### **Joanna says**

Absolutely loved it! Is different from the typical romance and had an amazing story line. Couldn't put it down.

---

### **Matlene Kind says**

A wonderful novella about a journey of a beautiful lady becoming a woman. Her Dreams will help her find the way to battle her obstacles with strength & courage..Highly recommended for those who love a story with a difference and totally unpredictable.. Impressive Plot with strong characters..

---

### **Nicky says**

\*\*2.5/3\*\* The heroine was quirky, really liked the hero, and the story did keep me reading but there were quite a few portions I skimmed. Even though there were adult situations/scenes it felt more YA or for a much younger crowd. Some of the characters emotions seemed a bit over the top & I would like to strike the word blush from the english language. However, I enjoyed the last 15pgs they bumped my rating from 2 to 3.

---

### **Victoria says**

Is a great book to read

---

### **Bj says**

This was a spectacular read. Difficult to put down. The trials that the main character, Christina, went through...well, there were times I laughed, cheered, cried, and wanted to strangle those trying to harm her. Highly recommended.

---

### **Kay Bolton says**

I was really pleasantly surprised with this one. It was a freebie Kindle download from way back in February 2013 (see my blog: <http://toodlesbookclub.blogspot.co.uk> for details of personal challenge to find and read as many free downloads as possible in 2013).

I don't think under normal circumstances I would have gone near this kind of book .... just shows though that trying something new does quite often pay off.

It was really very well written. There were the odd few typographical and grammatical errors (mostly the norm with ebooks, but I still continue to bang on about it).

The plot moved at a nice pace, with believable characterisation, with lots of little sprinkles of humour.

In fact I loved Christina, and the whole internal dialogue she had going on. That girl was definitely one tough cookie.

It did leave me wanting more, and this author is now on my list of "good story tellers".

Highly recommended, and probably a 4 star read on Amazon/Good Reads (not quite there for 5), and 4.5 on the blog.

Be brave and give it a go.

### **Katherine says**

I was fortunate to have won this book through Goodreads. When I received the book, the first page actually threw me off for some reason, and so it took me a bit to get into the storyline. Once in, the first half of the plot read through pretty quickly. I was a bit frustrated at Baying Wolf's anger and the inability for Christina to do anything- but isn't that the way it was in those times?

With all the tragedy that Christina underwent, it was good to see how she overcame her prejudice, anger, and was able to channel her second vision into reuniting with Baying Wolf.

I may reread this book, but it would be awhile before I picked this up again so I could digest Christina's life and her choices. I have to say, I did really like how Ms. Woster ended the book.

### **Nell says**

Excellent book.

---

### **Teresa says**

Way way way to much tragedy for me!

---

### **Bob says**

It was only the best book ever and when I was called because my wife needed help I wanted to cry because I LOVED it so much thank you for writing this book Babara woster your the best author I know I can't wait for your next book or even books
