## Finding Home Cameron Dane

Picking pockets and stealing cars, Adam Reyes does what he must to survive. Working Chicago's O'Hare airport, he feels pretty confident when he spots his next mark.

Security expert Rhone Quinn can't believe the wiry kid who grabs his cell phone almost gets away with it. Logic says turn the teen over to the cops, but Rhone is a man who trusts his instincts, and his gut tells him to offer the young man a job and a chance to begin a new life. Little does Rhone know that when he makes that choice it will forever change his life, too. Over the years that follow a mentor relationship turns into a unique, abiding friendship. It eventually leads to true equality between Rhone and Adam when Adam becomes a full partner in Quinn Security.

Unbeknownst to Rhone, as time passes by, Adam is also falling deeply in love. With Rhone. Who isn't gay. And who doesn't know that Adam is. Then, one day, Rhone discovers the truth. Will Rhone's new awareness of Adam's feelings bind the men together even more intimately, or tear them apart for good?

### SheReadsALot says

Here's the thing, I try not read two books by the same author back to back because I hate picking apart any similarities I might find. (And I found some but due to the fact that I enjoyed both books regardless of them, I won't bitch.)

Mostly. :P

I'm rating **THREE & A HALF** stars but I'll round up. Why? The plotline is awesome - teenage virgin has crush on his boss for years and finally gets to act on it. And during these years they had a few intense moments. Great. It's cute and sweet and one hot tamale.

Here's food for thought though because I find myself wondering in what planet would I ever stick a dildo in my friend's ass for them. This happens in this story and it's *not* between the main characters. It's M/F...\*tilts head\*

I.

Know.

Call me selfish and also a Debbie Downer but um...if my bestest of best friends begged me to stick a dildo in their horny ass or else the world will end...guess we're both going to be some dead bitches.

Other than that scene that niggled me, it's a great little schmoopy sexy story.

Basically...

Plus

Equals?

### Trisha Harrington says

I loved Rhone and Adam, they were such a sweet couple when they actually got together. I have been put off reading this book for a while, for the simple reason its so short. Shorter books can put me off if I think it should be longer. That is normally the case but I really did like this book, no matter how hard I try not to. The phrase "short but sweet" seems to fit this book for me.

I am becoming a fast fan of Cameron Dane, this is the second book by him I have read and from this it will not be my last. This book might not be to everyone's taste but I loved it. It broke my heart when Adam had to move out of the apartment. A few of the scenes really cemented them in my memory.

This couple seemed destined to get together. Even their first scene together told me that. I really had a good time reading this book and recommend it to mm fans. :)

I believe that Cameron Dane definately knows how to write beautiful relationships. She gets to the core of her characters and brings them together with all the emotions that come with love from happiness to sadness, she conquers it all. I am so addicted to her work. With her writing it is often more than two hearts that come together it is also the meeting joining of two souls finding one another forever.

Ronin can't believe his eyes when his cell phone has been pick-pocketed from his jacket. One moment he is standing at the airport minding his own business, the next a young man has attempted to take off with his property.

When he confront the young man, he senses something different about him. Being a Private investagtor he immediate recognizes the youth is a runaway and decides to reach out and help him.

Adam never in a million years thought he would be offered a job and more or less friendship from the man he tried to steal from. When he realises that Ronin is serious, Adam gratefully takes a chance and allows Ronin to help him with his fragile life.

Adam moves in with Ronin and learns the PI business. Over the years he works his way up in the business and thrives on Ronin's friendship and guidance. He hides his homosexuality from everyone (it is the reason he was kicked out of his home to begin with) and his deep love and admiration for Ronin, who is a straight man.

I loved this story. The friendship and the love that develops between Ronin and Adam was beautiful, reconfirming that love has no boundaries and sees no gender.

If you are offended by M/M sexual activities, this book is not for you. Otherwise, enjoy every minute of it...I did.

### **Catherine says**

This story was TERRIBLE! BEYOND terrible, actually.

I have never wished that I could scrub my eyeballs and bleach my brain more than I did at about 55-60% in this story (and that's saying something, because there was plenty of terrible writing and freaky plot points before that as well).

It's truly not worth my time to write a complete review, so here it is in a nutshell:

What started out as an intriguing and unique set up devolved *very* quickly through frequent and frustrating time progressions. The scenes moved through time so quickly that nothing had a chance to settle or resonant with me as a reader (parts that had potential to be poignant and/or bring the heart stabbies practically made me yawn with indifference). The characters were two-dimensional tools with next to no REAL chemistry (the sexy times were not even remotely sexy and, in parts, downright creepy). The dialogue was so atrocious

I didn't know whether to laugh, cry, cringe, or do myself harm for continuing to read it. And most of the "big" scenes were completely ludicrous (I don't care how close you are with your friends and coworkers, you would **NEVER** do *that* for them! And why would you need them to!?).

Honestly, I could go on and on, but it wouldn't serve any purpose. Just do yourself a favour: consider me reading *Finding Home* tonight as 'taking one for the team' so that you don't have to.

Avoid! Avoid! Avoid!

I really liked this book. I particularly liked how Adam and Rhone's relationship developed throughout the book. They actually had time to get to know each other and fall in love. It wasn't the typical Love at First Sight storyline that I also like, but to me because of the way they fall in love with one another made this book unique and a really terrific read.

### **Norma says**

I didn't quite buy this story. Adam and Rhone are best friends and have been for quite a few years. Throughout the course of this friendship, Adam is a closeted gay man and is in love with Rhone. Rhone is a hetero who seems to only like women and has no idea that Adam is secretly in love with him. However, Adam and Rhone live together and touch each other like no straight men I know. Rhone touches his face to bring them eye to eye often. He also seems to embrace Adam quite often. But he doesn't have those feelings and doesn't see them in Adam.

Then one night a friend (female) is basically getting Adam off with a dildo (but we never find out why or how this started and it's referred to as a "session" and is alluded that it happens frequently) and Rhone walks in and freaks out. He thinks she's hurting Adam. They talk, Adam suddenly reaches orgasm and BANG! Rhone is gay (yeah, they have this deep, meaningful conversation while Adam is naked and hard and said orgasm happens on Rhone's jeans). Now all he can think about is having sex with Adam. During the oh so needed sex, Rhone suddenly realizes that he's gay after all and not only that--he's in love with Adam. The forever and ever kind of love.

Now I'm all for romances where after a week or two it's true love and we get our HEA. That's why I read romance. I'm not looking for reality. But this one didn't work for me.

I did, however, enjoy watching their friendship grow. There is of course more to the story and that part is great. But the romance didn't work for me.

### **Collette says**

Whew!! Now that was a hot little read. I loved the build up between the men. Adam was a punk kid that happened to try and pickpocket the wrong or is it the right guy. Rhone takes him

into his security business and gives him a chance to make something of himself. Through the years Adams love for Rhone grows but Rhone continues to date women and treat Adam as his best friend.

The relationship between these two men is really wonderful to follow. There is a whole spectrum of moments from fun to sweet to sad to super sexy.

I love how Dane carries this story over the length of time. For a short story it lasts a long time. :)

3.5 Stars

Adam Reyes is reduced to pick-pocketing to survive after his family disowns him and kicks him to the curb for being gay. As fate will have it, Adam one day targets security expert and business owner, Rhone Quinn. Instead of turning Adam in to the police, Rhone gets a feeling about Adam and decides to offer the young man a job and a chance to begin a new life. Over the years, not only does Adam prove he is trustworthy but he becomes a true asset to Quinn Security. Eventually, Rhone and his brother Canin make Adam a full-fledged partner. Equality is great and Adam is grateful for all the Quinn brothers have done for him but he hides a secret: he has fallen deeply in love with Rhone, who's straight. Rhone and Adam, however, ultimately find their way to each other and their HEA.

This book had a lot of potential and I enjoyed the characters but in the end it fell short for me. Why? A couple reasons. First, this wasn't just a GFY; it was a GFY, on the spot, one time, at the office, and done ... complete with the I love you's, talks of marriage, and happily ever after. Now, I'm a fairy tale lover at heart (what romance reader isn't) and I ADORE my HEAs, but come on. Second, the scene where Rhone discovered that Adam was gay *and* that Adam had feelings for him came out of left field. I mean ... whoa, I didn't see that scenario coming nor did I understand it. Plus, Cameron Dane never expounds on it other than to say that it was all part of the "plan." Hmm. Weird.

Bottom line: a charming tale that had a lot of potential but fell short IMHO. However, I liked the characters enough to continue this series.

### **Elizabeth says**

I feel so let down and disappointed in this novel, I can't stop fuming about it in my own mind. So, here I am.

Let me preface this somewhat unkind review by saying that normally, I'm of the belief that if you can't say anything good, you shouldn't say anything at all. Silence can speak volumes. Sometimes, however, you just have to speak up.

I've always been on the fence where Ms. Dane's work is concerned. I know she's a very popular author and has many, many fans that are extremely happy with her efforts. And I realize no writer's approach is going to appeal to all readers. I've probably read a half dozen of Ms. Dane's novels, so I can't plead ignorance to her technique or style. Not sure why I feel so ticked off about this novel in particular, but here it is! My apologies in advance if I offend any of Ms. Dane's staunchest fans.

The first 3/4 of the novel had me hooked. The structure was interesting and handled quite well, I thought.

The pacing was nicely controlled, details of the years passing unveiled with a subtle restraint (with the exception of jarring pseudo mutual-mastro-sex scene) that served the story well, building atmosphere and investing us in the lives of Adam and Rhone.

My heart broke for Adam when he finally decided that his unrequited feelings for Rhone were too much to deal with in close quarters. When he moves out of the home they'd shared as friends and colleagues for almost a decade the sense of loss was palpable.

It had all the makings of an emotionally powerful and satisfying love story. I let myself wallow in the sweet sadness of the temporary angst, knowing that the big emotional payoff would come. That moment when the two lovers FINALLY see the light and confess their true feelings to one other. Bliss.

And THEN Ms. Dane brought us to the present day part of the story .... \*sigh\*

This had to be, by far, one of the MOST ludicrous catalysts for resolving the romantic story line that I have EVER read. Rhone walks in on Kasey doing WHAT to Adam WHERE?? Are you freakin' kidding me?? Where the HECK did that come from? And WHY?? There was NO indication at any point up to then that either of those characters should EVER interact that way. And the blasé manner in which all three characters react to this insane predicament was completely unbelievable. I guess that's the bottom line there. Unbelievable. I went from being totally vested in the hearts of these two men, to not giving a damn because I couldn't even recognize them as the same people I'd been reading about for the previous 45 pages. I careened from reading a potentially heart felt, romantic love story, to being assaulted with kinky porn and cheesy dialogue in the space of seconds. Case in point - I quote one of the lines from this ridiculous scenario ... "Damn it, I can't talk to you with that thing sticking out of your ass."

Well, let me tell you, buddy, reading about it was no picnic either. Maybe because my eyes keep wanting to roll back into my head? And not in a good way.

Don't get me wrong – kink and cheese has its place. I'll all for ordering that off the menu when you're in the frame of mind. In Finding Home, I had lulled myself into expecting filet mignon on the table. Instead, I got mac and cheese. HEAVY on the cheese. And I'm left feeling that the real love story for Adam and Rhone will never have the conclusion it deserves.

What. A. Shame.

Feel free to disagree. This is of course just one opinion, and likely goes completely against the general consensus.

### **Candice says**

1.5

I like this story when it first started, the jumping of time could have been a litter smoother, I was liking both Adam and Rhone. But then the whole bit with him walking in on Adam and Kasey just did not work for me, was too unbelievable and at that point was glad this was a short story.

### **Trix says**

Since I'm in a good mood, I'll give this story a 2.5 rating.

I liked the beginning. How the characters progressively got to know each other and the slow way in which romance was built (on behalf of Adam). The starting point was rather cute too, a kind-hearted guy taking a teenager under his wing. How each year was marked by something that cemented their relationship.

However, the last few pages of the book felt totally out of place. [spoiler ahead]I simply read just to be done with it. It seemed totally unrealistic to me. Rhone made a 180 turn from never having had homosexual thoughts to offering his virginity. Adam acted like a damsel in distress, trying to flee from Rhone once discovered. Not to mention his exceptional sexual skills in all homosexual matters, despite never having been with a man. I'm not sure if there was anything else that bugged me about the end, since I practically skimmed the last pages. This is enough, though.[end spoiler]

The book had a really nice start, romantic and cozy. But the ending felt awkward in the created setting.

THEY FOUND A HOME AND I FOUND A GREAT LITTLE M/M FIX!!!

My my my this was a sweet read I tell you. Short and precise that packed a punch.

Adam Reyes is 16 and gay, ridiculed by his family for his feelings he's sent to repent and confess to his priest hoping that would heal him of his perverse desire. Easier said than done seems these feelings are hard to get rid of and the images of hot males running through his mind can never go away. His father discovers his copy of playgirl and with rage Adam is beaten and sent on his merry way to make a life by himself. At 16 theres not a whole lot of prospects so he starts hustling by that i mean he becomes a pickpocket. He spends his time at airports where he robs fatigued and stressed out flyers. Easy targets but one man proves not so easy to dupe and this is where Adam finds his home and love.

Rhone Quinn cant believe this kid just tried to take his phone, come on. He knows he should turn this kid over to security but his gut is telling him save the boy and the thing Rhone knows is to always trust his gut instinct. So with leaving his card with the teen, what he never expected is that a friendship so deep would evolve and Adam would become the very thing he longed for.

Over a span of ten years you will see this friendship grow and a love so strong bloom. Through tragedy and girlfriends Adam's loyalty never wavers and you start to feel his frustration of a love he feels will never be returned. So sweet and beautiful and oh gawd so sexy. Adam will light your fire, I just had the greatest little fix. YUMMY!|

## MLE says

The story flowed very strangely with lots of time jumps until the end. It kept me from feeling invested in the characters, their situation, or their supposed bond. The resolution was strange, and neither sexy nor romantic. The agreement between two characters (both of whom were in love with other people) was just too strange for me, and I kept waiting for the main character to wake up, and end the awkward encounter. The gfy aspects of the ending really didn't work, although I have to give the author some credit for the ending sex scenes, and the balance of power. It was nice to read a story that didn't feel like recycled het romance cliches. One very small bright spot in an otherwise unmemorable book.

What can I say? It's Cameron Dane.

She was one of the first authors I read back in 2012 when I discovered M/M romance. Her sex scenes are insanely plentiful, primal, and DIRRRRTY, and her MCs are alpha men up for fucking 24 hours a day.

I may have read this book already, but I hadn't marked it as read or given it a rating, so I reread to be sure.

**Verdict: HOT if a little dated.** The idea of GFY without bisexuality being mentioned once had me rolling my eyes, but Adam and Rhone were pretty damn sexy together.

I can forgive a multitude of sins (like slightly stilted dialogue) when it comes to Cameron Dane because I treat her books like the nostalgic smutty smut that they are.

Give me a big dick, a fluttering hole, a glass of wine, and call it good.

## WTF!!!!

This book is freaking weird...

It started ok...not good but ok...it had potential...then it just went crazy ass freakazoid on me.

An older guy (Rhone) meets a young boy (Adam) who had stolen his phone but instead of turning him to the security guys at the airport he instead gives him a chance and a job. They soon become room mates and over time friends...the boy grows up and gets a promotion..then another one (now he is a partner in the firm). And here comes the first weird moment...something sad had happened in Rhone's life so he was depressed and Adam was there to support him...Rhone falls asleep but some time later turns around and starts to masturbate (while asleep)..Since Adam has feelings for Rhone this turns him on so he does the same thing...right there in the same bed where Rhone apparently is sleeping...

- Page 26: "Adam thrust his hips up and down" (...) "He writhed on the bed like a wanton"...and through all that Rhone never wakes up? O\_o

He never even notices anything...even when he does wake up and has a wet spot on himself he still is

clueless and just goes ahead to hug Adam and to talk to him ...this is just weird. But ok...I could suspend my belief on this and move along.

As mentioned before Adam has feelings for Rhone so he can't stand to live with him anymore... especially since the older guy brings girlfriends home..so he moves out...1 year later the older guy admits to still missing the young one and their shared life in his (inner monolog) and starts having weird feeling when he sees the younger guy talk to a woman in the hallway (another one of their partners in the firm)...and this is when shits starts hitting the fan.

The first part (32 something pages) of the book cover 10 or so years...the last part covers like few hours only (2 hours have been mentioned I think). So here are those 2 hours...marvel at the sheer ridiculousness :D

- See now I know this book is about these two characters...and since this is a romance book then we do know they are meant for each other...but since the young guy had moved out...and a year had passed, I kinda felt he should have moved on a bit at least...I don't know...dated a bit? But no...instead he had gotten his female partner at the firm to...umm...how do I say this...fuck him with a dildo for a year....WTF!!!

Now they are in his office and doing the thing...Adam refers to it as a session O\_o apparently it's supposed to cure him out of his 10 year crush on Rhone.

LOL this part made me laugh hysterically and at the same time think ouch!!!

- Page 32:"She jammed the thick, long toy back inside him to the base, as she had done to him for almost a year."

- Then of course enters the older guy...no really...he enters the office at the worst possible moment :D freaks out, he is mad and blames the woman...he thinks she is hurting the young guy so he trows her out and starts a conversation with the younger guy...who by the way is still

A) naked and

B) has a dildo in his @ss...

Again WTF??!

Soooo this is what happens..

- Page 33: "Damn it, I can't talk to you with that thing sticking out of your ass." Rhone reached around Adam and, in a shot, yanked the dildo out of his tender anus."

lololololol

They then talk a bit more and suddenly Adam has an orgasm on the other guy's pants...lol

Adam is of course embarrassed so he tries to run out of the office (still naked)...but is stopped by the older guy who wants to know what made Adam have an orgasm.

- Page 35: "Tell me why you just dumped a shitload of jizz on my leg without any provocation at all" ...um first of all I don't think people come when they feel provoked :D and secondly right when he asked the question he stars jerking Adam off (or at least he is touching his private parts)...umm LOL

- Adam tells the older guy the truth about loving him and they then have sex twice...yeah...a strait guy just turned gay in less the 5 minutes, found out Adam loves him and that he has done so for the last 10 years, realizes he loves Adam back and is totally ready for sex (to be on the receiving end).

But lets take it slow...

Real slow..

After the first sex round (which by the way was rough and Adam the innocent virgin is the bottom) there is this weird blowjob where the older guy "**forces**" himself deeper, then "**mashes**" the younger guys head to his stomach without even asking if the younger guy can deepthroat..lol and again...please remember the younger one has no sex experience at all...none but is apparently a pro by the sound of it!!

Anyways...Adam pulls his head away from Rhone's grip and this happens:

- Page 42: "Aching, unfamiliar loneliness welled up in Rhone, a hollow feeling of loss that unexpectedly rocked him to his core.

"What...what are you doing?" Vulnerability assaulted Rhone at Adam's withdrawal. He didn't think he had ever felt so exposed. It was unfamiliar, and he didn't like it one damn bit. He turned away, giving Adam his back, not wanting the man to see this new raw need in his eyes. "Did I push too deep and make you uncomfortable? Why did you stop?"

LOL well I would say yes to that...as probably many would...but no that was not the reason...Adam was not bothered by any of that since he seems to be born with the experience to be able to deepthroat that easily :D After this (some more talking) and the old guy realizes he is in love....yep.

Now the first time they had sex the older guy is the top as I mentioned...and even though the younger guy never had sex before he still had those toys so I guess he was ready... and on some level I could accept that he was ok and even enjoyed it even if it went so fast and hard ..But then the older guy (Rhone) is on the receiving end when they have sex for the second time....now keep in mind he never had anything with a guy before...he was straight till this point and yet he just jumps in as if it was nothing...lol

Almost no preparation at all...

- Page 49: "Adam humped Rhone's ass without control: erratic, choppy, and rough"

Damn in the real world that would have hurt like a son of a B\*\*\*\*...yet apparently not in this book....well to be fair it did hurt him in the beginning since Adam just went nuts and started humping like crazy..

...but after like a minute he was fine and even enjoyed it so much that he came a third time.

During and Following this there is some poetry...no really....they talk as if they were in some kind of Shakespeare play :D

Anyways...they talk some more and the older guy reassures the younger one he wants him...Rhone is telling Adam this:

- Page 51: "I don't bed-hop, and I don't enter into sexual relationships lightly; you know that" .....and this is wrong...based on earlier info we got then this guy does just fuck woman when ever he has time.

- Page 15: "Rhone had a date tonight, his fifth with this woman, and ever since the third, they always came back to the apartment to cap off their evening."

- Page 25: "not stopping until he found a way to make Rhone moan with need for him, rather than the occasional date he brought home".

Beside that we have never been told nor have we seen a girlfriend that mattered at all...and since this book spans over 10 years that is telling.

Anyways Rhone continues telling Adam he only cares about him and his own brother...at that moment the brother pops up (who we by the way have seen for like few seconds before), turns out he and the woman arranged for Rhone to show up and see what Adam was doing with the woman...and apparently while Rhone

and Adam were having wild monkey sex he (the brother) and the woman were right outside the office.....ummm...ok...creepy.

Short story even shorter...they decide to go home (they are supposedly now moving back together) and plan how to return the favor to the brother and the woman (apparently they too were in love but could not see it).

The end.....Now I'm off to burn this bitch ass story!!
