumps book idea and they just hired someone to finish it for Stine. There was a twist as with most R.L. Stine goodies so that was a lot of fun too. - Richard

ZOMBIE TOWN is a fun story that typical of RL Stine's books. There's some excitement and then near the end there's a twist, followed by yet another twist. Not excellent by Adult standards but great kid fair.

I looked for any sort of reading information and didn't find any Lexile or Accelerated numbers. But the book is 74 pages long and if I were to chance a guess I'd say it was at the 4th grade reading level.

The story is about two friends who go to the movies. Although he isn't all that enthusiastic, Karen talks Mike into seeing a Zombie horror flick. They only get to watch a bit before the film breaks, and then things take a real bad turn. Because you see, 'real life' begins to look way too much like the movie and the kids find they are locked in the theater with drooling, stinking zombies.

How will they escape? Will they escape?

Stine's talent is that he writes very well for this audience. He knows exactly how far to go to give his books some excitement without going over the top. In this book Zombies stink and their eyes and hair fall out, but there isn't any violence --if you know what I mean.

I think the age range for this book is very wide. Some 3rd Graders are going to eat this up. Some Tweens and even a few 13 and 14 year olds are going to like it as well. But it's all going to depend on their sophistication and imaginations. My boy (a newly minted 11) thought it was creepy. I don't think he would have read it even a year go. But that's just him. I think most Tweens wouldn't have a problem with it.

Good scary stuff. If you have a child that likes horror stories (or who you think might like them) this is a great series to introduce them to. Stine has lots of books to keep them turning pages.

## **Great book...until the end!**

(This is actually written by my 9 year old son.)

I liked it, but the end was kind of like a plot twist. I didn't like what happened to Mike and Karen.

I can't believe that I liked this book as much as I did. As far as I remember it's my first R.L. Stine book. I got the audio version and it was so well done. There were two voices (male and female) speaking the parts of Karen and Mike, the two main characters. There were great sound effects which I'm sure added to my pleasure of this book.

Karen talks Mike into seeing a zombie movie, which he typically wouldn't want to do. As they are watching the movie the zombies come to life and come in the theater, chasing them around the theater.

**Recommendation:** If you are like me and don't particularly care to read zombie books, this might be the way to go. If you like zombie books, I'm sure you'll like this one even though it's aimed for younger audiences.

Nothing really interested me in Kindle Lender's Library so, I chose this. I used to read R.L. Stine when I was a kid. I decided to pick this up for a quick, little fun read. The story really had a Goosebumps feel.

I read this with my 7-year-old son. It was the first time I had ever seen him get so into a book that he didn't want to put it down. He would beg to read "one more chapter" (and then another and then another). That made it so fun to read with him! We will definitely try more R.L. Stine books.

An amusing audiobook to enjoy during a long commute. Definitely flips the zombie trope a bit.

## **Krissy says**

I initially started listening to this audiobook with my 5 year old but I guess it was just too scary for her. So I was left finishing it on my own. I'm a little old for it but the audiobook was fun.

This was a super fun middle grade audiobook. It was really short, around 40 minutes so it's not a big time commitment. The story was creepy and fun, just like I remember from reading all the Goosebumps when I was younger. The narrators, there is a male and female narrator, really did a great job.

Entertaining story. I had always heard of R.L. Stine and was curious to read him. It was a creative story, well-told and a quick read.

"but zombies aren't real....are they?"

It's cool book with nice little story adventure. The performance was enjoyable especially since it was more people playing roles. The sound effects and music were a nice touch. Bonus point for me was also, that it's not a long book :)

I stumbled across this book on Kindle Unlimited and figured since I love RL Stine and often say this man is responsible for my love of reading, I would listen to it. Especially since I am currently trying to find books that are a 6-8th grade level.

This is a very easy read, especially for adults the book is only approx 80 pages and I was able to listen to the book in less than 40 minutes. Yes I am listening to books at work, and I am about to start another one.

That being said the zombies are creepy & scary and let's face it, kids love that stuff now, thanks to The Walking Dead.

I highly recommend this book if your child is not easily scared & you are trying to find a book for your child to read.

I am childless, hence why I am reading these books for those that don't have time to listen/read books for their kid.

Scary Alert- Zombies chase the main characters, no bad language, overall recommended if your child can handle zombies.

R.l.stine novels are page turners that give the right amount of scare for children. This one we downloaded for kindle for just a \$1.00 and it was very short but definitely more than worth the dollar. My elementary age son loved it and i did too.

I think that this is a good book to read because it's about horror and I think that if you like scary thing you might enjoy this book. At the end the book is funny but I'm not going to spoil it. This is a good book for people that don't get scared easily.

I haven't read a R.L. Stine book since last summer, when I was rereading my Goosebumps collection, but I found myself still mesmerized by his style and flipping the pages like crazy just to see what will happen at the end. If you ever read a Stine book you know there is never a happy ending and that is something that I love about his books.

Zombie Town is the story of two friends who decide to watch the nes blockbuster movie "Zombie Town". But when the movie starts they realize they are the only ones in the theatre and after a few minutes into the movie things take a turn for the worse. The zombies from the big screen come to life and chase after them. The kids manage to escape from the theatre but once they are out at the town they find out that something terrible had happened while they were gone. Everyone is turning into zombies. Zombies that need human flesh to survive. Their flesh.

I really enjoyed this story. It was small and fast paced and perfect for Halloween. Another thing I found great was the introduction from R.L. Stine at the beginning of the book. It was very interesting to see the idea blossoming into his mind. I need to get back in reading his books. They maake me feel like I am twelve years old, crawled up in my bed at night reading his creepy stories and it's a pretty good feeling.
