**Beverly says**

**3.5 - 4 Stars**

This book has a very unique twist and the author has requested no spoilers be listed, even if hidden, so my review will be pretty vague.

Jazz and Brax have had a story book relationship. They met the day of her high school graduation, two years older Brax was already in college, but he knew what he wanted and began pursuing her immediately. They had their ups and downs over the years, but for the most part Brax has been this perfect guy who helps her achieve her dreams, loves her beyond belief, and still gets her all hot bothered.

The story begins with a look at Jazz and Brax today. They are married and have a perfect baby girl. This shows just how perfect things are for the couple, there are also has points of reflection so you see how their relationship grown and progressed.

Then a bomb is dropped on them and they are shaken to their core. I have never read a book with a twist like this, and honestly I wasn't sure how the heroine should have reacted. However, I know I didn't like her actions going forward. Is that rationale? No, probably not, but this is just one girls opinion. Due to not wanting to spoil I can't share my big complaints, so I will just say I was very disappointed. My heart broke for everyone involved, but especially Brax and Savannah.

So when deciding on how to rate this one I gave stars for the plot twist, but took away stars for how the story played out. In the end, I did end up liking this one, but didn't love it. I couldn't relate to Jazz and felt Brax was a doormat. In the end, I think this one is worth picking up if you like unique plot twists and different type of reads.

Have you ever read a book that makes you mad that you wasted your time finishing it? Worst heroine of my life, oh my god. 1 star for basically 3/4 of a book being completely repetitive.

Lost Until you, Sorrentino Brother series, Book 1

Jaz's life turned around the day she found a permanent foster home with someone who cared enough to take her in. Jumping from school to school and constantly being an outcast left her with no friends. All that changed the day she met Kim, not only did she gain a best friend it also lead to her meeting Brayden and his entire family. The Sorrentinos were a friendly family welcoming Jaz with open arms. Brax could see more to Jaz and was smitten from the moment they met. Brax and his family coming into Jaz' life is about to change in more ways than she could ever imagine.

Jaz and Brax have a bond, chemistry, love and commitment to one another so strong it will make you feel like you're missing out on having that for yourself. Their relationship was perfect, who could ask for anything more?

Their love created Savanna, their beautiful daughter, having made all her dreams come true, well almost. One thing was always missing and couldn't seem to get past where her parents. Who were her parents? And did she have any living relatives out there? Brax's best friend Stone is the best person to help find missing persons that have never been found when all other avenues have been exhausted.

When Stone finds the information Jaz needs to do this, she needs to seek these people out and see who they are and what connection they have to her parents. But when she meets with her mother's family, Jaz and Brax could never imagine the terrible secrets that have been hidden for so long. Can their love surpass all problems? Will they be strong enough to get through all their pain?

Without going into too much detail and giving away the whole story I loved this sweet, romantic book. At times we were so sad for Jaz and Brax, they went through hell and back in their relationship. Congratulations on book 1 in the Sorrentino Brothers Series, I cannot wait for book 2, Lost Until Us.

Jazz thought her life was perfect; she had a loving husband and beautiful daughter, wonderful friends and family, and yet she didn't realize her "perfect world" was about to come crashing down...

When she met Brax Sorrentino, there was an instant connection and she knew he was it for her. Seeing they love she has for Brax melted my heart because I know how it feels to love someone so fiercely and how they become your *everything*.

Brax knew from the moment he laid eyes on Jazz that she was the one, and he wished he had met her sooner to have made her his then. Brax works to give Jazz everything she could possibly want and if he could, he

would even try to help her with her past as well.

But when Jazz gets some news concerning her past, she feels the need to take care of it on her own, leaving her husband and daughter. Reading about her journey is heartbreaking, because it's like she's in an endless race and yet, when she finally gets there, is it what she expected? Does she get the answers she's been searching for? Meanwhile, poor Brax is suffering and worried without her.

Despite it all, he calls her and lets her know that he is there for her no matter what. The love they both have for each other is beautiful, amazing and endless!! What a beautiful story about forgiving, moving forward and loving those who are dear to your heart with a fierce passion!! ~ Kara, 4.5 Beautiful Stars

Such a sweet, sweet heart wrenching story. I can not wait to see what the future hold for the rest of the Sorrentino Boys!

Jazz and Brax have the perfect life. After a life filled with heartache, Jazz finally has her happily ever after. But as we all know it never stays good if it is too good to be true. When Jazz starts digging into her past her happy little walls come tumbling to the ground.

I enjoyed this break from the regular storylines I have been reading lately. This wasn't about Jazz and Brax getting together, this is about how life can still screw with you after you have your perfect mate.

I only had one small issue with Jazz, I really wanted to shake her and say WTF!!! I will not go into detail as I do not want to give away too much but she was somewhat selfish and at times didn't deserve the man she had and the family.

Really a great read!

OMG!!!! First let me just say I love me some Brax!!!! Oh holy hotness! Jamie you have outdone yourself with this book! I laughed, I swooned and I bawled my eyes out. I was so invested in these characters and their undying love for each other. Just the sweetest ever and then boom!!! Yeah a few choice words left my

mouth and the kindle may have been thrown but I held on. Without a doubt something I never saw coming. I must say it was Epic! Two amazing people, deeply in love, fighting their way through something totally out of their control. I enjoyed all of the secondary characters and can not wait to read their books. Brax and Jazz will forever hold a special place though. The tears were flowing when their HEA came through. Thank you for an amazing book! You rock!

Brax and Jasmine started a beautiful loving relationship while in college and they were inseparable. They supported each other through good and bad times. They married and had a beautiful daughter. Things appeared to be perfect. But..... things were about to change...

Brax had a strong family background with lots of brotherly love, while Jazz was raised in foster care. When she decides to seek out information on her birth parents, Brax and Jazz's world is turned upside down! I loved the storyline of this book! It was not like anything I'd read before.

My heart was aching as I flipped the pages.... so heart wrenching! This little family that had it all together was struggling to keep it together... ugh, the tears!!!

I loved this book and will definitely continue with the Sorrentino Brothers! And dying to know what happens with Stone! Great start to the series!

### **Jecca says**

I received an ARC of this book from the author in exchange for an honest review.

BUT before I say anything else I just need to say...I was not expecting that at all!

Jazz and Brax are happily married; they have a daughter, a beautiful home, careers they love and enjoy, but mostly they have this fierce and amazing love for each other. Everything seems perfect, until it all goes to hell.

Jazz had a rough life before Brax came along. There was nothing good about her past, she never had a home

or place in life.

***“For the longest time, I was told no one would love someone as worthless as me.” Jazz***

Until she met Brax, the one person she never saw herself lucky enough to have. He was her happily ever after, the one who made her dreams come true, the one who loved her just as much as she loved him.

***“He completed me in every way imaginable.” Jazz***

Brax had a normal life, brothers, cousin, family and friends. Something about Jazz grabbed him and didn't let go. He has made it his mission to make sure that her every wish is granted because he loves her so much that anything less is not acceptable.

***“She captured my soul, stole my heart, and somehow turned me into fucking mush.” Brax***

***“No matter how near or far you are, you will always own my heart. You're it for me, baby. Always and forever.” Brax***

So what happens when a completely unexpected turn of events shatters their world? Literally it was throws it into turmoil and makes them question everything?

***“I didn't understand how you could have everything one minute, and then in a blink of an eye, it would all be gone. But what I did know was that I couldn't let my family be torn apart.”***

I enjoyed how this was a dual POV book because you get to see what is happening to both Jazz and Brax after the ax is thrown into their marriage. But you also got to see how they really felt about each other, in their own words. You see how they both deal with their devastation. There are unexpected twists and turns you never see coming and you keep guessing until the end. The mystery is what I enjoyed the most about this book, that you couldn't figure out what was going to happen or where it was going to go. I found myself re-reading things just to make sure I read it right.

There were some things that I did not enjoy as much, at times it became repetitive. Jazz became more dramatic while Brax became more explosive and at times their personalities were a little much. I also found myself getting impatient, I wanted answers and I wanted them sooner than they were given.

I do look forward to the next book though and can't imagine where in the world Ms. Grant will go next.

4 Heartfelt Stars!

Review by Jen Hagen

This is my second book that I have had the pleasure of reading of Ms. Grant's. She writes with flow and beauty, allowing the reader to experience the same emotions as the character.

Brax and Jazz have been together for 5 years. Brax has had to adjust his life plans as a career-ending injury blew his chance at the NFL. Once he picked himself off the poor-me wagon, he was able to get his life back on track, which included Jazz being part of it. Brax and Jazz have been married for 2 years and have a little girl, Savannah. Brax's family is his pride and joy and he would go to any depths to ensure they are happy.

Jazz didn't have an easy life growing up. She was shuffled from foster home to foster since birth and ending at age 16 when she found a stable foster mother. She has never had any family to fall back on, simply because she doesn't know her birth mother's family as her mother passed away shortly after giving birth, and her father is unknown.

Jazz has always wondered about her birth family, but has never had any luck or resources to fall back on. Brax's best friend does PI work and has information that will change their lives as they know it.

**I didn't understand how you could have everything one minute, and then in a blink of an eye, it would all be gone.**

Brax and Jazz are going to be going through an extremely rough patch in their lives. It doesn't matter how much Brax loves Jazz, because love can't save them...in fact, it can only lead to more hurt.

**"For what it's worth, I'll always love you. But this," she said and looked up, pointing between the two of us. "This is over."**

Brax and Jazz are beautiful together. There is so much love emanating from each of them that it broke my heart to see how much the revelation tore them apart. Brax's obvious display of his emotions was true, and every time he cried a piece of my heart went out to him.

Their future depends on what is sealed in an envelope. Will it be the answer they fear or the answer that will allow their family to become one again?

**If you loved someone with your whole heart, more than anything in the world, they become worth the fight. They are lost until you.**

### **Amy Callahan says**

When the whole Sorrentino family decided to love and accept Jazzy they did so for better or for worse. This was Jazz and Brax's turn to be happy in life and love. It was the Sorrentino's time to grow and flourish as a family. None of them could believe that they would be tested so quickly. Now it was time to see how strong the bonds were to keep them together and let that life together grow.

Jazz and Brax came from two totally different backgrounds and seemed to click right away. Whether it was

her need for unconditional love or his need to protect, they just seemed to mesh together nicely. Their relationship grew together until Jazz's need to find out more about her past. Then the true test was in front of them. They fought hard to keep the balance they once had but struggled tremendously along the way. Watching the family stick by them and work together made the book for it for me.

This book was a cute story for me. It had minimal angst and a lot of dialog which was good. The writer held my interest and kept me captivated by the story throughout. I enjoyed Jazz and Brax's book and would like to read more in the series! I give this book 3.75 stars.

J.R. Grant has out done herself with this story. I loved everything about it. Beautiful love story and some very intense HOTNESS! I fell in love with Brax and his undying devotion to Jazz. They had it all, nothing could be better for them, nothing could come between them...so they thought. I never saw it coming. This was a true test... I couldn't put it down...I loved Shattered Promises but this story moves her writing to the next level....

### **Renee at Book Happiness says**

I received this for an honest review.. I have to say that I was completely blown away by this book. I think I fell in LOVE with Brax in the very first couple of chapters.

Jazz and Brax have been married for a bit and have a beautiful daughter together and life just seems about perfect for the two of them until some shocking news threatens to tear this couple and their love apart!!!

This book is not what you expect it to be and the story is an emotional roller- coaster that you don't really think will end. The author has you captivated for the entire book. The love you feel coming from the pages absolutely pulls at you. There are times in this book I just felt like my emotions could not take anymore. LOVE LOVE LOVE!!!!

### **Gretchen Anderson says**

I absolutely loved this book!!! JR Grant writes amazing stories, but this one is one that will pull at your heart strings. I can not even begin to imagine being put into the situation that Brax and Jazz are thrown into. The twist and turns that this story takes will have you praying that the better man wins is the only way I can think to even list this.

The strength that Jazz has is amazing because if I was thrown the curve balls that she is I would totally lose my mind, worthless is better way to list it. The furry that I would have would be unbelievable against life in general, not to mention the entire world.

After reading this book, I can honestly say that I can not wait to get to read the rest of the Sorrentino boy's stories and hopefully keep up and maybe get another story with Jazz and Brax in it.

And for my favorite quote: If you love someone with your whole heart, more than anything in the world, they become worth the fight. They are lost until you. ~ Jazz
