Blind Sided Susan Kiernan-Lewis

After four years of life in a post-apocalyptic world, the one thing that both Mike and Sarah know for sure is that nothing ever stays the same. Just when life has begun to settle down, a threat comes at them from a totally unexpected source.

Not England, nor the US, not rampaging gypsies or even the Middle East. This time it's the land itself—the very bushes and trees of Ireland that they'll have to protect themselves from.

Could the bomb have opened an ancient portal long kept shut? Could there really be fairies and mystical beings running through the woods? Or is the evil that's creeping out of that portal something very, very human?

Blind Sided

Susan Kiernan-Lewis has done what I was beginning to think was impossible...she wrote a series of books that is not only interesting but also a great read. as an avid reader there is nothing worse than starting a book and being able to predict the ending by the end of the first chapter. Lewis's gift of storytelling has made a devoted fan of this reader!

Linda says

I am really enjoying this series, but wouldn't you think in this modern age, after 4 years, some help would have been sent to Ireland? The rest of the world is functioning normally.

Karen Harris says

More please!

I love this series! I can't hardly wait to buy the next book! If you like surviving type plots, this could be right up your alley!

Kerri Paul says

I absolutely LOVE this series, I buy them as soon as I get the email they are available.

Lindasp says

This is the fourth book of the Irish End Games and in every one, the main characters have battled some disaster/crisis to save their group but I never expected that the next problem would be with Druids and faeries. ;-) Always an exciting read! I enjoy the characters and the plots in each book. At the end of this book, there are already signs of the next crisis coming but I need a break to recover from the excitement before beginning book #5.

JoAnn says

Not as good as the first book!

Connie says

I could not get through the Irish End Games series fast enough. This series goes down as one of my favorites. Very fast paced. You fall in love with the characters and you feel for what they are going through. This series had me hooked from the start, and I can't wait for each book to come out so I can continue to read what happens next.....

Elaine says

Great story that continues to grow in interest and enjoyability with each book.

Best of This Series

This book was more original than the others have been. I like that the threat comes from Druids. In times like those, there would be religious type 'crazies' happen, I'm sure.
