Echo of Redemption Roxy Harte

Is there salvation in truth?

Kitten is pregnant and torn between the idea of being both mommy and sex slave. With the help of her master, Lord Fyre, she makes the hardest decision of all...infuriating Garret, her second master. This revisits the question: can one woman truly serve two masters?

Lord Fyre is torn between blood and ménage. When his twin brother arrives shot and strung out, Fyre's world of bdsm suddenly collides with his past. Disappearing with his twin seems the only answer. But how can the ménage survive if he isn't there to hold it together?

Garrett faces uncertainty, knowing he has lost control of Kitten. He knows he must embrace his inner-Dom, known as Lord Ice, if he is ever to come out of the shadow of Lord Fyre and gain full control of Kitten. But is another man the answer?

The bonds of love and commitment is further tested when Lord Fyre pulls his lovers into his dark and dangerous world of intrigue in this fourth installment of the *Chronicles of Surrender* series.

Roxy Harte says

I loved writing about Nikos, Thomas's twin...I hope my readers find him intriguing.

Debbie says

What a great book!!! So much happens you just can't put the book down. The way it ended it just makes me that much more anxious for the next book.

Jo * Smut-Dickted * says

Really enjoyed it due to Thomas and Nikos. Wanted to smack Kitten and Garret. Little uncomfortable with some of the S/m in the book given Kitten's pregnancy. STILL in love with Frye/Thomas - that man is the MAN. *sigh*

Fallon Blake says

4.5 stars - My favorite since the first and it's going to kill me to have to wait until September to read the next installment.

Marion says

This book has been the best one so far. I still don't care for Thomas and Kitten comes across as needy and clingy. I did not care for the BDSM play during the pregnancy, especially the needle play. The intrigue was great.

comfort says

I am sorry to say this series is losing its interest for me as I don't think it is living up to the promises made in the first 2 books.

A sub living with two Sadist Doms.....

Still a good read and some very hot scenes- but too few, and not enough of the workings of the menage-they have been apart more than they have been together.

Will read the next book, but not going into it with the same enthusiasm as the first couple.

Emily Steinmetz says

I'm torn between giving this book 3 stars or 4. It's still interesting, but I'm starting to get bored. I know this story must be going somewhere, but it's starting to drag. The characters are becoming more and more annoying, especially Kitten. I'm hoping the next book in the series creates some sort of direction for the story line and wraps things up. I will say that this book contains a lifestyle I've never, ever thought about or considered, but it's fascinating. Fascinating in a crazy, does this really happen, kind of way.

Renee (ren213) says

After being a little disappointed with Unholy Promises I have to say Echo of Redemption made up for it as far as I'm concerned. I am already counting the days until the next book in the series!

Tammy says

So very good. Its a must read.

Jen says

CRY! This book should have been 2 stars for leaving me the way it did! I cried myself to sleep last night for a half hour after I finished it! WOW!

So I love Garrett, but he screwed up big-time in this book - it was sad to see him get so frustrated. But with Kitten's pregnancy progressing, still being undernourished and scared to death, Thomas gone - again - and Kitten in a frenzy ... can you really blame him for needing to bring out Lord Ice a little more often then before?

It was nice to see Garrett's other side - I was beginning to think he forgot who Lord Ice was - Even while Kitten is pregnant he found a way to make her happy :)

Thomas ... *sigh* what are we going to do with him!?!?!? He is like taking on the world by himself and the only ones that suffer is Garrett and Kitten - how is that fair??

This book leaves off a few mins before the last book ended - they were in deep conversation about the pregnancy - yes hurt by her keeping it a secret and frustrated by all the emotions going on.

Then the knock at the door with Niko's bloody body -
Garrett was operating on him to get the bullets out, Kitten was freaking out in private , and Thomas was watching everyone.

When George comes in and takes Thomas and Niko to his house to began Detox and healing for Niko, Thomas doesn't even get to say a proper goodbye - Which leaves Kitten a little high strung.

She starts getting a little frustrated with master, he's not working his job, Thomas's job and George's job, and he's getting burnt out!

Kitten and Jackie are back to being BFF's again and starts filling Kitten's head with ideas about her birth .. ideas that Garrett isn't too happy about.

We get to know the Niko's story and how he took Thomas's place when he went to work with Cobra - Thomas owes him for this, because he would have never met the 2 people in his life that he loves more than anything.

There are only a couple times when Thomas is able to get away and visit with Kitten and Garrett - Valentine's Day was one of them.. the day Garrett was ignoring Kitten because he had to work in the attic - although he was feeling guilty, he was still enjoying himself...

There is a lot of emotional up and downs in this book - lol when is there not!?! But it's nice to see the happy ménage after their Happily Ever After. They are a committed Ménage - they love each other, and they're determined to make it work - but no relationship is all happy and sunshine all the time. You really get a good glimpse of these people's lives - It feels like it could be a reality TV show :)

Trying to find book #5 for Kindle - I don't want to give up this series when I'm so close to the end !

TWIGGY17 says

Of all the books, I would say this is my favorite. Very sad at the end. Some very hot scenes. Despite all of Thomas's flaws he is my favorite.
