Call to Battle Mark Wayne McGinnis

“Call To Battle is ridiculously fun!”

“A page-turner like no other. Simply loved it!”

“It all comes together and I’m sad to see it go!”

Welcome to the final, heart-pounding, episode of the Scrapyard Ship series books. It’s all about to end in one climatic crescendo.

The story continues, with Captain Jason Reynolds, and his team: Billy, Rizzo, and the rhino-warrior, Traveler. They must attempt to rescue Ricket and Gaddy, still held captive aboard the impregnable Dreachlor prison barge. Only then, can Jason return to The Lilly, his highly advanced Caldurian vessel … where it all began.

The elusive Admiral Ot-Mul, leader of the Craing Drac-Vin forces, has not only survived, but thrived, in the far, outer-reaches of space. With hundreds of thousands of warships under his command, Ot-Mul’s combined fleets are on the move. But, in truth, he cares about little else than making one man suffer … Captain Jason Reynolds.

With the approach of an enormous fighting force on the horizon, it’s the last call to battle. Will the decimated Allied worlds reunite one more time? Will Ot-Mul get his vengeance, by taking those most dear to Jason—Mollie, Boomer, Nan and Dira—and use them to rip Jason’s world, his very existence, apart?

Non stop action start to finish

A great ending to the series. The characters are built upon and new talents used. The use of the tech is quite good and the story flows very well. I would recommend this series to all fans of science fiction novels.

Fully enjoyed reading this series

I have enjoyed reading this series of books. We have followed Jason and his crew, from first discovering the Lilly to the final battle. I am sure that we will see more adventures soon. I recommend you read this series.

Henry T says

Interesting ,entertaining series.

I read the whole series and overall liked the premise and the characters. A little bit too much lets split up and then spend lots of time rescuing each other with some way to human moments when you just wanted to give them a Darwin Award and get on with the adventure. Overall though worth reading if you like Sci Fi adventure .

Stephen says

Great series!!

Mark please please continue this interesting story with these interesting characters. I had a wonderful time reading these books in order and will recommend them whenever I get the opportunity . If looking at military space opera for the first time this is an author you should follow you will not be disappointed.

Skip Klahorst says

The end of the series

If you read the other Scrap Yard Ship stories, you will love this one. It has more of the same, but better somehow.

I highly recommend this as a fun, feel good read.

With Call to Battle, it's win or lose for Captain Jason Reynolds and the Allied Forces defending Earth and the galaxy from Ot-Mul's Drac-Vin forces. The Craing on Halimar and the other Craing worlds may have revolutionized and turned away from their previous path of conquest, but Ot-Mul still controls hundreds of thousands of warships in space, and he's not done waging war and seeking to annihilate all other planetary systems in the galaxy. The Great Space initiative is on hold while he deals with the small problem of Captain Reynolds and The Lillly, but they're just flies on his backside. You're going to have to read and find out if Jason can hatch a plan genius enough to take on a warlord with a fleet exponentially greater than his own.

James Nelson says

No way this is over for me.

I have thoroughly enjoyed the enjoyed the entire series. It has caused my imagination to truly come out of dormancy.

I look forward to further adventures in this universe.

Daniel says

Great Space Opera

Loved the exploits of Captain Reynolds and entire gang. Great story line and action and lots of evil villains to hate! Loved how they always pulled it off by the skin of their teeth!

Ted Roberts says

Best so far in series, this is a must read.

Characters who hold one's interest through 7 volumes are not in every author's gift, but McGinnis' hero still has me hooked. He does do a better hero than villain, but we're all human. **HIGHLY RECOMMENDED.**

Michael says

This is the 7th and final book in the Scrapyard Ship series although there is a spin off series called Star Watch which I plan to read at a later date. In this one the battle between Earth it's allies in the Alliance and Commander Ot-Mul and his vast fleet of Craing ships finally takes place. On Earth's side are Captain Jason Reynold and his technology advanced ship the Lilly. Ot-Mul has a few tricks on his side in the form of nearly indestructible battle droids and also nearly indestructible prison ship of vast size. This is an action packed end to the series and I recommend it to all fans of Space Opera.

Bill Sherry says

Dang author

I started this series and was unable to put them down until the end.
Alls well that ends well. Great series, but the proof reader needs help.

Jesse Deleon says
