### **Lita Acevedo says**

Another fun read in this series. This one is by Annabel Chase and it's a murder mystery involving a fire witch with a need for organization. Kenna is so organized she has two planners - one for her work life and one for her private life. Everything is scheduled. Then there's Lucas who is very hot and a pilot and quite the opposite of Kenna. It could never work between them, or could it?

#### **Wonderful**

The book was so good and even had a reference to Spellbound. This book gave more insight to the individual witches. I can't wait to learn what really happened during the Incident.

#### **Great!**

I was so excited to find that the third book in this series was written by an author I've become very familiar with - and very fond of! Perfect person to write Kenna's story.

### **Natasha Isaacs says**

#### **Great read**

I didn't know what to expect because this series has a couple of different authors each putting their own flair with each character, but this book was great. I like when different authors do this not only do you get to know different authors but you get a great story. I will definitely be reading more of this author's books.

#### **Learning to fly.**

Annabel Chase does a number on witch number 3 in the Eternal Springs series. It's not every fire elemental that has to deal with flying monkeys but Kenna handles that and more in this episode.

### **Elisa Hordon says**

Just as funny as the first 2 books, I have to say the 4 authors writing this series all write funny well. I really liked the banter between Kenna and Lucas out of the first 3 books in this series their has been the best potential couple banter and storyline for me.

The mystery in this one was good to and the Flying Monkeys were a hoot lol.

### **Kerry says**

I have been looking forward to Kenna's story, and it did not let me down! I really enjoyed her with Lucas. The mystery was interesting as always. I really loved her familiar, Gerald! He is probably my favorite of the animals so far. These authors have done a great job of keeping up the same tone and cohesiveness with each story. Looking forward to book 4, and I hope there are more from there!

### **Alicia Williams says**

Eternal Springs is a fun series about four witches left on an island to defend the town from beasts who cross through a portal they caused to open. Not a lot of crossover between books, so they are rather stand-alone stories.

I was hoping for a finale where the witches would learn to work together, but they stick to the Cozy Mystery formula and stay light-hearted.

#### **Fun and extraordinarily entertaining**

And extraordinarily fun and entertaining story. The third book in this for book series by four different authors. Each cozy mystery is set on an island off of New Jersey that for which is guard and protect. You missed read the stories to find out all the details. Each author writes their own cozy mystery series and I hope they each take their character and stories and spend them all off into four separate extra series that they will continue. Check them all out they are very entertaining fun spunky and you won't be dissatisfied.

#### **Great series**

Very interesting series that is written by 4 different authors. You can see the different styles but the story flows because it is 4 different characters point of view. Start with book 1.

## **Krystyna says**

### **Scheduled murder**

A solid read. She likes to keep schedules and her life in order. However all that goes up in flames for our fire witch when the competition of the bands that she is organising seems to have hit a roadblock with the death of a drummer from the favourite local band. Worse a trio of flying monkeys have come through the rift left behind when she and three of her school friends let their school burn down years ago. Now she has to get them back, find a killer and deal with the attraction she feels for a local boy. Can she do all of this? The plot was a good one but slightly lost the oomph as it progressed. The characters too seemed lacklustre.

### **Five stars**

Book three in the Elemental Witches series is very funny. Kenna, the fire witch is plenty snarky and her familiar, the pink fairy armadillo, Gerald, acts as her butler, cook and bottle washer. Throw in a 6'4" , hunky " Luke Skywalker " and three large flying monkeys and you are on quite the adventure! Annabel Chase is hilarious and spins a good tale. Well written and well edited.

## **Barbara Hackel says**

Of the three books in the series out this far, this one is my favorite. The witch, Kenna, is head of tourism for the island. She is super organized down to multiple datebooks! I had to laugh because we all know someone like that, or are that person. True to form she schedules everything and gets it all done! Type A+ personality. But I found the fact that she had regrets about things she and the other witches did in the past endearing. She had a conscience and even tried to own up to past misdeeds.

Kenna is a fire witch, yet is careful not to use that talent in case she would harm someone/something. When push comes to shove, she has other tricks she uses.

Who would think a Battle of the Bands would be so difficult to organize? Throw in a murder on the first day of rehearsals and you begin to understand how much could go wrong. Kenna takes on the murder as well as visitors from OZ and still manages to finally find a boyfriend who is just about perfect.

Just about perfect also describes her familiar, Gerald. He is a fairy armadillo who is so chubby that he can't really fly. But he has to be the best familiar ever-giving clothing advice, making dinner, running a bath. helping research spells...the list goes on. Fortunately Kenna knows and lets him know how much she appreciates him! I do believe these two are my favorite witch/familiar combination thus far.

Because each book is written by a different author, it is hard to compare techniques used in their writing. Best advice I can give is read them all! It is a fun series, and somebody had a brilliant idea!

**Melissa says****Wonderful!**

Loved, loved, loved this book! The right amount of mystery and romance! This series is just getting better and better! Can read them alone or out of order but reading them in order makes sure you don't miss anything though!

**Patrea Beard says****Fun**

So another great read and everyone is doing a great job with continuity considering there are 4 authors. Loved the cameo by LOOK MOM NO WINGS from Annabel Chases's SPELLBOUND series. Even if just a passing hello.

Thought Gerald might be my favorite familiar so far but half way through thought he got a bit to suck up, though who wouldn't love to have him around doing stuff for you. Now I waffle between him and Clover. I liked Stuart a lot too.

Now for Evian and her adventures. Haven't read anything from the next Author so hopefully I find a new Author to follow.
